

Free PDF 2026 Huawei Efficient Reliable H19-402_V1.0 Braindumps Ebook

What's more, part of that ExamDiscuss H19-402_V1.0 dumps now are free: <https://drive.google.com/open?id=1-4UElcKa5bpJySYEjCJqcp1w6dSEZqzZ>

Perhaps you have also seen the related training tools about Huawei certification H19-402_V1.0 exam on other websites, but our ExamDiscuss has a pivotal position in the field of IT certification exam. ExamDiscuss research materials can 100% guarantee you to pass the exam. With ExamDiscuss your career will change and you can promote yourself successfully in the IT area. When you select ExamDiscuss you'll really know that you are ready to pass Huawei Certification H19-402_V1.0 Exam. We not only can help you pass the exam successfully, but also will provide you with a year of free service.

Huawei H19-402_V1.0 (HCSP-Presales-Data Center Network Planning and Design V1.0) certification exam is a specialized exam designed for professionals who wish to excel in the field of data center network planning and design. HCSP-Presales-Data Center Network Planning and Design V1.0 certification exam is aimed at testing the knowledge, skills, and expertise of candidates in the area of data center network planning and design. H19-402_V1.0 exam is recognized globally and is a valuable certification for professionals who want to demonstrate their expertise in this field.

Huawei H19-402_V1.0 (HCSP-Presales-Data Center Network Planning and Design V1.0) Exam is a certification exam designed to test the knowledge and skills of IT professionals in data center network planning and design. H19-402_V1.0 exam is ideal for those who are interested in pursuing a career in IT infrastructure, data center design, or network architecture. H19-402_V1.0 exam is also suitable for those who want to improve their expertise in data center networking and design.

100% Pass Quiz 2026 Huawei H19-402_V1.0: HCSP-Presales-Data Center Network Planning and Design V1.0 Authoritative Reliable Braindumps Ebook

We provide you with free update for 365 days for H19-402_V1.0 study guide after purchasing, and the update version will be sent to your email automatically, you just need to check your email for the update version. In addition, we have a professional team to compile and review H19-402_V1.0 exam materials, therefore the quality can be guaranteed, and you can use them at ease. H19-402_V1.0 Exam Materials cover most of the knowledge points for the exam, and you can master the major knowledge points for the exam as well as improve your professional ability in the process of learning.

Huawei HCSP-Presales-Data Center Network Planning and Design V1.0 Sample Questions (Q14-Q19):

NEW QUESTION # 14

NetCol air conditioner 35kW/46kW supports linkage control of indoor and outdoor units.

- A. True
- B. False

Answer: A

NEW QUESTION # 15

(It is recommended that the IP address of a loopback interface instead of the IP address of a physical interface on a device be used as a VTEP IP address of a VXLAN tunnel.)

- A. TRUE
- B. FALSE

Answer: A

Explanation:

In Huawei CloudFabric and VXLAN-based data center designs, it is a best practice to use the IP address of a loopback interface as the VTEP (VXLAN Tunnel End Point) source address instead of a physical interface IP.

This recommendation is based on reliability, stability, and operational flexibility.

A loopback interface is always in the UP state as long as the device is operational, whereas physical interfaces may go down due to link failures. If a physical interface IP is used as the VTEP source, any link failure would cause VXLAN tunnels to flap, impacting service continuity. In contrast, loopback interfaces remain reachable through the underlay network via dynamic routing protocols such as OSPF, IS-IS, or BGP, ensuring consistent tunnel endpoints.

Additionally, using loopback addresses supports ECMP (Equal-Cost Multi-Path) forwarding in the underlay, improving load balancing and network utilization. Huawei documentation strongly emphasizes this design principle to enhance VXLAN tunnel resilience and simplify network operations. Therefore, the statement is TRUE.

NEW QUESTION # 16

FusionDC1000 battery cabinet can hold up to () batteries

Answer:

Explanation:

16

NEW QUESTION # 17

FusionModule500 uses natural heat dissipation

- A. True
- B. False

Answer: A

NEW QUESTION # 18

What is the length of the power module of 2.4mva FusionPower6000?

- A. 13m
- B. 13.08m
- C. 14.80m
- D. 14m

Answer: C

NEW QUESTION # 19

.....
