NEW QUESTION # 125

You plan to fulfill customer demand from internal organizations or from a contract manufacturer. Which are the four types of planned orders that can be generated?

- A. Transfer orders for internally owned components being transferred from internal organizations to contract manufacturer organizations.
- B. Transfer orders for finished goods being transferred from contract manufacturer organizations to internal organizations.
- C. Transfer orders for internally owned components being transferred from contract manufacturer to internal organizations.
- D. Return orders for items being manufactured in the contract manufacturer organization.
- E. Make orders for items being manufactured in the contract manufacturer organization.
- F. Buy orders for components purchased at internal organizations and contract manufacturer organizations.

Answer: A,B,E,F

Explanation:

For fulfilling customer demand through both internal and contract manufacturing, planned orders can include buy orders for components, make orders at contract manufacturers, and transfer orders to move components or finished goods between internal and contract manufacturing locations. Return orders are not applicable as they are typically used for returns rather than regular supply chain activities MY ORACLE SUPPORT
