The SC-200 Certification Exam is ideal for security analysts, security operations center (SOC) analysts, incident response analysts, and threat intelligence analysts. SC-200 exam measures the candidate's ability to perform tasks such as configuring and using Microsoft Defender for Endpoint, analyzing security data using Azure Sentinel, investigating and responding to security incidents, and managing security operations. Microsoft Security Operations Analyst certification exam is intended to help professionals demonstrate their ability to use Microsoft technologies to protect their organization's assets from cyber threats.

Microsoft Security Operations Analyst Sample Questions (Q367-Q372):

NEW QUESTION # 367

You use Azure Sentinel.

You need to receive an immediate alert whenever Azure Storage account keys are enumerated. Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a bookmark.
- B. Add a data connector
- C. Create an analytics rule
- D. Create a livestream
- E. Create a hunting query.

Answer: B,C

Explanation:

B: To add a data connector, you would use the Azure Sentinel data connectors feature to connect to your Azure subscription and to configure log data collection for Azure Storage account key enumeration events.

C: After adding the data connector, you need to create an analytics rule to analyze the log data from the Azure storage connector, looking for the specific event of Azure storage account keys enumeration. This rule will trigger an alert when it detects the specific event, allowing you to take immediate action.

NEW QUESTION # 368

You need to implement Microsoft Defender for Cloud to meet the Microsoft Defender for Cloud requirements and the business requirements. What should you include in the solution? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 369

Your on-premises network contains 100 servers that run Windows Server.

You have an Azure subscription that uses Microsoft Sentinel.

You need to upload custom logs from the on-premises servers to Microsoft Sentinel.

What should you do? To answer, select the appropriate options in the answer area.

Answer:

Explanation:

Explanation:

To upload custom logs from the on-premises servers to Microsoft Sentinel, you should install the Log Analytics agent on each of the 100 servers. The Log Analytics agent is a lightweight agent that runs on the server and allows it to connect to the cloud-based Microsoft Defender Security Center. Once installed, the agent will allow the Microsoft Sentinel service to collect and analyze the custom log data from the servers.

NEW QUESTION # 370

You have a Microsoft Sentinel workspace named sws1.

You need to create a hunting query to identify users that list storage keys of multiple Azure Storage accounts. The solution must exclude users that list storage keys for a single storage account.

How should you complete the query? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 371

You have a Microsoft 365 E5 subscription that uses Microsoft Defender for Endpoint and contains a Windows device named Device1. You need to investigate a suspicious executable file detected on Device1.

The solution must meet the following requirements:

* Identify the image file path of the file.

* Identify when the file was first detected on Device1.

What should you review from the timeline of the detection event? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 372

To attain this you just need to enroll in the Microsoft SC-200 certification exam and put all your efforts to pass this challenging Microsoft SC-200 exam with good scores. However, to get success in SC-200 dumps PDF is not an easy task, it is quite difficult to pass it.
