## Test L3M6 Study Guide, L3M6 Reliable Exam Syllabus

Advancement in L3M6 information and communications technology generates huge potential for moving business and production up the value-chain, and improving the quality of life of citizens. And there is no doubt that you can get all kinds of information in cyber

space now, L3M6 Latest Torrent is not an exception. I strongly recommend the study materials compiled by our company for you, the advantages of our L3M6 exam questions are too many to enumerate; I will just list three of them for your reference.

## CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q92-Q97):

### NEW QUESTION # 92

Which group of influencers is becoming more aware of environmental issues and activities that contribute to climate change?

- A. Governments
- B. Activists
- C. Consumers

**Answer: C**

Explanation:

Consumers (B) are increasingly aware of climate issues, per the CIPS L3M6 syllabus, influencing demand for sustainable logistics. Activists (A) are already aware, and governments (C) respond rather than awaken. CSR adapts to consumer trends.

---

### NEW QUESTION # 93

Packing and shipping areas should not have key placement zones for carrying out each task to improve safety, efficiency, and productivity, and avoid costly mishaps.

- A. FALSE
- B. TRUE

**Answer: A**

Explanation:

Packing and shipping areas should have designated zones to enhance safety, efficiency, and productivity, preventing errors and accidents. The statement's negative phrasing contradicts best practices in the CIPS L3M6 syllabus, making it false.

### NEW QUESTION # 94

The media reports on and raises awareness of... select all that apply.

- A. Environmental disasters caused by organizations
- B. New legislation
- C. Activities of environmental pressure groups
- D. Organizations that fall short of the policies they say they adopt, e.g., ethical working conditions throughout their supply chain, reducing impact on environment, etc.

**Answer: A,B,C,D**

Explanation:

The media plays a multifaceted role in shaping public perception of environmental issues, directly impacting procurement and supply chain practices:

\* Environmental Disasters: Coverage of events like oil spills or factory emissions (e.g., BP Deepwater Horizon) highlights organizational failures, pushing firms to improve environmental safeguards.

\* Pressure Groups: Reports on groups like Greenpeace or Extinction Rebellion amplify their advocacy, influencing corporate behavior and policy.

\* New Legislation: Announcements of laws (e.g., EU carbon taxes) inform stakeholders, prompting compliance in supply chains.

\* Policy Shortfalls: Exposés of "greenwashing"-where firms overstate environmental efforts (e.g., unethical sourcing despite claims)-hold organizations accountable.

The CIPS L3M6 module emphasizes the media's role as a watchdog and educator, driving awareness and action on environmental sustainability. All options are correct, reflecting the comprehensive scope of media influence under LO2.

#### NEW QUESTION # 95

Which of the following external stakeholders can use their power to influence organizations to improve their environmental performance? Select all that apply.

- A. Customers
- B. The Media
- C. Colleagues
- D. Pressure Groups

**Answer: A,B,D**

Explanation:

External stakeholders wield influence over environmental performance:

- \* B. Customers: Drive demand for sustainable products, pressuring greener supply chains.
- \* C. Pressure Groups: Lobby and protest to enforce eco-friendly practices.
- \* D. The Media: Expose poor performance or praise green efforts, shaping reputation.
- \* A. Colleagues: Internal, not external, stakeholders, so excluded.

The CIPS L3M6 module emphasizes these external forces in LO2, as they shape procurement and logistics strategies significantly.

#### NEW QUESTION # 96

Which of the following sources contribute to a warehouse carbon footprint calculation? Select all that apply.

- A. Material handling and other equipment
- B. Energy use from heating, cooling, and insulation
- C. Waste
- D. Transport

**Answer: A,B,C,D**

Explanation:

A warehouse's carbon footprint measures the total greenhouse gas (GHG) emissions generated by its operations, both directly and indirectly. According to the CIPS L3M6 syllabus, all listed sources-energy use from heating, cooling, and insulation; material handling and other equipment; transport; and waste-are key contributors. Energy use (A) includes electricity and fuel for climate control, a major emission source in warehousing. Material handling equipment (B), such as forklifts, often relies on fossil fuels or electricity, adding to the footprint. Transport (C) covers emissions from vehicles moving goods to, from, and within the warehouse, a significant factor in logistics. Waste (D) contributes through disposal processes, including methane from landfills. The syllabus emphasizes monitoring these elements as part of CSR to reduce environmental impact, making "All the above" the correct choice.
