GInI Certified Innovation Professional (CInP) Sample Questions (Q115-Q120):

NEW QUESTION # 115

In order to become an effective innovator, one must embrace which of the following?
Select one correct answer from the list:

- A. A disdain for stasis and the status quo
- **B. All the answers are correct**
- C. A sense of entrepreneurialism
- D. An eagerness to explore, experiment, and experience

Answer: B

Explanation:

GInI'sCInP Handbookdescribes effective innovators as embodying multiple traits: "eagerness to explore, experiment, and experience" (A)-a curiosity-driven mindset; "disdain for stasis and the status quo" (C)-a drive to challenge norms; and "a sense of entrepreneurialism" (D)-a proactive, risk-taking attitude. These collectively fuel innovation's creative and execution phases. Since all options (A, C, D) are explicitly cited in GInI's innovator profile, "all the answers are correct" (B) is the intended choice, aligning with the original answer. This reflects GInI's holistic view-innovation requires a blend of exploration, disruption, and initiative-a comprehensive skillset underpinning its certification philosophy.

NEW QUESTION # 116

Throughout Stage 4 of the GInI InMS, the organization will have many opportunities for feedback loops, where their learnings help them to either reinforce, redirect, or kill each project.
Select one correct answer from the list:

- A. Reinstate, refocus, or ignore
- B. Reimagine, renew, or accelerate
- C. Remove, restore, or monitor
- **D. Reinforce, redirect, or kill**

Answer: D

Explanation:

GInI'sCInP Handbookdescribes InMS Stage 4 (project development) as iterative, with "feedback loops"from experiments or stakeholder input allowing teams to "reinforce" (strengthen viable aspects), "redirect" (pivot based on new insights), or "kill" (terminate unfeasible projects). This adaptive approach minimizes waste and maximizes value, aligning with GInI's fail-fast philosophy. "Reimagine, renew, accelerate" (B) is aspirational but not GInI's terms. "Reinstate, refocus, ignore" (C) lacks the termination option. "Remove, restore, monitor" (D) is passive, not proactive. Option A matches GInI's exact wording, aligning with the original answer, reflecting a dynamic, responsive process-a GInI strength in managing innovation uncertainty.

NEW QUESTION # 117

Organizations should be aware that in the Evaluation process of Stage 3 of the GInI InMS, the confidence level around certain metrics can be low given how far out in time they are from the present, and thus a certain amount of subjectivity and judgment will be inherent in the process.
Select one correct answer from the list:

- A. Guessing
- **B. A certain amount of subjectivity and judgment**
- C. Mostly unknowns
- D. A certain amount of optimistic speculation

Answer: B

Explanation:

GInI'sCInP Handbooknotes that in InMS Stage 3, evaluating ideas involves metrics (e.g., ROI, market size) projected into the future, where data may be incomplete. This introduces "a certain amount of subjectivity and judgment"-informed estimates by experts-balancing hard data with experience. "Guessing" (A) implies randomness, against GInI's rigor. "Mostly unknowns" (B) overstates uncertainty. "Optimistic speculation" (D) suggests bias, not judgment. Option C aligns with GInI's acknowledgment of human interpretation in early-stage decisions, matching the original answer, reflecting a pragmatic blend of science and art in GInI's evaluation-a realistic approach to innovation's ambiguity.

NEW QUESTION # 118

Cross-Industry Lateral Innovation Panels are private groups of businesses from different industries who from time to time host panel sessions together where each business sends one or more leaders to engage with peers on the panel for the purpose of cross-pollinating ideas with one another. This tends to produce highly lateral thinking around different ways of doing things-aka lateral approaches. These individuals then return to their respective organizations and use their new insights as fresh fodder for the Innovation Funnel.

Select one correct answer from the list:

- **A. Cross-Industry Lateral Innovation Panels**
- B. Super-Industry Horizontal Thinking Labs
- C. Intra-Industry Lateral Thinking Teams
- D. Extra-Industry Horizontal Innovation Forums

Answer: A

Explanation:

The description provided in the question explicitly matches the definition of "Cross-Industry Lateral Innovation Panels" as outlined in GInl documentation. These panels are designed to bring together leaders from different industries to share perspectives and generate lateral (outside-the-box) ideas that can be fed into an organization's Innovation Funnel. The term "cross-industry" indicates collaboration across diverse sectors, distinguishing it from "intra-industry" (B), which would imply within the same industry. Options A ("Super- Industry Horizontal Thinking Labs") and D ("Extra-Industry Horizontal Innovation Forums") are not standard terms in GInl's framework and appear as distractors. The focus on cross-pollination and lateral thinking aligns perfectly with option C, making it the correct choice.

NEW QUESTION # 119
