Salesforce Certified Marketing Cloud Engagement Administrator Sample Questions (Q55-Q60):

NEW QUESTION # 55

A Marketing Cloud admin notices Individual Email Results are NOT being pushed back into Sales Cloud for a particular end. The

admin of Marketing Cloud Connect is functioning properly.
What should the admin confirm about the data extension?

- A. The data extension is located in the Synchronized Data Extensions folder.
- B. The wind relationship links Subscriber Key to Subscribers on Email Address
- **C. The data extension is located in the Salesforce Data Extensions folder.**
- D. The triggered Send Data Extension data extension template was used.

Answer: C

Explanation:

For Individual Email Results to be pushed back into Sales Cloud correctly, it's critical that the data extension used is specifically a Salesforce Data Extension. This type of data extension is designed to integrate with Salesforce CRM, allowing for the seamless flow of data back into Sales Cloud, such as Individual Email Results. This ensures that email interaction data recorded in Marketing Cloud is accurately reflected in Sales Cloud for comprehensive tracking and reporting.

NEW QUESTION # 56

A university plans to use Journey Builder to improve their 1:1 marketing to potential students, current students, and alumni. The university currently has student data in the Sales Cloud. Other data, such as course catalog, student demographics, and alumni information, is stored in external systems.

Which two actions should the implementation Consultant recommend?

Choose 2 answers.

- **A. Use Data Designer to link student and alumni data to the contact record.**
- **B. Use Synchronized Data Sources to data from the Sales Cloud.**
- C. Create list attributes to store student data from the Sales Cloud.
- D. Create an Import Activity to import alumni data into Salesforce Report.

Answer: A,B

Explanation:

Recommendations for integrating diverse student data into Journey Builder:

Data Designer: Utilize Data Designer to establish relationships between student data, alumni records, and the contact record. This tool allows the creation of a unified view that supports personalized journeys based on comprehensive student profiles.

Synchronized Data Sources: Implement synchronized data sources to continuously import and update data from the Sales Cloud, ensuring that the data in Marketing Cloud remains current and accurate.

NEW QUESTION # 57

Which three options determine when a contact could enter a journey?

Choose 3 answers.

- **A. No re-entry**
- B. Re-entry by date
- **C. Re-entry at any time**
- **D. Re-entry only after exiting**
- E. Re-entry by attribute

Answer: A,C,D

Explanation:

The options that determine when a contact can enter a journey in Marketing Cloud's Journey Builder include:

A). Re-entry at any time: Contacts can re-enter the journey immediately after their previous participation ends.

D). No re-entry: Contacts are not allowed to re-enter the journey once they have entered it, regardless of whether they have completed it or not.

E). Re-entry only after exiting: Contacts can only re-enter the journey after they have fully exited, ensuring they complete all activities before re-entering.

NEW QUESTION # 58

A Marketing Cloud admin to create custom roles for their business process.
What should be taken into consideration to accomplish this?

- A. Custom roles override an individual user's granular permission assignments.
- B. Custom roles can only be edited by the user who created the role initially.
- C. Custom roles are available on their Marketing Cloud account.
- **D. Custom roles are only available within the business in which they were created.**

Answer: D

Explanation:

When creating custom roles in Marketing Cloud, it's important to consider that:

B). Custom roles are only available within the business unit in which they were created. This means that the scope of the custom roles is limited to the specific business unit, and they do not automatically apply to other business units within the same Marketing Cloud account.

NEW QUESTION # 59

A new employee is hired into the role of marketing analyst. This user should have access to all tracking data in Marketing Cloud, but no access to any send activities.

Which two default User Roles should be applied to this new user which provides this access to all channels, keeping the principle of least privilege in mind?

- A. Data Manager and Analyst
- B. Content Creator and Marketing Cloud Viewer
- **C. Analyst and Marketing Cloud Viewer**

Answer: C

Explanation:

To give the marketing analyst access to all tracking data but no send activities, the admin should apply the Analyst and Marketing Cloud Viewer default user roles. The Analyst role allows the user to view tracking data, reports, and dashboards for all channels. The Marketing Cloud Viewer role allows the user to view content, subscribers, and data extensions, but not modify or send them

NEW QUESTION # 60

.....
