## **Up-To-Date And Verified HITRUST CCSFP Exam Questions For Preparation**

If you have the CCSFP certification, it will be very easy for you to achieve your dream. But it is not an easy thing for many candidates to pass the CCSFP exam. By chance, our company can help you solve the problem and get your certification, because our company has compiled the CCSFP question torrent that not only have high quality but also have high pass rate. We believe that our CCSFP exam questions will help you get the certification in the shortest. So hurry to buy our CCSFP exam torrent, you will like our products.

### **HITRUST Certified CSF Practitioner 2025 Exam Sample Questions (Q40-Q45):**

#### **NEW QUESTION # 40**

When creating different scenarios for an assessment where the scope has yet to be fully defined, which option allows you to see the difference in Requirement Statement counts without updating the object itself? [0181]

- A. Create Assessment
- **B. Preview Profile**
- C. Applicable Controls
- D. Preview Changes

**Answer: B**

Explanation:

Preview Profile in MyCSF allows organizations to model different scoping scenarios and view how many Requirement Statements would apply.

This can be done without formally updating the assessment object.

"Applicable Controls" and "Preview Changes" are related to finalized objects, while "Create Assessment" launches a new one.

Extract Reference (MyCSF Guidance [0181]):

The Preview Profile feature allows subscribers to compare Requirement Statement counts under different scenarios without committing changes to the assessment object.

Correct response: Preview Profile.

#### **NEW QUESTION # 41**

Which of the following is NOT one of the Technical risk factors?

- A. Number of Transactions
- B. Number of Users
- **C. Number of Facilities**
- D. Accessible from the Internet

**Answer: C**

Explanation:

Technical risk factors in HITRUST scoping include elements that influence the size and complexity of the IT environment. Examples are Number of Users (reflecting identity management challenges), Number of Transactions (indicating workload and exposure volume), and Accessible from the Internet (highlighting attack surface considerations). These factors affect how many requirement statements are assigned and the level of implementation required. However, Number of Facilities is not considered a technical factor. Instead, facilities are categorized under Organizational or Operational risk factors, since they represent physical locations and operational complexity rather than technical characteristics. This distinction ensures risk tailoring addresses both IT-centric and business-environment dimensions separately.

References: HITRUST CSF Methodology - "Risk Factor Categories and Examples"; CCSFP Study Guide - "Scoping with Technical vs. Organizational Factors."

#### NEW QUESTION # 42

All initial Readiness Assessments undergo HITRUST Quality Assurance (QA) reviews.

- A. True
- B. False

**Answer: B**

Explanation:

Readiness assessments, including the initial Readiness Assessment, are not formally submitted to HITRUST QA. Instead, they are internal preparation exercises intended to help organizations identify gaps, plan remediation, and get ready for a validated assessment. QA reviews are reserved for validated assessments (e1, i1, and r2) that are submitted for certification or validated reports. Readiness results can be used by management or shared with business partners informally, but they are not validated by HITRUST. This distinction preserves HITRUST QA resources for validated assurance activities and emphasizes that readiness is an organizational self-assessment step.

References: HITRUST Assurance Program Overview - "Readiness vs. Validated Assessments"; CCSFP Study Guide - "HITRUST QA Process."

#### NEW QUESTION # 43

What information is required to complete the documentation of a Corrective Action Plan (CAP)? (Select all that apply) [0064]

- A. What steps will be taken to address the CAP
- B. The amount of capital/expense required to implement remediation activities
- C. The status of the CAP
- D. Who is responsible for closing the CAP
- E. An estimated date when the CAP will be completed by

**Answer: A,C,D,E**

Explanation:

A Corrective Action Plan (CAP) is used when a requirement statement is not fully satisfied. HITRUST requires specific information to ensure the CAP is actionable and trackable:

Responsible party # assigns accountability.

Status # indicates if the CAP is open, in progress, or closed.

Steps for remediation # outlines actions that will be taken.

Estimated completion date # provides a timeline for closure.

The amount of capital/expense is not a required element in HITRUST documentation, as CAPs focus on remediation planning and accountability, not budgeting.

Extract Reference (HITRUST CSF Assurance Program, CCSFP Guide, CAP Documentation [0064]):

Each CAP must include responsible individual(s), remediation steps, current status, and estimated completion date to be valid in MyCSF.

#### NEW QUESTION # 44

When are HITRUST Assurance Advisories (HAA) posted? [0167]

- A. Annually
- B. Quarterly

- C. Monthly
- D. There is no formal schedule for issuing Assurance Advisories

**Answer: D**

Explanation:

HITRUST Assurance Advisories (HAAs) are issued when necessary to communicate important updates, clarifications, or changes impacting the CSF Assurance Program. These advisories are not bound to a fixed schedule (monthly, quarterly, or annually), but rather published as needed.

Extract Reference (HITRUST CSF Assurance Program, CCSFP Content [0167]):

There is no formal schedule for issuing HITRUST Assurance Advisories; they are published on an as-needed basis to communicate relevant updates.

Correct response: There is no formal schedule.

**NEW QUESTION # 45**

.....

Our CCSFP exam questions have a lot of advantages. First, our CCSFP practice materials are reasonably priced with accessible prices that everyone can afford. Second, they are well-known in this line so their quality and accuracy is unquestionable that everyone trusts with confidence. Third, our CCSFP Study Guide is highly efficient that you have great possibility pass the exam within a week based on regular practice attached with the newest information.
