Providing You Updated 1Z0-1133-24 New Dumps Ppt with 100% Passing Guarantee

We provide a wide range of learning and preparation methodologies to the customers for the 1Z0-1133-24 complete training. After using the 1Z0-1133-24 products, success would surely be the fate of customer because, self-evaluation, highlight of the mistakes, time management and sample question answers in comprehensive manner, are all the tools which are combined to provide best possible results. We are also offering 100% money back guarantee to the customers in case they don't achieve passing scores in the Oracle 1Z0-1133-24 in the first attempt.

Oracle Cloud EPM Data Integration 2024 Implementation Professional Sample Questions (Q114-Q119):

NEW QUESTION # 114

Which of the following tuning techniques can improve performance in high-volume data integration jobs?

- A. Using parallel processing for data loads
- B. Increasing the number of validation rules
- C. Reducing the number of periods in the mapping
- D. Running the job multiple times per day

Answer: A

Explanation:

Parallel processing allows multiple parts of the data to be processed simultaneously, significantly improving the performance of high-volume data integration jobs.

NEW QUESTION # 115

What is the primary function of a data map in Oracle Cloud EPM?

- A. To assign user roles for data validation
- B. To generate financial reports automatically
- C. To schedule recurring period mapping updates
- **D. To move data between different plan types or applications**

Answer: D

Explanation:

The primary function of a data map is to facilitate the movement of data between different plan types or applications, ensuring that data is available across systems.

NEW QUESTION # 116

What should be done if the EPM Integration Agent fails to start after installation?

- A. Reconfigure the user permissions for data access
- B. Generate a new financial report
- C. Automate the data transformation process
- **D. Review the installation logs and verify the configuration settings**

Answer: D

Explanation:

If the EPM Integration Agent fails to start, reviewing the installation logs and verifying the configuration settings can help identify any issues preventing the agent from running.

NEW QUESTION # 117

In Oracle Cloud EPM, what is the role of source and target application categories during the registration process?

- A. They assign user roles for data integration
- **B. They define the type of data being exchanged between systems**
- C. They set security levels for the application
- D. They control report generation frequency

Answer: B

Explanation:

Source and target application categories define the type of data being exchanged between systems, such as financial data or planning data.

NEW QUESTION # 118

In Oracle Cloud EPM, what is the benefit of using drill-through functionality?

- A. It integrates real-time data from external systems
- **B. It allows users to trace back from summary reports to the original transaction-level data**
- C. It provides a high-level overview of all data integrations
- D. It automates the entire data validation process

Answer: B

Explanation:

Drill-through functionality benefits users by allowing them to trace from summary-level reports back to the original transaction-level data in the source system, providing detailed insights.

NEW QUESTION # 119
