Quiz 2026 Useful Palo Alto Networks CloudSec-Pro: New Palo Alto Networks Cloud Security Professional Study Notes

It is impossible to overstate the significance of valid CloudSec-Pro exam questions. The latest and actual CloudSec-Pro exam

questions are essential to clear the CloudSec-Pro exam in one go. Applicants are better prepared to succeed when they prepare with the updated Palo Alto Networks CloudSec-Pro Questions. These CloudSec-Pro exam questions give applicants the knowledge they need to quickly ace the CloudSec-Pro examination.

Palo Alto Networks Cloud Security Professional Sample Questions (Q216-Q221):

NEW QUESTION # 216

A customer wants to scan a serverless function as part of a build process. Which twistcli command can be used to scan serverless functions?

- A. twistcli function scan <SERVERLESS_FUNCTION.ZIP>
- B. twistcli serverless AWS <SERVERLESS_FUNCTION.ZIP>
- C. twistcli scan serverless <SERVERLESS_FUNCTION.ZIP>
- D. twistcli serverless scan <SERVERLESS_FUNCTION.ZIP>

Answer: D

Explanation:

https://docs.paloaltonetworks.com/prisma/prisma-cloud/prisma-cloud-admin-compute/vulnerability_management/serverless_functions You can also use the twistcli command line utility to scan your serverless functions. First download your serverless function as a ZIP file, then run: \$ twistcli serverless scan <SERVERLESS_FUNCTION.ZIP>

NEW QUESTION # 217

Which two elements are included in the audit trail section of the asset detail view? (Choose two).

- A. Configuration changes
- B. Alert and vulnerability events
- C. Findings
- D. Overview

Answer: A,B

Explanation:

The audit trail section of an asset's detail view in Prisma Cloud typically includes a log of configuration changes and alert and vulnerability events associated with the asset. These elements are crucial for tracking the history of modifications to an asset's configuration and the security incidents that have affected it. This information is instrumental in understanding the security posture of the asset over time and in conducting thorough investigations after a security event has been detected.

NEW QUESTION # 218

When an alert notification from the alarm center is deleted, how many hours will a similar alarm be suppressed by default?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

Click Delete if you want to remove the notification from the alarm center. Once deleted, a similar alarm will not appear for the next 24 hours, if the same error occurs in that time period. After 24 hours, a similar error will generate a new alarm notification. <https://docs.paloaltonetworks.com/prisma/prisma-cloud/prisma-cloud-admin/manage-prisma-cloud-alarms/review-alarms>

NEW QUESTION # 219

Which three actions are available for the container image scanning compliance rule? (Choose three.)

- A. Allow
- **B. Alert**
- C. Snooze
- **D. Ignore**
- **E. Block**

Answer: B,D,E

Explanation:

The Prisma Cloud documentation specifies the actions that can be taken for container image scanning compliance rules as:

- * C. Block: This action prevents the use of a container image if it fails to meet the defined compliance criteria.
- * D. Ignore: This action allows the image to bypass the compliance check, effectively overlooking the identified issues.
- * E. Alert: This action triggers an alert to notify the relevant stakeholders about the compliance status of the container image.

These actions are integral to Prisma Cloud's governance capabilities, allowing organizations to enforce their security and compliance policies effectively. By setting up these rules, teams can ensure that only images that comply with their standards are deployed, while also having the flexibility to ignore certain images or receive alerts for further investigation.

NEW QUESTION # 220

Which two CI/CD plugins are supported by Prisma Cloud as part of its Code Security? (Choose two.)

- **A. Checkov**
- **B. CircleCI**
- C. Visual Studio Code
- D. IntelliJ

Answer: A,B

Explanation:

<https://live.paloaltonetworks.com/t5/blogs/what-is-changing-for-ci-cd-plugins/ba-p/461676> Prisma Cloud has announced changes to its CI/CD plugins due to the acquisition of Bridgecrew1. The existing IaC functionality in Prisma Cloud will be replaced by a Prisma "cloud code security" (CCS) module that delivers Bridgecrew integration in Prisma Cloud1. As part of this change, several CI/CD plugins that Prisma Cloud currently uses will either be replaced or modified1.

According to the information from the link, both Checkov and CircleCI are listed as integrations that will switch to the Prisma "cloud code security" (CCS) module1. Checkov is an open-source command-line interface (CLI) utility that includes more than 750 predefined policies and supports custom policies1. CircleCI is a continuous integration and continuous delivery platform1.

NEW QUESTION # 221

.....

All operating systems also support this web-based CloudSec-Pro practice test. The third format is desktop Palo Alto Networks CloudSec-Pro practice exam software that can be accessed easily after installing it on your Windows PC or Laptop. These formats are there so that the students can use them as per their unique needs and prepare successfully for Palo Alto Networks Cloud Security Professional (CloudSec-Pro) the on first try.
