## **Positive Analytics-DA-201 Feedback | Analytics-DA-201 New Exam Materials**

As the talent competition increases in the labor market, it has become an accepted fact that the Analytics-DA-201 certification has

become an essential part for a lot of people, especially these people who are looking for a good job, because the certification can help more and more people receive the renewed attention from the leaders of many big companies. So it is very important for a lot of people to gain the Analytics-DA-201 Certification. We must pay more attention to the certification and try our best to gain the Analytics-DA-201 certification.

## Salesforce Analytics-DA-201 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Object-Oriented Design: This section of the exam evaluates the SAP ABAP Cloud Developer's understanding of object-oriented principles in the ABAP context. It focuses on class-based programming, inheritance, interfaces, and polymorphism, all crucial for building modular and maintainable ABAP cloud applications.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>ABAP Core Data Services and Data Modeling: This section of the exam measures the skills of the SAP ABAP Cloud Developer and covers the fundamental understanding of core data services (CDS) and how to design data models in the SAP ABAP environment. Candidates are expected to know how to define, consume, and optimize CDS views effectively to support application development in the cloud.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Core ABAP Programming: This part of the exam assesses the foundational programming skills of the SAP ABAP Cloud Developer. It includes knowledge of syntax, control structures, modularization, and internal tables in ABAP. The section aims to validate the candidate's proficiency in writing clean, efficient ABAP code using best practices.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>ABAP SQL and Code Pushdown: This section of the exam measures the competencies of the SAP ABAP Cloud Developer related to performance optimization through ABAP SQL and code pushdown techniques. It ensures that the developer understands how to shift logic to the database layer using efficient SQL scripting to enhance performance in data-intensive applications.</li> </ul>

## Salesforce Certified Tableau Data Analyst Sample Questions (Q111-Q116):

### NEW QUESTION # 111

You have the following chart that shows profits and discounts over time.

You need to combine the lines to appear as shown in the following chart.

What should you do?

- A. Drag Discount to the Columns shelf
- B. Convert Discount to Discrete
- C. Set Discount to Dual Axis**
- D. Drag Discount to Color on the Marks card

**Answer: C**

Explanation:

To combine the lines to appear as shown in the second chart, you should set Discount to Dual Axis. Dual Axis is a feature that allows you to show two measures on two separate axes on one chart. You can create a dual axis by right-clicking on a measure on any shelf and selecting Dual Axis from the menu. This will create two axes on one chart and synchronize their scales.

In this case, you want to show Profit and Discount on two separate axes on one chart. You can right-click on Discount on any shelf and select Dual Axis from the menu. This will create a dual axis chart that shows Profit and Discount as two lines with different colors.

The other options are not correct for this scenario. Dragging Discount to Color on the Marks card will change the color of Profit based on Discount, but it will not show two lines. Converting Discount to Discrete will change Discount from a green pill to a blue pill, but it will not affect how it appears on the chart. Dragging Discount to Columns shelf will create two separate charts for Profit and Discount, but it will not combine them. ### NEW QUESTION # 112

When a Data Analyst needs to format workbook settings, which options are available in the Format Workbook panel?

- A. Number format and Shading
- B. Fonts and Color Palette
- C. Dashboard Height and Width pixel settings
- D. Fonts and Lines**

**Answer: D**

### NEW QUESTION # 113

You have a dataset that contains daily sales by business segment from 2017 to the present. You want to use monthly historical trends to predict sales by segment in the future. Which three actions should you perform in order?

(Place the three correct options in order. Use the arrows to move Options to Answer Area I. In Answer Area arrows to re-order the options.)

Options	Answer Area
From the Analytics pane, drag <b>Trend</b> to the worksheet.	
Add the date to the Columns shelf. Add the segment and the sales to the Rows shelf.	
Aggregate the date to month and year.	
From the Analytics pane, drag <b>Forecast</b> to the worksheet.	
Create a calculated field that uses the <b>MODEL_QUANTILE</b> function.	

Answer Area I (highlighted in yellow):

From the Analytics pane, drag **Trend** to the worksheet.

Add the date to the Columns shelf. Add the segment and the sales to the Rows shelf.

Aggregate the date to month and year.

From the Analytics pane, drag **Forecast** to the worksheet.

Create a calculated field that uses the **MODEL\_QUANTILE** function.

Up and Down arrows are available to re-order the options in the Answer Area I.

**Answer:**

### Explanation:

### Explanation:

The correct order of the three actions is:

- \* Add the date to the Columns shelf. Add the segment and the sales to the Rows shelf.
- \* Aggregate the date to month and year.
- \* From the Analytics pane, drag Forecast to the worksheet.

The first action is to add the date to the Columns shelf and the segment and the sales to the Rows shelf. This will create a line chart that shows the daily sales by segment over time. You can use the Show Me menu to choose a line chart if it is not selected by default.

The second action is to aggregate the date to month and year. This will group the daily sales into monthly sales and show the yearly trend. You can right-click on the date field on the Columns shelf and select Month (January 2017) from the menu. You can also drag Year from the Dimensions pane to the Columns shelf before or after Month.

The third action is to drag Forecast from the Analytics pane to the worksheet. This will add a forecast that predicts future sales by segment based on historical trends. You can customize the forecast by clicking on it and using the options on the Marks card.

The other options are not relevant for this scenario. Adding a trend line would show a linear or nonlinear relationship between two measures, but not a prediction of future values. Creating a calculated field that uses the model quantile function would return a value from a statistical model based on a given quantile, but not a forecast.

### NEW QUESTION # 114

A colleague provides a Data Analyst with access to a folder that has the following files:

- \* Sales.csv
- \* Book1.json
- \* Sales.tds
- \* Export.mdb

Which file can contain information for connecting to an external data source, such as an SQL Server database?

- A. Book1.json
- B. **Sales.csv**
- C. Export.mdb
- D. Sales.tds

**Answer: B**

### NEW QUESTION # 115

A Data Analyst has the following dataset.

Date	Customer Name	Discount	Quantity
05/01/2020	Aaron Bergman	Yes	13
05/01/2020	Aaron Hawkins	Yes	54
05/01/2020	Aaron Smalleying	No	48
05/01/2020	Adam Bellavance	No	56

The analyst wants to create a parameter to dynamically filter the data to produce the following results based on quantity being above X value.

Date	Customer Name	Discount	Quantity
05/01/2020	Aaron Hawkins	Yes	54
05/01/2020	Adam Bellavance	No	56

Which two types of parameters should the analyst use to produce the results? (Choose two)

- A. Integer
- B. Date
- C. Boolean
- D. Float

**Answer: A,D**

## NEW QUESTION # 116

.....

In light of the truth that different people have various learning habits, we launch three Analytics-DA-201 training questions versions for your guidance. In addition, you can freely download the demo of Analytics-DA-201 learning materials for your consideration. We promise there will be no extra charges for such a try, on the contrary, we sincerely suggest you to try the demos of our Analytics-DA-201 Exam Questions and make a well-content choice. You will find that our Analytics-DA-201 training guide is worthy to buy for you time and money!
