Nowadays, the certification has been one of the criteria for many companies to recruit employees. And in order to obtain the MB-335 certification, taking the MB-335 exam becomes essential. Although everyone hopes to pass the exam, the difficulties in preparing for it should not be overlooked. There are plenty of people who took a lot of energy and time but finally failed to pass. You really need our MB-335 practice materials which can work as the pass guarantee.

The MB-335 exam consists of various topics that cover the key concepts of Dynamics 365 Supply Chain Management. These topics include product information management, inventory management, warehouse management, transportation management, quality management, demand planning, and procurement. MB-335 exam also tests the candidate's knowledge of how to configure and implement these functionalities in Dynamics 365 Supply Chain Management.

It is essential to have industry experience and specialized skills before writing the exam. Candidates must also hold a strong command over the Dynamics 365 Supply Chain Management functionalities. These skills will enable the consultant to cater to the client's customized requirements and assist in the successful implementation of the ERP software. Candidates must also stay updated with the latest updates and features in the Dynamics 365 Supply Chain Management modules.

Microsoft MB-335 Certification Exam is designed to test the skills and knowledge of individuals who are interested in becoming certified Dynamics 365 Supply Chain Management Functional Consultants. MB-335 exam is intended for those who have a strong understanding of the Dynamics 365 Supply Chain Management application and who are capable of designing and implementing solutions that meet the needs of businesses.

Moreover, you do not need an active internet connection to utilize Microsoft MB-335 Practice

Exam software. It works without the internet after software installation on Windows computers.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q123-Q128):

NEW QUESTION # 123

A company makes lubricants and greases that are used in the automotive industry.

The items use the standard cost method. Electricity and heating of the manufacturing building are allocated into the cost of goods based on the size and wattage of the machine used.

You need to ensure that the system is set up to support the cost allocation.

How should you complete the costing sheet configuration? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Configuration	Yes	No
Identify the cost breakdown in the inventory subledger by selecting the subledger value for the cost group.	<input type="radio"/>	<input type="radio"/>
Set the costing version type to planned cost.	<input type="radio"/>	<input type="radio"/>
Create cost categories for the electricity and heating costs.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Configuration	Yes	No
Identify the cost breakdown in the inventory subledger by selecting the subledger value for the cost group.	<input checked="" type="radio"/>	<input type="radio"/>
Set the costing version type to planned cost.	<input type="radio"/>	<input checked="" type="radio"/>
Create cost categories for the electricity and heating costs.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

A white background with black text AI-generated content may be incorrect.

Answer Area

Configuration	Yes	No
Identify the cost breakdown in the inventory subledger by selecting the subledger value for the cost group.	<input checked="" type="radio"/>	<input type="radio"/>
Set the costing version type to planned cost.	<input type="radio"/>	<input checked="" type="radio"/>
Create cost categories for the electricity and heating costs.	<input checked="" type="radio"/>	<input type="radio"/>

NEW QUESTION # 124

A company makes lubricants and greases used in the automotive industry. The company plans to implement Dynamics 365 Supply Chain Management.

The system must meet the following requirements:

* Schedule the batch production of products.

* Plan for inventory fluctuations of ingredients that are used across different products.

* Schedule delivery of amounts of proprietary compounds used during production from vendors to keep production runs on schedule and eliminating excess stock on hand or delayed production.

You need to perform the initial setup of the company's Dynamics 365 environment.

At which level should you set up the items? To answer, drag the appropriate setup levels to the correct setup options. Each setup

level may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
 NOTE: Each correct selection is worth one point.

The screenshot shows a software interface with two main panes. The left pane, titled 'Setup levels', contains two list items: 'Inventory level' and 'Item level', each with a drag handle icon. The right pane, titled 'Answer Area', contains a legend for 'Setup option' with four items: 'Warehouse location' (red square), 'Catch weight' (green square), 'Batch number group' (blue square), and 'Safety datasheet' (orange square). To the right of the legend is a 'Setup level' section with four empty input boxes.

Answer:

Explanation:

This screenshot is identical to the previous one but includes highlights. In the 'Setup levels' pane, both 'Inventory level' and 'Item level' are enclosed in green rectangular boxes. In the 'Answer Area', the four 'Setup level' input boxes are each enclosed in a red rectangular box.

NEW QUESTION # 125

You need to configure the options for the new limited-edition bicycle for the summer season. Which configurations should you use?
 To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

The screenshot shows a configuration interface with two sections. The first section, 'Requirement', is titled 'Define the item combinations.' and has a 'Configuration' dropdown menu. The dropdown is open, showing five options: 'Product dimensions' (highlighted in blue), 'Product attributes', 'Storage dimensions', and 'Tracking dimensions'. The second section, 'Requirement', is titled 'Define the item components to include.' and has another 'Configuration' dropdown menu. This dropdown is also open, showing five options: 'Style, color, and configuration' (highlighted in blue), 'Configuration', 'Style and color', 'Style, color, and configuration' (highlighted in blue), and 'Style, size, color, and configuration'.

Answer:

Explanation:

Answer Area

Requirement	Configuration
Define the item combinations.	Product dimensions Product dimensions Product attributes Storage dimensions Tracking dimensions
Define the item components to include.	Style, color, and configuration Configuration Style and color Style, color, and configuration Style, size, color, and configuration

NEW QUESTION # 126

You are using the manufacturing execution module in Dynamics 365 Supply Chain Management. License plate labels must be printed for products in the Report as finished step. You need to use the manufacturing execution functionality that meets this requirement. What should you use?

- A. Job card device
- **B. License plates**
- C. Operations schedules
- D. Production waves

Answer: B

Explanation:
Explanation

The manufacturing execution functionality that meets the requirement of printing license plate labels for products in the Report as finished step is License plates are unique identifiers that are assigned to containers, pallets, or individual items in inventory. License plates can be used to track and manage inventory throughout the warehouse processes, such as receiving, put away, picking, packing, and shipping¹. License plates can also be used in production processes, such as reporting as finished and raw material picking².

To print license plate labels for products in the Report as finished step, you must enable the Generate license plate option on the mobile device menu item that is used for reporting as finished². You must also set up a document routing layout and a document routing for license plate labels³. When you use the mobile device to report a production order as finished, the system will generate a license plate for the finished product and print a license plate label to the specified printer². The license plate label can include information such as the item number, batch number, quantity, and barcode of the finished product³.

1: License plates 2: Enable license plate label printing 3: Document routing label layouts

NEW QUESTION # 127

You need to configure each item for plastic manufacturing.

Which production types should you use? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Item	Production type
Raw plastic	<input type="text" value="None"/> <ul style="list-style-type: none"> None By-Product Co-Product Planning Item
Excess plastic	<input type="text" value="Scrap"/> <ul style="list-style-type: none"> Scrap By-Product Co-Product Planning Item
Mold	<input type="text" value="None"/> <ul style="list-style-type: none"> None By-Product Co-Product Planning Item
Plastic parts	<input type="text" value="None"/> <ul style="list-style-type: none"> None By-Product Co-Product Planning Item

Answer:

Explanation:

Item	Production type
Raw plastic	<input type="text" value="None"/> <ul style="list-style-type: none"> None By-Product Co-Product Planning Item
Excess plastic	<input type="text" value="By-Product"/> <ul style="list-style-type: none"> Scrap By-Product Co-Product Planning Item
Mold	<input type="text" value="None"/> <ul style="list-style-type: none"> None By-Product Co-Product Planning Item
Plastic parts	<input type="text" value="By-Product"/> <ul style="list-style-type: none"> None By-Product Co-Product Planning Item

Explanation:

Raw plastic	<input type="text" value=""/>
	<ul style="list-style-type: none">NoneBy-ProductCo-ProductPlanning Item
Excess plastic	<input type="text" value=""/>
	<ul style="list-style-type: none">ScrapBy-ProductCo-ProductPlanning Item
Mold	<input type="text" value=""/>
	<ul style="list-style-type: none">NoneBy-ProductCo-ProductPlanning Item
Plastic parts	<input type="text" value=""/>
	<ul style="list-style-type: none">NoneBy-ProductCo-ProductPlanning Item

NEW QUESTION # 128

.....

The authoritative, efficient, and thoughtful service of MB-335 learning question will give you the best user experience, and you can also get what you want with our MB-335 study materials. I hope our study materials can accompany you to pursue your dreams. If you can choose MB-335 test guide, we will be very happy. We look forward to meeting you. You can choose your favorite our study materials version according to your feelings. When you use MB-335 Test Guide, you can also get our services at any time. We will try our best to solve your problems for you. I believe that you will be more inclined to choose a good service product, such as MB-335 learning question. After all, everyone wants to be treated warmly and kindly, and hope to learn in a more pleasant mood.
