AZ-305 Latest Mock Exam, AZ-305 Reliable Test Vce

When they will be giving their final examination to get Microsoft AZ-305 certification they don't struggle much and do it easily. The results of the customizable AZ-305 exam dumps can then be used to identify areas of strength and weakness and to create a personalized study plan that focuses on improving in the areas that need the most work. Taking AZ-305 Practice Tests regularly could help individuals build their confidence, reduce test anxiety, and improve their overall performance.

Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q125-Q130):

NEW QUESTION # 125

You have an Azure subscription.

You are designing a solution for containerized apps. The solution must meet the following requirements:

- * Automatically scale the apps by creating additional instances.
 - * Minimize administrative effort to maintain nodes and clusters.
 - * Ensure that containerized apps are highly available across multiple availability zones.
 - * Provide a central location for the lifecycle management and storage of container images.
- What should you include in the solution? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 126

You are developing an app that will use Azure Functions to process Azure Event Hubs events. Request processing is estimated to take between five and 20 minutes. You need to recommend a hosting solution that meets the following requirements:

- * Supports estimates of request processing runtimes
- * Supports event-driven autoscaling for the app

Which hosting plan should you recommend?

- **A. App Service**
- B. Consumption
- C. Premium
- D. Dedicated

Answer: A

NEW QUESTION # 127

You have an on-premises web server farm that contains 10 servers. The servers run Windows Server 2016 and host a .NET Framework application named App1. The state data for App1 is maintained by using a database named DB1. The usage patterns of App1 vary significantly.

You plan to perform the following actions:

- * Migrate App1 to Azure.
- * Migrate DB1 to an Azure SQL database.

You need to recommend a virtual machine-based solution to host App1. The solution must meet the following requirements:

- * Minimize how long it takes to scale out resources during surges in demand for App1.
- * Ensure minimum capacity availability of the virtual machines at all times.
- * Ensure that the solution can be recovered if an Azure region fails.
- * Minimize compute costs.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 128

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You plan to deploy multiple instances of an Azure web app across several Azure regions.

You need to design an access solution for the app. The solution must meet the following replication requirements:

Support rate limiting.

Balance requests between all instances.

Ensure that users can access the app in the event of a regional outage.

Solution: You use Azure Application Gateway to provide access to the app.

Does this meet the goal?

- A. Yes
- **B. No**

Answer: B

NEW QUESTION # 129

You have an Azure Load Balancer named LB1 that balances requests to five Azure virtual machines.

You need to develop a monitoring solution for LB1. The solution must generate an alert when any of the following conditions are met:

A virtual machine is unavailable.

Connection attempts exceed 50,000 per minute.

Which signal should you include in the solution for each condition? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:
