The meaning of qualifying examinations is, in some ways, to prove the candidate's ability to obtain qualifications that show your ability in various fields of expertise. If you choose our C-SEC-2405 learning guide materials, you can create more unlimited value in the limited study time, through qualifying examinations, this is our C-SEC-2405 Real Questions and the common goal of every user, we are trustworthy helpers, so please don't miss such a good opportunity. The acquisition of C-SEC-2405 qualification certificates can better meet the needs of users' career development.

SAP Certified Associate - Security Administrator Sample Questions (Q33-Q38):

NEW QUESTION # 33

Which of the following are SAP Fiori Launchpad functionalities? Note: There are 2 correct answers to this question.

- A. SAP GUI
- B. User Actions Menu
- C. Web Dynpro
- D. Spaces

Answer: B,D

Explanation:

The SAP Fiori Launchpad is a central entry point for accessing applications in SAP S/4HANA, and it includes specific functionalities to enhance user experience. "Spaces" is a key feature that organizes applications into logical groups, making navigation intuitive for users. The "User Actions Menu" provides personalized options, such as user settings, app finder, and logout, enabling users to interact efficiently with the system. In contrast, SAP GUI is a traditional interface for SAP systems, not a Fiori Launchpad feature, and Web Dynpro is a technology for web-based applications that may be accessed via the Launchpad but is not a core functionality. These distinctions ensure that the Fiori Launchpad remains a modern, user-friendly interface for SAP applications.

NEW QUESTION # 34

Which of the following are SAP Fiori Launchpad functionalities? Note: There are 2 correct answers to this question.

- A. SAP GUI
- B. User Actions Menu
- C. Web Dynpro
- D. Spaces

Answer: B,D

Explanation:

* Context:SAP Fiori Launchpad provides a unified and customizable user interface for accessing Fiori applications.

* Solution Descriptions:

* A. Spaces:Allow the structuring of content in a user-friendly manner.

* D. User Actions Menu:Enables user-specific actions such as changing passwords or managing settings.

SAP Security References:

* SAP Fiori Launchpad Configuration Guide

* SAP Help Portal for Fiori Launchpad Features

NEW QUESTION # 35

Where can you find information on the SAP-delivered default authorization object and value assignments?

Note: There are 2 correct answers to this question.

- A. USOBT_C
- B. SU22
- C. USOBT
- D. SU24

Answer: B,C

Explanation:

Information on SAP-delivered default authorization objects and their value assignments can be found in transaction SU22 and table USOBT. Transaction SU22 is used to maintain and view SAP default authorization data, including authorization objects and their proposed values for transactions, as provided by SAP. The table USOBT (Authorization Object Defaults) stores these default assignments, detailing the authorization objects linked to transactions and their standard values. In contrast, USOBT_C is a customer-specific table for customized authorization data, and SU24 is used for maintaining customer-specific authorization proposals, not SAP-delivered defaults. These tools and tables ensure administrators can access and understand SAP's standard authorization configurations for secure system setup.

NEW QUESTION # 36

What can be assigned directly to a user when using the SAP Launchpad service in SAP BTP?

- A. Role collections
- B. Launchpad roles
- C. Catalogs
- D. Spaces

Answer: A

Explanation:

In the SAP Launchpad service within SAP Business Technology Platform (BTP), Role collections can be assigned directly to a user. Role collections are groups of roles that define access to specific applications, services, or functionalities within the Launchpad, allowing administrators to grant users the necessary permissions to access content, such as Fiori apps or custom applications. By assigning role collections directly to users in the SAP BTP subaccount, administrators ensure that users have the appropriate access rights tailored to their responsibilities. Spaces, which organize apps in the Launchpad, and Catalogs, which group apps and tiles, are assigned to roles or role collections, not directly to users. Launchpad roles are not a distinct entity in SAP BTP; roles are part of role collections. This direct assignment of role collections simplifies access management, ensuring secure and efficient user access to the SAP Launchpad service while aligning with SAP BTP's security and authorization framework.

NEW QUESTION # 37

What does a status text value of "Old" mean during the maintenance of authorizations for an existing role?

- A. The field delivered with content was changed but the old value was retained.
- B. Field values were changed as a result of the merge process.
- C. Field values have not been changed.
- D. Field values were unchanged and no new authorization was added.

Answer: A

Explanation:

* Context: During role maintenance in SAP, status values indicate changes or actions applied to field values.

* Solution Explanation:

* A status of "Old" means the field value was delivered with content but has since been modified, retaining the old value.

SAP Security References:

* SAP Role Maintenance Guide (Transaction PFCG)

* SAP Authorization Concept Documentation

NEW QUESTION # 38

The operation of our C-SEC-2405 exam torrent is very flexible and smooth. Once you enter the interface and begin your practice on our windows software.
