Does not require much effort, you can get a high score. Choose the Braindumpsqa's EXIN PR2F exam training materials for your exam is very helpful.

EXIN PR2F (PRINCE2 Foundation written) Exam is a globally recognized certification that demonstrates a fundamental understanding of the PRINCE2 methodology. PRINCE2 (PRojects IN Controlled Environments) is a process-based approach that provides a framework for project management. The PR2F exam covers the basic principles, processes, themes, and techniques of PRINCE2, providing candidates with the essential knowledge needed to contribute to a project management team utilizing this methodology.

The PRINCE2 Foundation Certification Exam is a written exam that consists of 60 multiple-choice questions, which need to be completed within 60 minutes. PR2F Exam is designed to test the candidate's understanding of the PRINCE2 methodology, the key concepts, and the terminology used in the PRINCE2 framework. The questions are based on a scenario, and the candidate needs to answer them based on the given information.

EXIN PRINCE2 7 Foundation written Exam Sample Questions (Q86-Q91):

NEW QUESTION # 86
Which of the following statements about customer's quality expectations and acceptance criteria are true?

1. Customer's quality expectations form a specific and precise list of measurable criteria that a project product should meet in order to be acceptable to key stakeholders.
2. Acceptance criteria are often expressed in broad terms as a means to gain common understanding of general quality requirements.

- A. Only 2 is true
- B. Only 1 is true
- C. Neither 1 or 2 are true
- D. Both 1 and 2 are true

Answer: A

Explanation:
In PRINCE2, customer's quality expectations (CQEs) are a high-level statement of what the customer expects from the project and are often expressed in broad terms. They are not necessarily measurable on their own but provide a sense of general quality requirements. In contrast, acceptance criteria are specific and precise; they form the list of conditions that a project product must meet to be accepted by key stakeholders.
Therefore, statement 1 is false, and statement 2 correctly describes the customer's quality expectations.
