Getting H13-511_V5.5 exam certified is not easy. To pass the exam, one must put in a tremendous amount of effort, resolve, and dedication. One of the most dependable sites, Pass4sures provides students with accurate, dependable, and simple Huawei H13-511_V5.5 Dumps to assure their success on the first attempt. For those looking to pass the H13-511_V5.5 exam certificate on their first attempt, Pass4sures provides the full package, which includes all exam dumps that follow the syllabus.

Huawei H13-511_V5.5 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Understand the differences between virtualization and cloud computing: This section clarifies how virtualization and cloud computing are related yet distinct technologies. It explains that virtualization is a key enabler of cloud computing but cloud encompasses broader service delivery models and characteristics.
Topic 2	<ul style="list-style-type: none">Be able to design and deploy Huawei's FusionCompute virtualization solution and FusionAccess desktop solution: This section covers the practical skills needed to architect and implement Huawei's enterprise virtualization platform FusionCompute and their desktop virtualization product FusionAccess. It includes planning, configuration, and deployment procedures for these Huawei-specific solutions.

Topic 3	<ul style="list-style-type: none"> • Be able to describe what virtualization is: This topic covers the concept of virtualization technology and how it enables multiple virtual instances to run on physical hardware. It explains the foundational role virtualization plays in creating isolated computing environments.
Topic 4	<ul style="list-style-type: none"> • Describe what cloud computing is: This topic covers the fundamental definition and concept of cloud computing technology. It explains how cloud computing enables on-demand access to shared computing resources over the internet.

Reliable H13-511_V5.5 Exam Testking & Reliable H13-511_V5.5 Test Answers

Participation in the Huawei community is a helpful way to discuss H13-511_V5.5 exam topics with other Huawei H13-511_V5.5 exam applicants and experts. The official website of the H13-511_V5.5 exam has other different learning resources. You can choose any of the courses available that are suitable to you at the official website of the Huawei H13-511_V5.5 test. Find official Huawei books for preparation or buy training material available at the official website of the H13-511_V5.5 certification exam.

Huawei HCIA-Cloud Computing V5.5 Sample Questions (Q81-Q86):

NEW QUESTION # 81

Mainstream virtualization technologies all have the function of console management of the virtual machine. If an employee fails to log in to the virtual machine on the FusionCompute platform using VNC, the possible reason is that the virtual machine is not configured with an IP address.

- A. True
- B. False

Answer: B

NEW QUESTION # 82

During FusionAccess virtual desktop provisioning, when a VM is being created, which of the following components checks whether the specified VM group and desktop group exist?

- A. HDP
- B. GaussDB
- C. HDC
- D. HDA

Answer: C

Explanation:

In FusionAccess architecture:

HDC (Huawei Desktop Controller) is responsible for desktop lifecycle management, including provisioning logic, policy enforcement, and resource validation.

During VM creation, HDC verifies whether the specified VM group and desktop group exist and whether configurations are valid.

Other components:

GaussDB stores metadata.

HDA runs inside desktops.

HDP is a display protocol.

Thus, the correct answer is HDC.

NEW QUESTION # 83

On FusionAccess, the vLB implements load balancing when a user accesses the what?

Answer:

Explanation:

On FusionAccess, the vLB (virtual Load Balancer) implements load balancing when a user accesses the virtual desktop. The vLB is responsible for distributing user connections and access requests across available virtual desktops, ensuring optimal resource utilization and providing a smooth user experience. This helps prevent overloading of any single virtual desktop and maintains a balanced distribution of user sessions.

NEW QUESTION # 84

In Huawei Fusion Computer, when the administrator checks the disk status, he finds that "actual usage" is less than "capacity". The reason for this phenomenon is?

- A. The disk mode is "thin"
- B. The disk mode is "Slave"
- C. The disk type is "shared"
- D. Disk status is "unavailable"

Answer: A

NEW QUESTION # 85

Which of the following descriptions about the characteristics of virtualization is wrong?

- A. Independence: The combination of software and hardware and virtualization depend on the underlying hardware, and compatibility issues need to be considered
- B. Partition: Each virtual machine divides resources separately
- C. Isolation: Logical isolation between virtual machines is not affected by each other
- D. Encapsulation: Encapsulate the virtual machine into a file and save it on the physical device

Answer: A

NEW QUESTION # 86

.....

Every version of H13-511_V5.5 study materials that we provide to you has its own advantage: the PDF version has no equipment limited, which can be read anywhere; the online version can use on any electronic equipment there is network available; the software version can simulate the Real H13-511_V5.5 Exam environment to let you have more real feeling to H13-511_V5.5 real exam, besides the software version can be available installed on unlimited number devices.
