

Exam CMMC-CCP Blueprint | CMMC-CCP Valid Test Question

What's more, part of that PassReview CMMC-CCP dumps now are free: <https://drive.google.com/open?id=1d-TdPsXmByg-ewf-VM96iZIXObluLV>

The CMMC-CCP certification is the way to go in the modern Cyber AB era. Success in the Certified CMMC Professional (CCP) Exam exam of this certification plays an essential role in an individual's future growth. Nowadays, almost every tech aspirant is taking the test to get CMMC-CCP certification and find well-paying jobs or promotions. But the main issue that most of the candidates face is not finding updated Cyber AB CMMC-CCP Practice Questions to prepare successfully for the Cyber AB CMMC-CCP certification exam in a short time.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.
Topic 2	<ul style="list-style-type: none">Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments.
Topic 3	<ul style="list-style-type: none">CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.
Topic 4	<ul style="list-style-type: none">CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.
Topic 5	<ul style="list-style-type: none">CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.

Cyber AB CMMC-CCP Valid Test Question | CMMC-CCP Accurate Answers

All these three Cyber AB CMMC-CCP exam questions formats contain the real, valid, and error-free Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam practice test questions that are ideal study material for quick Cyber AB CMMC-CCP Exam Preparation. Just choose the right PassReview Certified CMMC Professional (CCP) Exam Questions formats and download quickly and start Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam preparation without wasting further time.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q129-Q134):

NEW QUESTION # 129

There are 15 practices that are NOT MET for an OSC's Level 2 Assessment. All practices are applicable to the OSC. Which determination should be reached?

- A. The OSC may have 90 days for remediating NOT MET practices.
- B. The OSC may be eligible for an option to remediate NOT MET practices.
- C. The OSC is not eligible for an option to remediate NOT MET practices.
- D. The OSC is not eligible for an option to remediate after the assessment is canceled.

Answer: C

Explanation:

In the context of the Cybersecurity Maturity Model Certification (CMMC) 2.0, achieving Level 2 compliance requires an Organization Seeking Certification (OSC) to implement all 110 security practices outlined in NIST SP 800-171 Revision 2. The CMMC framework allows for a limited use of Plans of Action and Milestones (POA&Ms) to address certain deficiencies; however, this is contingent upon meeting specific criteria.

According to the final CMMC rule, to obtain a Conditional Level 2 status, an OSC must achieve a minimum score of 88 out of 110 points during the assessment. This scoring system assigns weighted values to each of the 110 security requirements, with some controls deemed critical and others non-critical. The POA&M mechanism permits OSCs to temporarily address non-critical deficiencies, provided the minimum score threshold is met. Critical controls, however, must be fully implemented at the time of assessment; they cannot be deferred and included in a POA&M.

MWE

In the scenario where 15 practices are NOT MET, the OSC's score would fall below the required 88-point threshold, rendering the organization ineligible for Conditional Level 2 status. Consequently, the OSC would not have the option to remediate these deficiencies through a POA&M. Instead, the organization must fully implement and rectify all NOT MET practices before undergoing a subsequent assessment to achieve the necessary compliance level.

This policy ensures that organizations handling Controlled Unclassified Information (CUI) have adequately addressed all critical and non-critical security requirements, thereby maintaining the integrity and security of sensitive information within the Defense Industrial Base.

For detailed guidance on assessment criteria and the use of POA&Ms, refer to the CMMC Assessment Guide - Level 2 and the official CMMC documentation provided by the Department of Defense.

NEW QUESTION # 130

During an assessment, which phase of the process identifies conflicts of interest?

- A. Analyze requirements.
- B. Verify readiness to conduct assessment.
- C. Generate final recommended assessment results.
- D. Develop assessment plan.

Answer: C

NEW QUESTION # 131

An OSC has requested a C3PAO to conduct a Level 2 Assessment. The C3PAO has agreed, and the two organizations have collaborated to develop the Assessment Plan. Who agrees to and signs off on the Assessment Plan?

- A. C3PAO and Assessment Official
- B. OSC and Sponsor
- C. Lead Assessor and C3PAO
- D. OSC and CMMC-AB

Answer: C

NEW QUESTION # 132

An assessor is collecting affirmations. So far, the assessor has collected interviews, demonstrations, emails, messaging, and presentations. Are these appropriate approaches to collecting affirmations?

- A. Yes, the affirmations collected by the assessor are all appropriate, as are screenshots.
- B. No, emails are not appropriate affirmations.
- C. Yes, the affirmations collected by the assessor are all appropriate.
- D. No, messaging is not an appropriate affirmation.

Answer: A

Explanation:

Understanding Affirmations in a CMMC Assessment
Affirmations are a type of evidence collected during a CMMC assessment to confirm compliance with required practices. Affirmations are typically collected from:

#Interviews- Conversations with personnel implementing security practices.

#Demonstrations- Observing the practice in action.

#Emails and Messaging- Written communications confirming compliance efforts.

#Presentations- Documents or briefings explaining security implementations.

#Screenshots- Visual evidence of system configurations and security measures.

* The CMMC Assessment Process (CAP) Guide states that assessors may collect affirmations via various communication methods, including emails, messaging, and presentations.

* Screenshots are an additional valid form of objective evidence to confirm compliance.

* Options A and B are incorrect because emails and messaging are explicitly allowed forms of affirmation.

* Option C is incomplete because it does not mention screenshots, which are also considered valid evidence.

Why "Yes, the affirmations collected by the assessor are all appropriate, as are screenshots" is Correct?

Breakdown of Answer Choices

Option

Correct?

A: No, emails are not appropriate affirmations.

#Incorrect- Emails are a valid affirmation method.

B: No, messaging is not an appropriate affirmation.

#Incorrect- Messaging is allowed for collecting affirmations.

C: Yes, the affirmations collected by the assessor are all appropriate.

#Incorrect- Screenshots should also be considered valid evidence.

D: Yes, the affirmations collected by the assessor are all appropriate, as are screenshots.

#Correct - Screenshots are also a valid form of affirmation.

* CMMC Assessment Process Guide (CAP)- Defines allowable evidence collection methods, including affirmations through written communication.

Official References from CMMC 2.0 Documentation
Final Verification and Conclusion
The correct answer is D. Yes, the affirmations collected by the assessor are all appropriate, as are screenshots. This aligns with CMMC 2.0 assessment procedures for collecting affirmations.

NEW QUESTION # 133

Which statement BEST describes a LTP?

- A. Delivers training using some CMMC body of knowledge objectives
- B. Instructs a curriculum approved by CMMC-AB
- C. Creates DoD-licensed training

- D. May market itself as a CMMC-AB Licensed Provider for testing

Answer: B

Explanation:

Understanding Licensed Training Providers (LTPs) in CMMC Licensed Training Provider (LTP) is an entity that is authorized by the Cybersecurity Maturity Model Certification Accreditation Body (CMMC-AB) to deliver CMMC training based on an approved curriculum.

Provides CMMC-AB-approved training programs for individuals seeking CMMC certifications.

Uses an official CMMC curriculum that aligns with the CMMC Body of Knowledge (BoK) and other CMMC-AB guidance.

Prepares students for CMMC roles, such as Certified CMMC Assessors (CCA) and Certified CMMC Professionals (CCP).

Key Responsibilities of an LTP:

A). Creates DoD-licensed training # Incorrect

The CMMC-AB, not the DoD, manages LTP licensing. LTPs do not create new training content but must follow an approved curriculum.

B). Instructs a curriculum approved by CMMC-AB # Correct

LTPs teach a curriculum that has been approved by the CMMC-AB, ensuring consistency in CMMC training.

C). May market itself as a CMMC-AB Licensed Provider for testing # Incorrect LTPs provide training, not testing. Testing is handled by Licensed Partner Publishers (LPPs) and exam bodies.

D). Delivers training using some CMMC body of knowledge objectives # Incorrect LTPs must fully adhere to the CMMC-AB-approved curriculum, not just "some" objectives.

Why is the Correct Answer "Instructs a curriculum approved by CMMC-AB" (B)?

CMMC-AB Licensed Training Provider (LTP) Program Guidelines

Defines LTPs as entities that deliver CMMC-AB-approved training programs.

CMMC Body of Knowledge (BoK)

Specifies that training must follow the CMMC-AB-approved curriculum to ensure standardization.

CMMC-AB Training & Certification Framework

Requires LTPs to deliver structured training that meets CMMC-AB guidelines.

CMMC 2.0 References Supporting This Answer

Final Answer #B. Instructs a curriculum approved by CMMC-AB

NEW QUESTION # 134

.....

PassReview has made these formats so the students don't face issues while preparing for Certified CMMC Professional (CCP) Exam (CMMC-CCP) certification exam dumps and get success in a single try. The web-based format is normally accessed through browsers like Microsoft Edge, Google Chrome, Firefox, and Safari. This format doesn't require any extra plugins so users can also use this format to pass Cyber AB CMMC-CCP test with pretty good marks.
