

Valid 300-615 test answers & Cisco 300-615 exam pdf - 300-615 actual test

BTW, DOWNLOAD part of PDFTorrent 300-615 dumps from Cloud Storage: <https://drive.google.com/open?id=1yu3eRuXDEAiOKXC80RxaOO7S6v8mniLL>

300-615 study materials like a mini boot camp, you'll be prepared for 300-615 test and guaranteed you to get the certificate you have been struggling to. The product here of CCNP Data Center test, is cheaper, better and higher quality; you can learn 300-615 skills and theory at your own pace; you will save more time and energy. No other 300-615 Study Materials or study dumps will bring you the knowledge and preparation that you will get from the 300-615 study materials available only from PDFTorrent. Not only will you be able to pass any 300-615 test, but will gets higher score, if you choose our 300-615 study materials.

The Cisco 300-615 exam consists of multiple-choice questions and simulations that test the candidate's ability to troubleshoot and resolve complex data center infrastructure issues. 300-615 Exam is designed to be challenging and requires candidates to have extensive knowledge of data center infrastructure technologies, protocols, and best practices.

Latest Cisco 300-615 Braindumps Free, 300-615 Latest Cram Materials

The Troubleshooting Cisco Data Center Infrastructure PDF questions version is user-friendly. It means one can easily have a printout of actual Troubleshooting Cisco Data Center Infrastructure exam questions and these can be studied anywhere. Troubleshooting Cisco Data Center Infrastructure is also suitable for smartphones as well as tablets too. Hence, it is portable. Simply after having your Troubleshooting Cisco Data Center Infrastructure 300-615 PDF Dumps file in your hand, you need no installation and just carry on with your preparation of Troubleshooting Cisco Data Center Infrastructure test with confidence. Web-based 300-615 Practice Exam is customizable and you can adjust its time and type of Troubleshooting Cisco Data Center Infrastructure 300-615 questions. It is compatible with all operating systems like Mac, Linux, IOS, Android and Windows, etc.

Cisco Troubleshooting Cisco Data Center Infrastructure Sample Questions (Q107-Q112):

NEW QUESTION # 107

After upgrading a client's fabric interconnect to the latest version, an engineer discovers that the appliance has lost its entire configuration. Which two locations should an engineer check to confirm that the appliance had backed up the configuration prior to the upgrade in order to retrieve the lost configuration? (Choose two.)

- A. Admin page, PollInternalBackup stage
- B. Service profiles page, InternalBackup stage
- C. Admin page, InternalBackup stage.
- **D. Equipment FSM page, InternalBackup stage**
- **E. Equipment FSM page, PollInternalBackup stage**

Answer: D,E

Explanation:

The correct action is Equipment FSM page, InternalBackup stage; Equipment FSM page, PollInternalBackup stage. Cisco UCS troubleshooting depends on the relationship between policy, inventory discovery, firmware state, and server identity. The question involves fabric interconnect, so the selected option fixes the UCS component or policy that directly controls the failure. In UCS Manager, service profiles, vNIC/vHBA templates, boot policies, firmware packages, server pools, adapters, fabric interconnects, and I/O modules are applied through a managed model; a server can fail even when basic IP reachability exists if the relevant policy is incomplete or the hardware inventory has not been acknowledged correctly. The distractors typically change an unrelated object, force a disruptive recovery without fixing the policy, or apply to a different UCS mode. Cisco guidance is to verify faults, FSM stage, inventory status, association status, and the specific boot or connectivity policy before taking action. After the remediation, validate that the fault clears, the FSM completes, and the server or fabric component returns to the expected operable state.

NEW QUESTION # 108

Refer to the exhibit.

```

switch1# show vpc brief
Legend:
(*) - local vPC is down, forwarding via vPC peer-link

vPC domain id : 500
Peer status : peer link is down
vPC keep-alive status : Suspended (Destination IP not reachable)
Configuration consistency status : success
vPC role : secondary, operational primary
Number of vPCs configured : 4
Peer Gateway : Disabled
Dual-active excluded VLANs : -

vPC Peer-link status
-----
id  Port  Status  Active  vlans
---  ---  ---
1  Po500  down    -

switch2# show vpc brief
Legend:
(*) - local vPC is down, forwarding via vPC peer-link

vPC domain id : 20
Peer status : peer link is down
vPC keep-alive status : Suspended (Destination IP not reachable)
Configuration consistency status : success
vPC role : secondary, operational primary
Number of vPCs configured : 4
Peer Gateway : Disabled
Dual-active excluded VLANs : -

vPC Peer-link status
-----
id  Port  Status  Active  vlans
---  ---  ---
1  Po500  down    -

```

vPC between switch1 and switch2 is not working. Which two actions are needed to fix the problem? (Choose two.)

- A. Configure vPC peer link and vPC peer keepalive correctly.
- B. Match vPC domain ID between the two devices.
- C. Configure IP address on the interface.
- D. Configure one of the switches as primary for the vPC.
- E. Activate VLANs on the vPC.

Answer: B,E

NEW QUESTION # 109

An engineer is troubleshooting a failed DCBX exchange between a server and a Cisco Nexus switch. Which action allows DCBX to successfully negotiate?

- A. Enable LLDP.
- B. Enable ETS
- C. Enable PFC.

- D. Enable Cisco Discovery Protocol.

Answer: A

Explanation:

Section: Storage Network

Explanation

NEW QUESTION # 110

An engineer is implementing Fibre Channel (FC) switching on a Cisco 9000 Series Switch, but the procedure fails with the message "FC traffic is not being routed through the fabric. ". Which action resolves the issue?

- A. Configure the FSPF for VSAN 10 on the NX9k-01-LAB switch.
- B. Set the FSPF interface link cost to be less than 30,000 in the IVR path.
- C. Configure the VSAN ID 10 on the link connected to fc1/12.
- **D. Set the FSPF hello interval on fc12 interface the NX9k-01-LAB switch.**

Answer: D

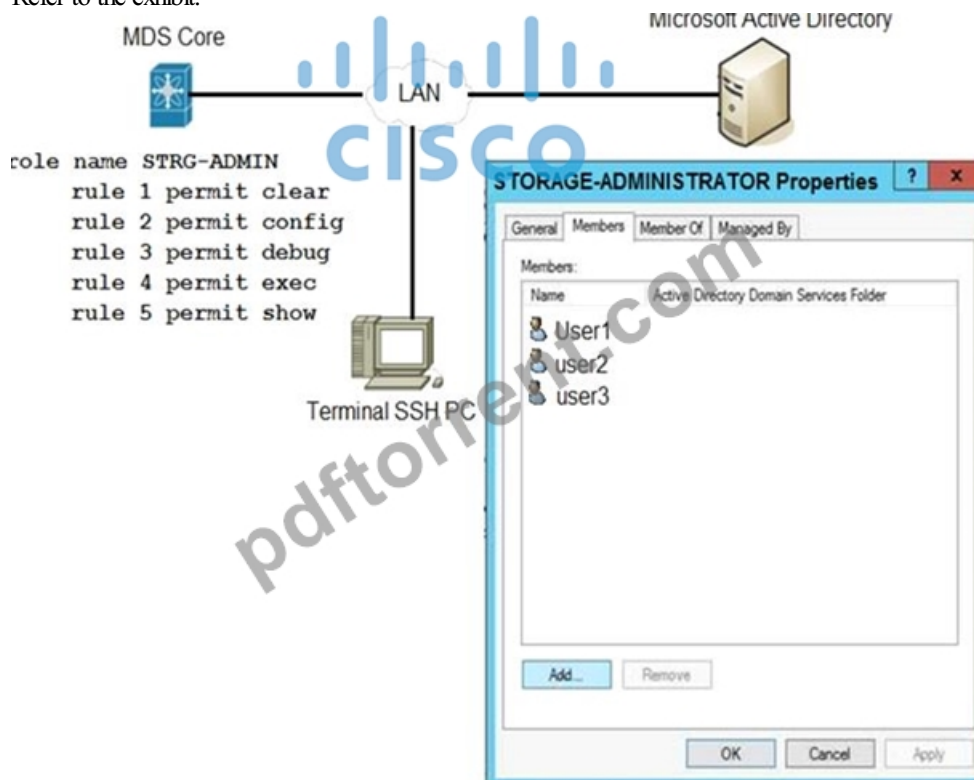

Explanation:

Set the FSPF hello interval on fc12 interface the NX9k-01-LAB switch is the required SAN-side correction.

In Cisco storage fabrics, symptoms such as isolated ports, missing targets, failed zone merges, vFC down state, or inaccessible LUNs are rarely solved by changing a random endpoint setting. The engineer must validate the FC control-plane dependency associated with VSAN, FSPF: VSAN assignment, trunk allowance, FSPF parameters, fcdomain uniqueness, NPIV support, NPV uplink behavior, DCBX/LLDP negotiation, and active zoning. The selected answer is the one that restores that dependency. Other choices may be valid operational commands in a different failure, but they do not address the precise point where fabric membership or access control is broken. Cisco guidance is to verify the active database and the operational database separately because a configured object is not necessarily active in the fabric. Post-remediation checks should include interface state, VSAN status, FLOGI/PLOGI, zoneset membership, and target visibility from the initiator.

NEW QUESTION # 111

Refer to the exhibit.

An engineer is troubleshooting why user1, user2, and user3 from group STORAGE- ADMINISTRATOR in Microsoft Active Directory cannot log in to the Cisco MDS SSH CLI. Which action resolves the issue?

- A. Include specific users into MDS role configuration.
- B. Integrate Cisco MDS with Microsoft Active Directory.
- C. Configure SSH logins on Cisco MDS switch.
- D. Configure the role name to match the group name on Microsoft Active Directory.

Answer: D

NEW QUESTION # 112

.....

The trouble can test a person's character. A bad situation can show special integrity. When to face of a difficult time, only the bravest people could take it easy. Are you a brave person? If you did not do the best preparation for your IT certification exam, can you take it easy? Yes, of course. Because you have PDFTorrent's Cisco 300-615 Exam Training materials. As long as you have it, any examination do not will knock you down.
