The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q36-Q41):

NEW QUESTION # 36

Complete the sentence. A business scenario describes

- A. shortfalls between the Baseline and Target Architectures
- B. business and technology environment in which those problems occur
- C. business domain gaps, such as cross-training requirements
- D. general rules and guidelines for the architecture being developed

Answer: B

NEW QUESTION # 37

Which of the following describes a purpose of Architecture Principles?

- A. To describe likely impacts resulting from successful deployment of the target architecture.
- B. To form a contract between sponsoring organization and the enterprise architects
- C. To establish a common understanding of how to control the business in pursuit of strategic objectives
- D. To provide a better understanding about the enterprise's culture and values

Answer: C

Explanation:

Architecture Principles are general rules and guidelines that inform and support the way in which an organization sets about fulfilling its mission. They reflect a level of consensus among the various elements of the enterprise, and form the basis for making future IT decisions. One of the purposes of Architecture Principles is to establish a common understanding of how to control the business in pursuit of strategic objectives, by providing a framework for evaluating and agreeing on the changes that affect the enterprise's architecture³ References: 3: The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 23: Architecture Principles : The TOGAF Standard, Version 9.2, Part IV: Architecture Content Framework, Chapter 31: Architecture Principles

NEW QUESTION # 38

According to the TOGAF standard, what term describes an individual with an interest in a system?

- A. stakeholder
- B. lead architect
- C. sponsor
- D. consumer

Answer: A

Explanation:

According to the TOGAF Standard, 10th Edition, a stakeholder is "an individual with an interest in a system" 1. A stakeholder can be anyone who is affected by the system, or who can influence or be influenced by the system. Stakeholders can have different roles, perspectives, and concerns regarding the system, and they can be internal or external to the organization. Stakeholder management is a technique that helps to identify, analyze, and engage the stakeholders of an architecture project, and to address their needs and expectations 2. The other options are not correct, as they are not the term used by the TOGAF Standard to describe an individual with an interest in a system. A consumer is "an individual or group that uses a product or service" 1. A lead architect is "an individual who is responsible for leading the development of an architecture" 1. A sponsor is "an individual who provides funding and support for an architecture project" 1. Reference: 1: TOGAF Standard, 10th Edition, Part I: Introduction, Chapter 3: Definitions. 2: TOGAF Standard, 10th Edition, Part III: ADM Guidelines and Techniques, Chapter 24: Stakeholder Management.

NEW QUESTION # 39

Consider the following extract of the purpose of an ADM Phase:

Phase Output & Outcome / Essential Knowledge

? - "A set of work packages that address the set of gaps, with an indication of value produced and effort required, and dependencies between the work packages to reach the adjusted target." What ADM Phase is this?

- A. Phase A
- B. Phase E
- C. Phase C
- D. Phase B

Answer: B

Explanation:

Phase E: Opportunities & Solutions - Steps/Outputs emphasize grouping work packages, dependencies, and planning the roadmap/plan that reflect value/effort:

"Identify and group major work packages... Refine and validate dependencies... Create the Architecture Roadmap & Implementation and Migration Plan." www.opengroup.org Reference: The Open Group, TOGAF Conformance Requirements-Phase E steps and outputs.

NEW QUESTION # 40

Consider the following statement:

According to the TOGAF Standard a governed approach of a particular deliverable will ensure a system of continuous monitoring to check integrity changes decision-making and audit of all architecture-related activities Which deliverable is being referred to?

- A. An Architecture Contract
- B. The Statement of Architecture Work
- C. The Architecture Definition Document
