100% Pass Quiz EMC - Trustable D-PDD-DY-23 Top Questions

We have a lot of regular customers for a long-term cooperation now since they have understood how useful and effective our D-PDD-DY-23 actual exam is. In order to let you have a general idea about the shining points of our D-PDD-DY-23 training materials, I would like to introduce the free demos of our D-PDD-DY-23 study engine for you. There are the real and sample questions in the free demos to show you that how valid and latest our D-PDD-DY-23 learning dumps are. So just try now!

EMC Dell PowerProtect Data Domain Deploy 2023 Sample Questions (Q91-Q96):**NEW QUESTION # 91**

If ES40 SAS shelves are on the same chain as a DS60, what is the maximum number of possible shelves on that chain?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

Explanation: When configuring a chain with ES40 SAS shelves and DS60 shelves in a PowerProtect DD environment, the maximum allowable number of shelves on that chain is three. This limitation is due to compatibility and bandwidth requirements for maintaining optimal performance and reliability across the SAS chain. Mixing different shelf models (ES40 and DS60) in a single chain affects the maximum supported configuration, and following this limitation ensures that the data transfer speeds and stability are not compromised.

NEW QUESTION # 92

What is the order of steps to configure DD Boost on the backup host?

□

Answer:

Explanation:

□

NEW QUESTION # 93

PowerProtect DD Test Simulator

You will need to use the PowerProtect DD Simulator to correctly answer question. The simulator allows you to navigate through the PowerProtect DD interface and configure many items. You will be scored on your ability to perform tasks, configure items, and gather information within the simulated environment.

Task

As an administrator, you observe that the PowerProtect DD does not free disk space even though the backup retention period expired a month ago.

Check the cleaning schedule. Set the default parameters: Start every Tuesday at 6:00 am. Set the throttle for scheduled cleaning to 50%. After setting the schedule, start cleaning manually and make sure the system resources are not used more than 30% for this cleaning.

When you have finished, continue to the next question.

□

Answer:

Explanation:

See the solution in the explanation below.

Explanation:

To resolve the issue and set up the cleaning schedule and manual cleaning on your PowerProtect DD system, follow these steps based on the information provided:

Access the Cleaning Schedule Settings:

Go to File System Settings.

Navigate to the Cleaning tab.

2. Set the Cleaning Schedule:

Frequency: Choose Weekly.

At: Set the cleaning to start every Tuesday at 6:00 AM.

Throttle: Set the throttle to 50% for scheduled cleaning.

3. Manually Start Cleaning:

After setting the schedule, initiate the cleaning manually from the File System settings.

Set the manual cleaning throttle to 30% to ensure system resources are not overused during the process.

NEW QUESTION # 94

When the PowerProtect DD system boots up for the first time, the CLI configuration wizard script does not start automatically. Which command can be used to start the script manually?

- A. config setup
- B. configure terminal
- C. setup config
- D. config wizard

Answer: A

NEW QUESTION # 95

Which two elements does DD Boost distribute parts of the deduplication process in a backup environment to enable faster and more efficient backup and recovery? (Select 2)

- A. Backup server
- B. Application client
- C. PowerProtect DD
- D. Production storage

Answer: B,C

NEW QUESTION # 96

.....

Please don't worry about the purchase process because it's really simple for you. The first step is to select the D-PDD-DY-23 test guide, choose your favorite version, the contents of different version are the same, but different in their ways of using. The second step: fill in with your email and make sure it is correct, because we send our Dell PowerProtect Data Domain Deploy 2023 learn tool to you through the email. Later, if there is an update, our system will automatically send you the latest Dell PowerProtect Data Domain Deploy 2023 version. At the same time, choose the appropriate payment method, such as SWREG, DHPay, etc. Next, enter the payment page, it is noteworthy that we only support credit card payment, do not support debit card. Generally, the system will send the D-PDD-DY-23 Certification material to your mailbox within 10 minutes. If you don't receive it please contact our after-sale service timely.
