## ADA-C02 Latest Study Notes & ADA-C02 Examcollection Vce

The ADA-C02 prep torrent we provide will cost you less time and energy. You only need relatively little time to review and prepare. After all, many people who prepare for the ADA-C02 exam, either the office workers or the students, are all busy. The office workers are both busy in their jobs and their family life and the students must learn or do other things. But the ADA-C02 Test Prep we provide are compiled elaborately and it makes you use less time and energy to learn and provide the study materials of high quality and seizes the focus the exam. It lets you master the most information and costs you the least time and energy.

## Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q56-Q61):

### NEW QUESTION # 56

What are characteristics of data replication in Snowflake? (Choose three.)

- A. Databases created from shares can be replicated.
- B. The ALTER DATABASE ... ENABLE REPLICATION TO ACCOUNTS command must be issued from the primary account.
- C. Users must be granted REPLICATIONADMIN privileges in order to enable replication.
- D. To start replication run the ALTER DATABASE ... REFRESH command on the account where the secondary database resides.
- E. Users can have unlimited primary databases and they can be replicated to an unlimited number of accounts if all accounts are within the same organization.
- F. Replication can only occur within the same cloud provider.

**Answer: A,B,D**

Explanation:

Replication must be enabled on the primary account using ALTER DATABASE ... ENABLE REPLICATION TO ACCOUNTS. To refresh replicated data, ALTER DATABASE ... REFRESH is executed on the secondary database. Databases created from shares can also be replicated.

#### NEW QUESTION # 57

MY\_TABLE is a table that has not been updated or modified for several days. On 01 January 2021 at 07:01, a user executed a query to update this table. The query ID is '8e5d0ca9-005e-44e6-b858-a8f5b37c5726'. It is now 07:30 on the same day. Which queries will allow the user to view the historical data that was in the table before this query was executed? (Choose three.)

- A. SELECT \* FROM TIME TRAVEL('MY\_TABLE', 2021-01-01 07:00:00);
- B. SELECT \* FROM my\_table PRIOR TO STATEMENT '8e5d0ca9-005e-44e6-b858-a8f5b37c5726';
- C. SELECT \* FROM my\_table AT(TIMESTAMP => '2021-01-01 07:00:00':timestamp);
- D. SELECT \* FROM my\_table AT(OFFSET => -60\*30);
- E. SELECT \* FROM my\_table BEFORE(STATEMENT => '8e5d0ca9-005e-44e6-b858-a8f5b37c5726');
- F. SELECT \* FROM my\_table WITH TIME TRAVEL(OFFSET => -60\*30);

**Answer: C,D,E**

Explanation:

Use Time Travel to view past table versions: (B) selects the table "as of" 07:00 via AT(TIMESTAMP => ...); (E) selects "as of" 30 minutes earlier via AT(OFFSET => -60\*30); (F) selects the state before the specified statement via BEFORE(STATEMENT => '<query\_id>').

#### NEW QUESTION # 58

DatabaseA has a single schema called Schema1. This schema contains many tables and views. The ANALYST role has privileges to select from all objects in DatabaseA.Schema1. The SYSADMIN role clones DatabaseA to DatabaseA\_clone. What privileges does the ANALYST role have on tables and views in DatabaseA\_clone? (Choose two.)

- A. SELECT on all tables and views in DatabaseA\_clone.Schema1
- B. SELECT on all tables, and only secure views in DatabaseA\_clone.Schema1
- C. USAGE on the database DatabaseA\_clone.Schema1
- D. USAGE on the schema DatabaseA\_clone
- E. SELECT on all tables, and only non-secure views in DatabaseA\_clone.Schema1

**Answer: A,D**

Explanation:

When a database is cloned, the privileges granted on objects within the source database are preserved in the cloned database. Roles that had privileges on objects such as tables and views continue to have those privileges on the corresponding cloned objects. Therefore, the ANALYST role retains SELECT privileges on all tables and views within the cloned schema. In addition, the cloned database and schema inherit the same access control configuration, allowing the role to use the schema within the cloned database.

#### NEW QUESTION # 59

Which command can temporarily disable Multi-factor Authentication (MFA) for the Snowflake username user1 for 24 hours?

- A. alter user user1 set HOURS\_TO\_BYPASS\_MFA=24;
- B. alter user user1 set TEMPORARY\_MFA\_BYPASS=1440;
- C. alter user user1 set MINS\_TO\_BYPASS\_MFA=1440;
- D. alter user user1 set DISABLE\_MFA=1440;

**Answer: C**

Explanation:

The parameter MINS\_TO\_BYPASS\_MFA controls how long MFA is bypassed for a user. Setting it to 1440 minutes (24 hours)

temporarily disables MFA for that duration without revoking the user's MFA enrollment.

### NEW QUESTION # 60

What is a characteristic of Snowflake's transaction locking and concurrency modeling?

- A. Transaction locking in Snowflake is enforced exclusively at the row and table levels.
- B. Queries executed within a given transaction see that transaction's uncommitted changes.
- C. If two queries are concurrently executed against the same table, one of the two queries will be blocked until the other query completes.
- D. A deadlock cannot occur in Snowflake, since concurrently executed queries and DML statements do not block one another.

**Answer: D**

Explanation:

Snowflake uses multi-version concurrency control (MVCC), which allows queries and DML statements to operate without blocking each other. This architecture eliminates the possibility of deadlocks because transactions work on snapshots of data rather than locking rows or tables in ways that could cause contention.

### NEW QUESTION # 61

.....

Are you tired of preparing different kinds of exams? Are you stuck by the aimless study plan and cannot make full use of sporadic time? Are you still overwhelmed by the low-production and low-efficiency in your daily life? If your answer is yes, please pay attention to our ADA-C02 guide torrent, because we will provide well-rounded and first-tier services for you, thus supporting you obtain your dreamed ADA-C02 certificate and have a desired occupation. We can say that our ADA-C02 test questions are the most suitable for examinee to pass the exam, you will never regret to buy it.
