For tomorrow's success, is right to choose TorrentExam. Selecting TorrentExam, you will be an IT talent.

Microsoft Power Platform Developer Sample Questions (Q157-Q162):

NEW QUESTION # 157

You need to configure the custom connector to incorporate the environment name and DataId in the Web API URL. Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

ACTIONS

- Set the operation to dataservice.
- Create a policy template that uses the Route request template.
- Create a policy template that uses the Set host URL template.
- Set the operation to enrich.
- Set the subdomain of the URL template to:
dataservice-@connectionParameters('EnvironmentName')
- Set the path of the URL template path to:
enrich/@queryParameters('DataId')

ANSWER AREA

Topic 6, City Power & Light

Background

City Power & Light is an energy and utilities company that has offices in Europe. The company subsidizes home improvements for domestic customers, to improve energy efficiency and to meet environmental commitments. The company also distributes and generates electricity for domestic and commercial customers.

The company has 2,000 employees in multiple offices and in work-from-home locations.

City Power & Light uses a team of schedulers, assessors, field engineers, and customer support agents for home improvements in a program named Get Energy Fit.

Current Environment

Get Energy Fit Program

City Power & Light uses the following to manage the Get Energy Fit program:

- * The company uses a Microsoft Excel spreadsheet named Planning Hub on Microsoft SharePoint Online to store information about customer appointments, customer details, and customer eligibility in the program.
- * The company records sensitive customer information that includes the document identification numbers and the customer's financial information.
- * The company uses an assessor to verify customer eligibility in the program and to perform a suitability assessment. The assessor

completes the suitability assessment by using a paper and clipboard at the customer property and enters the data to the Planning Hub after the assessment is completed. The assessor also uploads

- * photographs to an on-premises document library. The assessor completes the eligibility assessment by using an application written in React.

- * Schedulers use Microsoft Outlook to schedule engineers and assessors for home improvement appointments.

About 200 appointments are scheduled daily.

- * Employees for the company submit funding claims on behalf of the customer by uploading evidence and compliance checks information to an application named the Claim Submission Portal.

Technical Environment

- * Schedulers use Windows 11 desktop and laptop computers with the latest version of Microsoft Edge.

- * Assessors use iOS and Android tablet devices.

- * The Claim Submission Portal uses REST-based APIs for all operations and a dedicated testing environment.

Authentication to the API is provided by using the following example header key and value pair o Authentication: 2C8D41431415E429C7FC7A74D8315

- * The company uses Microsoft Azure for hosting multiple applications.

Requirements

Overview

City Power & Light plans to implement Microsoft Power Platform to improve the customer experience and increase delivery for the Get Energy Fit program.

Business Requirements

- * Only team leaders and senior managers should have access to read personally identifiable information (PII).

- * All development changes must be tested in a separate environment.

- * The company requires out-of-the-box solutions, when possible.

- * Sensitive credentials, such as user passwords and API secrets, must be stored securely.

- * The Claim Submission Portal must allow citizen developers to create automated solutions.

- * Customer and appointment information must be accessible to all applications.

Planning Hub Application

The company is planning to replace the Planning Hub spreadsheet with a new application. The new application has the following requirements:

- * The application must support a component design that provides rapid changes requested by the schedulers.

- * The data model for the application must capture the following information:

- * The application must support a component design that provides rapid changes requested by the schedulers.

- * The data model for the application must capture the following information; o Information about customers such as name, address, and other PH.

- o The data and time for an assessor's or engineer's appointment. Schedulers must be able to view all appointments without filters, o Records the details of the home improvements installed for the customer, o Contains all the information and evidence for submission to the Claim Submission Portal.

- * After an assessor uploads the funding application and all evidence after a home improvement has been complete, the company requires that the status of the application is set to Submit and should run the following:

- o Retrieve the details about the customer and the improvement installed, o Send an approval to a senior manager to review and approve in Microsoft Teams.

- o Upload the information to the API endpoint.

- o If the upload fails to complete, it should retry after a delay of 30 seconds up to three times. If an error occurs after three times, the application should send an email notification to the application support team.

- o Must record the status on the funding application.

Suitability Assessment Tool

The company plans to implement a new application named the Suitability Assessment Tool for the assessors.

The new application has the following requirements:

- * Must integrate with Microsoft Power Platform.

- * Assessors must be able to complete the eligibility assessment by using the Suitability Assessment Tool. The assessors must be able to upload photographs to the on-premises file share.

- * Must be developed by using modular components that can be used by other applications.

- * Must be optimized for use on tablet devices.

- * All changes to the application must be completed in the Suitability Assessment Tool solution.

Reporting

The company has the following requirements for a reporting solution:

- * The data source for the reporting solution must support incremental refreshes.

- * The solution must report accurate data if an error occurs.

NEW QUESTION # 158

You need to select a process to create each function.

Which process should you use? To answer, drag the appropriate processes to the correct functions. Each process may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Processes	Function	Process
Power Automate	Create a Slack notification from a lead.	
Business rule	Change the priority field.	
Business process flow	Ensure appropriate information is added to leads	

Answer:

Explanation:

Processes	Function	Process
Power Automate	Create a Slack notification from a lead.	Power Automate
Business rule	Change the priority field.	Business process flow
Business process flow	Ensure appropriate information is added to leads	Business rule

Explanation:

Function	Process
Create a Slack notification from a lead.	Power Automate
Change the priority field.	Business process flow
Ensure appropriate information is added to leads	Business rule

Box 1: Power Automate

Ensure that notifications are sent to the sales team when a lead is added by using Slack Power Automate is a service that helps you create automated workflows between your favorite apps and services to synchronize files, get notifications, collect data, and more.

Box 2: Business rule

A trigger must be created that changes the Priority field to 1 in the Account record 10 days after an account record is created.

A field named Priority_Trigger must be created to trigger the Priority field.

Business rules provide a simple interface to implement and maintain fast-changing and commonly used rules.

Box 3: Business process flow

Ensure that leads have a review stage added to the sales process.

Use business process flows to define a set of steps for people to follow to take them to a desired outcome.

These steps provide a visual indicator that tells people where they are in the business process.

NEW QUESTION # 159

You are training a group of makers to use Power Automate.

You have the following expressions:

Name	Expression
1	<code>outputs('Get Item').statusCode</code>
2	<code>"from": "@result('MyScope')"</code>

You need to identify what each expression is doing.

What does each expression do? To answer, select the appropriate options in the answer area.
 NOTE: Each correct selection is worth one point.

Expression	Microsoft Action
1	<input type="text"/> Return the statuscode at runtime. Return the output to the statuscode at runtime. Return the Get_Item at runtime.
2	<input type="text"/> Return MyScope as all the action items. Return all the variables from all actions from MyScope. Return all the results from all actions from MyScope.

Answer:

Explanation:

Expression	Action
1	<input type="text"/> Return the statuscode at runtime. Return the output to the statuscode at runtime. Return the Get_Item at runtime.
2	<input type="text"/> Return MyScope as all the action items. Return all the variables from all actions from MyScope. Return all the results from all actions from MyScope.

NEW QUESTION # 160

You are developing a canvas app for a healthcare center.

You need to create custom tables for the solution. You have the following requirements:

Requirement	Comment
Store information about doctors.	Store the name, location, license number, and a list of certifications for each doctor that works at the healthcare center.
Store information about prescription medications.	Reference prescription data from an external database.

You need to create the tables.

Which table type should you create? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement
Store information about doctors.

Store information about prescription medications.

Table type

- Standard
- Virtual
- Activity
- Standard

- Virtual
- Virtual
- Custom
- Standard

Answer:

Explanation:

Answer Area

Requirement
Store information about doctors.

Store information about prescription medications.

Table type

- Standard
- Virtual
- Activity
- Standard

- Virtual
- Virtual
- Custom
- Standard

Explanation:

- Standard

- Virtual

NEW QUESTION # 161

You are creating a flow using the Common Data Service (CDS) connector.

You need to select the appropriate triggers.

Which triggers should you use? To answer, drag the appropriate triggers to the correct scenarios. Each trigger may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Triggers

- Record creation
- Record selection
- Record deletion
- Record update

Answer Area

Scenario	Trigger
Choose accounts that are in the USA and send those account contacts an email.	Trigger
Contacts that have not been modified in 60 days should no longer be in the system.	Trigger
An area code has been mistyped in all records.	Trigger

Answer:

Explanation:

Triggers	Answer Area	Trigger
Record creation	Scenario Choose accounts that are in the USA and send those account contacts an email. Contacts that have not been modified in 60 days should no longer be in the system. An area code has been mistyped in all records.	Record selection
Record selection		Record deletion
Record deletion		Record update
Record update		

Explanation:

Scenario	Trigger
Choose accounts that are in the USA and send those account contacts an email.	Record selection
Contacts that have not been modified in 60 days should no longer be in the system.	Record deletion
An area code has been mistyped in all records.	Record update

NEW QUESTION # 162

.....

You only need 20-30 hours to practice our software materials and then you can attend the exam. It costs you little time and energy. The PL-400 exam questions are easy to be mastered and simplified the content of important information. The PL-400 test guide conveys more important information with amount of answers and questions, thus the learning for the examinee is easy and highly efficient. So it is convenient for the learners to master the PL-400 Guide Torrent and pass the PL-400 exam in a short time.
