With the rapid development of the world economy and frequent contacts between different countries, looking for a good job has become more and more difficult for all the people. So it is very necessary for you to get the 2V0-32.24 certification with the help of our 2V0-32.24 Exam Braindumps, you can increase your competitive advantage in the labor market and make yourself distinguished from other job-seekers. Choosing our 2V0-32.24 study guide, you will have a brighter future!

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.

Topic 2	<ul style="list-style-type: none"> Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 3	<ul style="list-style-type: none"> Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 4	<ul style="list-style-type: none"> Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.

Self-study resource approved 2V0-32.24 Exam Questions

Maybe you will meet some difficult or problems when you prepare for your 2V0-32.24 exam, you even want to give it up. That is why I suggest that you must try our study materials. Because 2V0-32.24 guide torrent can help you to solve all the problems encountered in the learning process, 2V0-32.24 study tool will provide you with very flexible learning time so that you can easily pass the exam. Even if you fail to pass the exam, as long as you are willing to continue to use our 2V0-32.24 Study Tool, we will still provide you with the benefits of free updates within a year.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q25-Q30):

NEW QUESTION # 25

An administrator updated the alert and symptom definitions. The administrator now wants to complete an upgrade to the latest version of vRealize Operations.

Which two actions can be done to preserve the customized content? (Choose two.)

- A. Backup the customized content by cloning it
- B. Select the checkbox 'Reset Default Content' when performing the upgrade
- C. Import your custom content
- D. Backup the customized content as a YAMLfile
- E. Select the checkbox 'Preserve Custom Content' when performing the upgrade

Answer: A,E

Explanation:

Select the checkbox 'Preserve Custom Content' when performing the upgrade: During the upgrade process, you can select the "Preserve Custom Content" option to ensure that any custom content, including alerts and symptoms, is retained during the upgrade to the latest version of vRealize Operations.

Backup the customized content by cloning it: Before upgrading, it's a good practice to backup customized content by cloning it. This ensures that you have a copy of the custom configurations in case they are lost or need to be restored after the upgrade.

NEW QUESTION # 26

An administrator has been tasked to quickly recover unused allocated compute from existing development virtual machines (VMs) using vRealize Operations, as the vSphere cluster is now at capacity.

The current state of the environment:

The VMs either have dev or prod in their name.

Production VMs reside on cluster due to historical usage.

The administrator already has permission to modify any development VMs within the cluster.

Which approach below will quickly ensure cluster compute resources are recovered from the correct VMs?

- A. Exclude any Production virtual machines before running the Rightsize action.
- B. Generate an Undersized Virtual Machines Report to identify suitable virtual machines and liaise with the VM owners.
- C. Use the Heavy Hitter VMs Dashboard to identify the VMs which are consistently consuming a large amount of resources and liaise with the VM owners.
- D. Generate an Oversized Virtual Machines Report to identify suitable virtual machines and liaise with the VM owners.

Answer: A

Explanation:

To recover unused allocated compute resources quickly from development VMs in a cluster, the best approach is to use the Rightsize action while ensuring that Production virtual machines are excluded from the process. By excluding production VMs, the administrator can focus on development VMs (those with "dev" in their name) and adjust their resource allocations without affecting critical production systems.

NEW QUESTION # 27

An administrator is configuring the log masking feature within vRealize Log Insight. Select the correct statement.

- A. A log mask configuration does not take precedence to a configured and enabled archival rule.
- B. A log mask configuration is applied only to the logs that are ingested after creating and enabling the configuration.
- C. A logmask configuration can be applied to logs in which the FieldName field and the filter criteria have Dynamic fields.
- D. A log mask configuration is applied to the all stored logs that after creating and enabling the configuration.

Answer: B

Explanation:

Log masking in vRealize Log Insight is applied to logs after the configuration has been created and enabled. It will only affect logs that are ingested after the log masking is activated, meaning that historical logs already ingested before the mask configuration will not be affected.

NEW QUESTION # 28

When setting up the vRealize Log Insight integration within vRealize Operations what do administrators configure within vRealize Operations?

- A. The vRealize Log Insight troubleshooting dashboard
- B. The vRealize Log Insight content pack
- C. The vRealize Log Insight management pack
- D. The vRealize Log Insight collector group instance

Answer: C

Explanation:

When setting up vRealize Log Insight integration within vRealize Operations, administrators configure the vRealize Log Insight management pack in vRealize Operations. This management pack allows vRealize Operations to integrate with vRealize Log Insight, enabling the collection and analysis of log data from vRealize Log Insight within the vRealize Operations platform. It provides enhanced visibility and monitoring for logs, allowing users to correlate performance data with log data.

NEW QUESTION # 29

Which three types of Virtual Machine (VM) action can be scheduled in a vRealize Operations Automation Central job? (Choose three.)

- A. Reboot VMs
- B. Power On VMs
- C. Move VMs
- D. Downsize oversized VMs
- E. Delete unused snapshots for VMs
- F. Delete powered off VMs

Answer: A,B,D

Explanation:

Power On VMs: You can schedule the action to power on specific VMs at a specified time.

Reboot VMs: Scheduling a reboot for VMs can be done to automate maintenance or restart processes.

Downsize oversized VMs: This action allows you to resize VMs based on performance data, ensuring resources are allocated optimally.

NEW QUESTION # 30

.....

Knowledge is defined as intangible asset that can offer valuable reward in future, so never give up on it and our 2V0-32.24 exam preparation can offer enough knowledge to cope with the exam effectively. To satisfy the needs of exam candidates, our experts wrote our 2V0-32.24 practice materials with perfect arrangement and scientific compilation of messages, so you do not need to study other 2V0-32.24 training questions to find the perfect one anymore.
