Our CIS-Discovery study guide is your best choice.

ServiceNow Certified Implementation Specialist - Discovery Sample Questions (Q30-Q35):

NEW QUESTION # 30

What is the default thread count for a MID Server?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

The default thread count for a MID Server is 25. This means that the MID Server can run up to 25 worker threads simultaneously to execute the jobs assigned to it by the ServiceNow instance. The worker threads are divided into different thread pools based on the priority of the jobs. The MID Server can also adjust the thread count dynamically based on the system resources and the workload. The thread count can be configured by changing the MID Server parameters in the ServiceNow instance¹². References = 1: MID Server Max Threads

NEW QUESTION # 31

Which of the choices provides active discovery errors with a help link for each error?

- A. Discovery Schedule
- B. IP Address Failure Report
- **C. Discovery Dashboard**
- D. MID Server Dashboard

Answer: C

Explanation:

The Discovery Dashboard provides a summary of the Discovery status, including the number of active discovery errors, the number of devices discovered, and the number of credentials used. Each error has a help link that provides more information about the cause and possible solutions.
