Candidates who pass ACP-620 exam are certified to have a deep understanding of how to set up and manage Jira Cloud projects effectively. They also have the skills to customize Jira's configuration to fit the needs of their organization's project management processes.

## ATLASSIAN Managing Jira Cloud Projects Sample Questions (Q26-Q31):

## NEW QUESTION # 26

You shared a URL to the dashboard with Bobby but when he looks at it, the gadgets return errors that state, "The filter configured for this gadget could not be retrieved."

What is the most likely problem with the filters?

- A. They return issues from team-managed projects.
- B. They return issues with hidden fields.
- C. They are not shared with Bobby.
- D. They contain corrupt JQL clauses.

**Answer: C**

Explanation:

The error "The filter configured for this gadget could not be retrieved" typically means that the filters used in the dashboard gadgets are not shared with Bobby. Even if Bobby has access to the projects or issues, he cannot see the results unless the filters themselves are explicitly shared with him.

## NEW QUESTION # 27

The rule shown is configured to run in your project.

Rule 2

Rule details

Audit log

When: Value changes for  
Due date

Then: Send email  
Assignee, Reporter  
Due Date changed

For Sub-tasks

When: Status equals  
In Progress

Then: Edit issue fields  
Fix versions

Add component

ATLASSIAN

The rule actor is missing a permission which is causing the rule to error.

Identify that permission.

- A. Assign Issues
- B. Transition Issues
- C. Schedule Issues
- D. Resolve Issues
- E. Modify Reporter

**Answer: C**

Explanation:

The Schedule Issues permission is required to edit date-related fields, such as the Due Date and Fix Versions.

Since the rule edits the Fix versions field and responds to Due Date changes, lacking this permission will cause the rule to fail.

### NEW QUESTION # 28

Nash is working on a Finance Jira project. The next week, while still working on the Finance project, he also worked on HR projects. Both projects are using their own unique statuses in their project workflow.

Nash has updated the default board filter to the JQL below:

project in (HR, Finance) ORDER BY Rank ASC

A few issues are missing from the Jira board.

What are the best solutions for this issue? (Choose two.)

- A. Update the Jira workflow.
- B. Update the board column.
- C. Update the board filter.
- D. Update the quick filter.

**Answer: A,B**

### NEW QUESTION # 29

Nick and Sarah work from different departments. They are unsure if they should create a separate Jira project or share the same Jira project for their new assignment.

Which of the following are acceptable use-cases to share the same Jira project? (Choose four.)

- A. They are sharing the same reporting and metrics.
- B. They need different sets of issue types.
- C. They require the same project permissions.
- D. They are working on the same roadmap.
- E. They require the same project workflows.
- F. They need different sets of components.

**Answer: A,C,D,E**

### NEW QUESTION # 30

Project administrators need the ability to send customized emails to various groups during workflow transitions.

Which action can they perform in Jira?

- A. install Marketplace apps
- B. build automation rules
- C. update notification schemes
- D. perform Edit Issues bulk operations
- E. update workflow configurations

**Answer: B**

Explanation:

Project administrators can use automation rules to send customized emails during workflow transitions. This allows targeted communication to various groups without needing global admin rights, which are required for modifying notification schemes or installing apps.

### NEW QUESTION # 31
