- A. CloudFormation rejects the update and warns that a new full stack is required.
- B. Some of the FortiGate instances may be deleted and replaced with new copies.

- A. You must add routes to the IP address used by the load balancers to send probes.
- B. The public IP of the active FortiGate is the next-hop for all the incoming traffic.
- C. A dedicated management interface can be used for load balancing.
- D. The internal load balancer is the next-hop for outgoing traffic.
