If candidates are afraid of failing exam and do not want to attend test one more time and pay twice or more exam cost, our 312-38 PDF dumps are really a good shortcut for you.

The Software Test Team and the Customer Support Team, Therefore, **312-38 Top Questions** you can delete all the existence of a material, Select the appropriate shortcut just to guarantee success.

Our educational experts will handle this information skillfully and publish high passing-rate 312-38 test preparation materials professionally. It is never too late to learn new things.

Printable Questions & Answers, Never have any other platforms done that like our EC-COUNCIL 312-38 real questions offer so many ways to every customer and candidate.

EC-COUNCIL 312-38 Top Questions & 312-38 Reliable Exam Questions

What's more, part of that BraindumpsIT 312-38 dumps now are free: https://drive.google.com/open?id=1DIQ4Uy-OpAIvYn1N3Ro3Ds_5LV5LbXDH

Our product boosts many merits and functions. You can download and try out our 312-38 test question freely before the purchase. You can use our product immediately after you buy our product. We provide 3 versions for you to choose and you only need 20-30 hours to learn our 312-38 training materials and prepare the exam. The passing rate and the hit rate are both high. The purchase procedures are safe and we protect our client's privacy. We provide 24-hours online customer service and free update within one year. If you fail in the exam, we will refund you immediately. All in all, there are many advantages of our 312-38 Training Materials.

BraindumpsIT has become the front-runner of this career and help exam candidates around the world win in valuable time. With years of experience dealing with 312-38 exam, they have thorough grasp of knowledge which appears clearly in our 312-38 exam questions. All 312-38 study materials you should know are written in them with three versions to choose from. In case there are any changes happened to the 312-38 Exam, the experts keep close eyes on trends of it and compile new updates constantly. It means we will provide the new updates freely for you later.

312-38 Test Torrent & 312-38 Reliable Braindumps & 312-38 Training Questions

Our 312-38 practice tests have established impressive recognition throughout the industry, diversified modes of learning enables the 312-38 exam candidates to capture at the real exam scenario. Tremendous quality of our 312-38 products makes the admirable among the professionals. Our practice tests are on demand, attending the needs of 312-38 Exams more comprehensively and dynamically as well. Lift up your learning tendency with BraindumpsIT practice tests training. Conceptual understanding matters the most for your success, technical excellence is certain with BraindumpsIT training as our experts keep it on high priority.

EC-COUNCIL EC-Council Certified Network Defender CND Sample Questions (Q563-Q568):

NEW QUESTION # 563

Which of the following devices allows wireless communication devices to connect to a wireless network using Wi-Fi, Bluetooth, or related standards?

- A. Wireless repeater
- B. Express card
- **C. WAP**
- D. WNIC
- E. None

Answer: C

Explanation:

A wireless access point (WAP) is a device that allows wireless communication devices to connect to a wireless network using Wi-Fi, Bluetooth, or related standards. The WAP usually connects to a wired network, and it can transmit data between wireless devices and wired devices on the network. Each access point can serve multiple users within a defined network area. As people move beyond the range of one access point, they are automatically handed over to the next one. A small WLAN requires a single access point. The number of access points in a network depends on the number of network users and the physical size of the network.

Answer option C is incorrect. A wireless network interface card (WNIC) is a network card that connects to a radio-based computer network, unlike a regular network interface controller (NIC) that connects to a wire-based network such as token ring or ethernet. A WNIC, just like a NIC, works on the Layer 1 and Layer 2 of the OSI Model. A WNIC is an essential component for wireless desktop computer. This card uses an antenna to communicate through microwaves. A WNIC in a desktop computer is usually connected using the PCI bus.

Answer option A is incorrect. ExpressCard, a new standard introduced by PCMCIA, is a thinner, faster, and lighter modular expansion for desktops and laptops. Users can add memory, wired or wireless communication cards, and security devices by inserting these modules into their computers. ExpressCard slots are designed to accommodate modules that use either Universal Serial Bus (USB) 2.0 or the PCI Express standard.

ExpressCard modules are available in two sizes, i.e., 34 mm wide (ExpressCard/34) and 54 mm wide (ExpressCard/54). Both modules are 75 mm long and 5 mm high. An ExpressCard/34 module can be inserted in either a 54 mm slot or a 34 mm slot, but an ExpressCard/54 requires a Universal (54 mm) slot. However, an extender can be used with ExpressCard/34 slot to connect the ExpressCard/54 module from outside of the computer. Both the modules are identical in performance. They take full advantage of the features of the PCI Express or USB 2.0 interfaces. The only difference between them is that the ExpressCard/54 form-factor, due to its larger surface area, allows for greater thermal dissipation than does an ExpressCard/34. As the performance does not vary with module size, module developers usually prefer to fit their applications into the smaller ExpressCard/34 form factor. But some applications, such as SmartCard readers, and CompactFlash readers, require the extra width of an ExpressCard/54 module.

Answer option D is incorrect. A wireless repeater is a networking device that works as a repeater between a wireless router and computers. It is used to connect a client to the network when the client is out of the service area of the access point. If the wireless repeater is configured properly, it extends the range of the wireless LAN network.

NEW QUESTION # 564

Michelle is a network security administrator working at a multinational company. She wants to provide secure access to corporate data (documents, spreadsheets, email, schedules, presentations, and other enterprise data) on mobile devices across organizations networks without being slowed down and also wants to enable easy and secure sharing of information between devices within an enterprise. Based on the above-mentioned requirements, which among the following solution should Michelle implement?

- A. MAM

- B. MEM
- **C. MCM**
- D. MDM

Answer: C

Explanation:

Incident management enables an organization to analyze, identify, and rectify hazards and prevent future recurrence in business continuity management. It involves a systematic process that manages the lifecycle of all incidents. Incident management ensures that normal service operation is restored as quickly as possible and the business impact is minimized. It is an integral part of an organization's business continuity and disaster recovery plan, focusing on the immediate response to incidents, establishing protocols for communication, and promoting swift recovery actions.

NEW QUESTION # 565

Which of the following IEEE standards is an example of a DQDB access method?

- **A. 802.6**
- B. 802.5
- C. 802.4
- D. 802.3

Answer: A

NEW QUESTION # 566

The IR team and the network administrator have successfully handled a malware incident on the network. The team is now preparing a countermeasure guideline to avoid a future occurrence of the malware incident.

Which of the following countermeasure(s) should be added to deal with future malware incidents?

(Select all that apply)

- **A. Install antivirus software**
- B. Complying with the company's security policies
- C. Implementing a strong password policy
- D. Implementing strong authentication schemes

Answer: A

NEW QUESTION # 567

Which of the following systems monitors the operating system detecting inappropriate activity, writing to log files, and triggering alarms?

- A. Signature-Based ID system
- B. Behavior-based ID system
- C. Network-based ID system
- **D. Host-based ID system**

Answer: D

NEW QUESTION # 568
