If you buy the Mule-Arch-202 Study Materials from our company, we can make sure that you will have the right to enjoy the 24 hours full-time online service.

Salesforce Certified MuleSoft Platform Integration Architect Sample Questions (Q83-Q88):

NEW QUESTION # 83

Refer to the exhibit.

```
#%RAML 1.0
title: Test Result
/testResult:
  get:
    queryParameters:
      patientId:
        type: string
        required: true
        maxLength: 20
        example: 12345ABCD
    responses:
      200:
        body:
          application/json:
            example:
              {patientId: "12345ABCD",
               patientAtRisk: "false",
               testResult: "Negative"}
/report:
  get:
    queryParameters:
      city:
        type: string
        required: true
        maxLength: 100
        example: San Francisco
    responses:
      200:
        body:
          application/json:
            example:
              {city: "San Francisco",
               reportDateTime: "2022-02-02T12:00:00",
               totalTest: 100000,
               totalNegative: 100000,
               totalPositive: 0 }
```

A company is tracking the number of patient COVID-19 tests across the city. Test results must be accessible to doctors in offices, hospitals, and urgent-care facilities. Due to the importance of the service, in particular for patients at high risk, the company is requested to improve the responsiveness of the Test Result API, shown in the image below, to retrieve the patient's result. How can these data and functional requirements be met?

- A. Apply an HTTP Caching Policy to the entire Test Result API
- B. Scale-out the number of workers for the current application in Runtime Manager
- C. Add a cache scope in the Test Result API GET /testResult operation implementation
- D. Add a new request parameter for patientAtRisk to give high priority to this type of call in the GET /testResult operation

Answer: C

NEW QUESTION # 84

An architect recommended using Apex code to make callouts to an external system to process insurance quote. What should the integration architect consider to make sure this is the right option for the integration?

- A. The maximum callouts in a single Apex transaction.
- B. The maximum number of parallel Apex callouts in a single continuation.
- C. The limit on long-running requests (total execution time).
- D. The limit of pending operations in the same transaction.

Answer: A

NEW QUESTION # 85

An external REST client periodically sends an array of records in a single POST request to a Mule application's API endpoint. The Mule application must validate each record of the request against a JSON schema before sending it to a downstream system in the same order that it was received in the array.

Record processing will take place inside a router or scope that calls a child flow. The child flow has its own error handling defined. Any validation or communication failures should not prevent further processing of the remaining records.

Which router or scope should be used in the parent flow, and which type of error handler should be used in the child flow in order to meet these requirements?

- A. Until Successful router in the parent flow

- B. Parallel For Each scope in the parent flow
- C. Choice router in the parent flow
- **D. For Each scope in the parent flow**

Answer: D

NEW QUESTION # 86

How can automation in Anypoint Platform be utilized to improve operational efficiency?

- A. Restricting access to automated processes to senior developers only.
- B. By manually triggering all deployments and tests.
- C. Deploying updates only during business hours.
- **D. Using APIs to automate deployment and infrastructure management.**

Answer: D

NEW QUESTION # 87

Which deployment option ensures the highest level of control over both the Anypoint Platform control plane and runtime plane?

- A. SaaS
- B. Private cloud
- C. Public cloud
- **D. On-premises**

Answer: D

NEW QUESTION # 88

.....

Undergoing years of corrections and amendments, our Mule-Arch-202 exam questions have already become perfect. They are promising Mule-Arch-202 practice materials with no errors. As indicator on your way to success, our practice materials can navigate you through all difficulties in your journey.
