

Dumps 1Z1-182 Questions & Valid 1Z1-182 Test Objectives

BTW, DOWNLOAD part of DumpsActual 1Z1-182 dumps from Cloud Storage: <https://drive.google.com/open?id=1I-55GJsLUzccPSDPo67NZAKLDXaWKjOF>

After clients pay for our 1Z1-182 exam torrent successfully, they will receive the mails sent by our system in 5-10 minutes. Then the client can click the links and download and then you can use our 1Z1-182 questions torrent to learn. Because time is very important for the people who prepare for the exam, the client can download immediately after paying is the great advantage of our 1Z1-182 Guide Torrent.

Oracle 1Z1-182 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Describe Managing Database Instances: This section tests the knowledge of Database Administrators in performing essential tasks for managing database instances. It includes starting and shutting down databases, utilizing dynamic performance views, managing initialization parameter files, and using the Automatic Diagnostic Repository (ADR) for troubleshooting.
Topic 2	<ul style="list-style-type: none">Managing Storage: This section tests the knowledge of Storage Engineers in managing storage features such as resumable space allocation, segment space-saving, and block space management. It also includes defining segment characteristics to optimize storage utilization.
Topic 3	<ul style="list-style-type: none">Managing Users, Roles, and Privileges: This domain evaluates the expertise of Security Administrators in implementing user security measures. It focuses on creating and managing users, roles, and privileges to ensure secure access to Oracle databases.
Topic 4	<ul style="list-style-type: none">Introduction to Performance: This section evaluates the expertise of Performance Analysts in summarizing Oracle database performance management techniques. It includes measuring database performance using SQL execution plans, directives, and advisors to ensure optimal system efficiency.
Topic 5	<ul style="list-style-type: none">Introduction to Auditing: This domain tests the abilities of Compliance Specialists in implementing database auditing practices. It includes creating, modifying, and maintaining auditing policies while applying value-based auditing techniques like Fine-Grained Auditing (FGA).
Topic 6	<ul style="list-style-type: none">Managing Undo: This domain measures the skills of Database Administrators in using undo data effectively. It compares undo data with redo data and explains temporary undo usage for efficient transaction management.

Use the Oracle 1Z1-182 Exam Questions for a Successful Certification

In today's world, the 1Z1-182 certification exam has become increasingly popular, providing professionals with the opportunity to upskill and stay competitive in the tech industry. At DumpsActual, we understand the importance of obtaining the Oracle 1Z1-182 Certification in the Oracle sector, where technological advancements constantly evolving.

Oracle Database 23ai Administration Associate Sample Questions (Q94-Q99):

NEW QUESTION # 94

Which two statements are true about the tools used to configure Oracle Net Services?

- A. Oracle Net Manager can be used to centrally configure listeners on any database server target.
- B. The lsnrctl utility requires a listener.ora file to exist before it is started.
- C. Oracle Net Manager can be used to locally configure naming methods on a database server.
- D. The Oracle Net Configuration Assistant is only used when running the Oracle installer.
- E. Enterprise Manager Cloud Control can be used to centrally configure net service names for any database server target.

Answer: C,E

Explanation:

- A .False. lsnrctl can start a default listener without listener.ora.
- B .True. EMCC provides centralized Net Services configuration.
- C .False. NetCA can run standalone, not just during installation.
- D .True. Net Manager configures local naming (e.g., TNSNAMES.ORA).
- E .False. Net Manager is local, not centralized like EMCC.

NEW QUESTION # 95

Which two statements are true about the DUAL table?

- A. It can display multiple rows and columns.
- B. It can be accessed by any user who has the SELECT privilege in any schema.
- C. It can display multiple rows but only a single column.
- D. It can be used to display only constants or pseudo columns.
- E. It consists of a single row and single column of VARCHAR2 data type.
- F. It can be accessed only by the SYS user.

Answer: B,E

Explanation:

- A .True. DUAL is public; any user with SELECT can query it.
- B .True. One row, one VARCHAR2 column (DUMMY).
- C .False. Fixed at one row.
- D .False. Not restricted to SYS.
- E .False. One row, one column only.
- F .False. Can return expressions, not just constants.

NEW QUESTION # 96

Which three Oracle database space management features will work with both Dictionary and Locally managed tablespaces?

- A. Online index segment shrink.
- B. Automatic data file extension (AUTOEXTEND).
- C. Oracle Managed Files (OMF).
- D. Online table segment shrink.
- E. Capacity planning growth reports based on historical data in the Automatic Workload Repository (AWR).

Answer: B,C,E

Explanation:

Dictionary-managed tablespaces (DMTs) use the data dictionary for extent management, while locally managed tablespaces (LMTs) use bitmaps. Let's evaluate compatibility:

A . Capacity planning growth reports based on historical data in the Automatic Workload Repository (AWR).

True. AWR tracks space usage (e.g., DBA_HIST_TBSPC_SPACE_USAGE) regardless of tablespace type, enabling growth reports for both DMTs and LMTs.

Mechanics:MMON collects metrics like segment growth, stored in SYSAUX, accessible via EM or scripts.

Practical Use:Helps predict when to add data files, universal across management types.

B . Online table segment shrink.

False. ALTER TABLE ... SHRINK SPACE requires LMTs with Automatic Segment Space Management (ASSM), unavailable in

DMTs, which lack bitmap-based free space tracking.

Why Incorrect: DMTs use freelists, incompatible with shrink operations.

C . Online index segment shrink.

False. Like tables, ALTER INDEX ... SHRINK SPACE requires LMTs with ASSM, not supported in DMTs.

Why Incorrect: Same limitation as B; DMTs can't compact online.

D . Oracle Managed Files (OMF).

True. OMF automates file naming and placement (via DB_CREATE_FILE_DEST) for both DMTs and LMTs, agnostic to extent management.

Mechanics: Example: CREATE TABLESPACE ts1; creates an OMF file in either type.

Edge Case: DMTs are rare in 23ai, but OMF still applies.

E . Automatic data file extension (AUTOEXTEND).

True. AUTOEXTEND ON allows data files to grow as needed, supported in both DMTs and LMTs since early versions.

Mechanics: ALTER DATABASE DATAFILE ... AUTOEXTEND ON NEXT 100M; works universally.

NEW QUESTION # 97

Which two statements are true about the PMON background process?

- A. It records checkpoint information in the control file.
- B. It registers database services with all local and remote listeners known to the database instance.
- C. It rolls back transactions when a process fails.
- D. It frees unused temporary segments.
- E. It frees resources held by abnormally terminated processes.

Answer: C,E

Explanation:

A .False. LREG handles registration in 23ai, not PMON.

B .False. CKPT (Checkpoint) process updates the control file.

C .True. PMON cleans up after failed processes (e.g., releases locks).

D .True. PMON rolls back uncommitted transactions of failed processes.

E .False. SMON (System Monitor) manages temporary segment cleanup.

NEW QUESTION # 98

Which two statements are true about database instances and Real Application Clusters (RAC)?

- A. A RAC database must have three or more instances.
- B. A RAC database can have instances on separate servers.
- C. Two RAC databases can share their instances.
- D. A RAC database must have two or more instances.
- E. A RAC database can have one instance.

Answer: B,E

Explanation:

A .False. RAC can run with one instance (degraded mode).

B .True. Possible, though not typical for RAC.

C .False. No minimum of three.

D .True. RAC instances run on separate nodes.

E .False. Instances are DB-specific in RAC.

NEW QUESTION # 99

.....

1Z1-182 certification is more and more important for this area, but the exam is not easy for many candidates. Our 1Z1-182 practice materials make it easier to prepare exam with a variety of high quality functions. Their quality function is observably clear once you download them. We have three kinds of 1Z1-182 practice materials moderately priced for your reference. All these three types of 1Z1-182 practice materials win great support around the world and all popular according to their availability of goods, prices and

other term you can think of. Just come and buy them!
