CIPT考試 - 通過Certified Information Privacy Technologist (CIPT)立刻馬上

當然，當你在尋找CIPT考試資料的時候，肯定也會找到其他很多不同的資料。但是，經過調查或者親身試用你就會發現，VCESoft的資料是最適合你的考試準備工具。VCESoft的資料是專門為了沒有足夠的時間準備CIPT考試的考生們而開發的。它可以讓你在準備考試時節省更多的時間。而且，這個資料可以保證你一次通過考試。另外，VCESoft的資料是隨時在更新的。如果考試大綱和內容有變化，VCESoft可以給你最新的消息。

最新的 Information Privacy Technologist CIPT 免費考試真題 (Q205-Q210):

問題 #205

Which is NOT a suitable action to apply to data when the retention period ends?

- A. Aggregation.
- B. Retagging.
- C. De-identification.
- D. Deletion. ID.

答案：A

問題 #206

SCENARIO

Carol was a U.S.-based glassmaker who sold her work at art festivals. She kept things simple by only accepting cash and personal checks.

As business grew, Carol couldn't keep up with demand, and traveling to festivals became burdensome. Carol opened a small boutique and hired Sam to run it while she worked in the studio. Sam was a natural salesperson, and business doubled. Carol told Sam, "I don't know what you are doing, but keep doing it!" But months later, the gift shop was in chaos. Carol realized that Sam needed help so she hired Jane, who had business expertise and could handle the back-office tasks. Sam would continue to focus on sales. Carol gave Jane a few weeks to get acquainted with the artisan craft business, and then scheduled a meeting for the three of them to discuss Jane's first impressions.

At the meeting, Carol could not wait to hear Jane's thoughts, but she was unprepared for what Jane had to say. "Carol, I know that

he doesn't realize it, but some of Sam's efforts to increase sales have put you in a vulnerable position. You are not protecting customers' personal information like you should." Sam said, "I am protecting our information. I keep it in the safe with our bank deposit. It's only a list of customers' names, addresses and phone numbers that I get from their checks before I deposit them. I contact them when you finish a piece that I think they would like. That's the only information I have! The only other thing I do is post photos and information about your work on the photo sharing site that I use with family and friends. I provide my email address and people send me their information if they want to see more of your work. Posting online really helps sales, Carol. In fact, the only complaint I hear is about having to come into the shop to make a purchase." Carol replied, "Jane, that doesn't sound so bad. Could you just fix things and help us to post even more online?"

"I can," said Jane. "But it's not quite that simple. I need to set up a new program to make sure that we follow the best practices in data management. And I am concerned for our customers. They should be able to manage how we use their personal information. We also should develop a social media strategy." Sam and Jane worked hard during the following year. One of the decisions they made was to contract with an outside vendor to manage online sales. At the end of the year, Carol shared some exciting news. "Sam and Jane, you have done such a great job that one of the biggest names in the glass business wants to buy us out! And Jane, they want to talk to you about merging all of our customer and vendor information with theirs beforehand." Which regulator has jurisdiction over the shop's data management practices?

- A. The Department of Commerce.
- B. The Federal Communications Commission.
- **C. The Federal Trade Commission.**
- D. The Data Protection Authority.

答案： C

問題 #207

SCENARIO

Please use the following to answer the next question:

Chuck, a compliance auditor for a consulting firm focusing on healthcare clients, was required to travel to the client's office to perform an onsite review of the client's operations. He rented a car from Finley Motors upon arrival at the airport as so he could commute to and from the client's office. The car rental agreement was electronically signed by Chuck and included his name, address, driver's license, make/model of the car, billing rate, and additional details describing the rental transaction. On the second night, Chuck was caught by a red light camera not stopping at an intersection on his way to dinner. Chuck returned the car back to the car rental agency at the end week without mentioning the infraction and Finley Motors emailed a copy of the final receipt to the address on file.

Local law enforcement later reviewed the red light camera footage. As Finley Motors is the registered owner of the car, a notice was sent to them indicating the infraction and fine incurred. This notice included the license plate number, occurrence date and time, a photograph of the driver, and a web portal link to a video clip of the violation for further review. Finley Motors, however, was not responsible for the violation as they were not driving the car at the time and transferred the incident to AMP Payment Resources for further review. AMP Payment Resources identified Chuck as the driver based on the rental agreement he signed when picking up the car and then contacted Chuck directly through a written letter regarding the infraction to collect the fine.

After reviewing the incident through the AMP Payment Resources' web portal, Chuck paid the fine using his personal credit card. Two weeks later, Finley Motors sent Chuck an email promotion offering 10% off a future rental.

What should Finley Motors have done to incorporate the transparency principle of Privacy by Design (PbD)?

- A. Signed a data sharing agreement with AMP Payment Resources.
- **B. Provided notice of data sharing practices within the electronically signed rental agreement.**
- C. Obtained verbal consent from Chuck and recorded it within internal systems.
- D. Documented that Finley Motors has a legitimate interest to share Chuck's information.

答案： B

解題說明：

Privacy by Design (PbD) principles emphasize transparency, meaning that organizations should inform individuals about their data processing practices. In this scenario, Finley Motors should have provided notice within the rental agreement about their data sharing practices with third parties like AMP Payment Resources.

This transparency would ensure that Chuck was aware that his personal information could be shared for purposes such as managing infractions. According to the IAPP, incorporating such notices in agreements is a best practice for maintaining transparency and upholding data protection principles.

問題 #209

An organization is using new technologies that will target and process personal data of EU customers. In which of the following circumstances would a privacy technologist need to support a data protection impact assessment (DPIA)?

- A. If security of data processing has not been evaluated
- B. If a privacy notice and opt-in consent box are not displayed to the individual
- **C. If data processing is a high risk to an individual's rights and freedoms**
- D. If a large amount of personal data will be collected.

答案： C

解題說明：

a privacy technologist would need to support a data protection impact assessment (DPIA) if data processing is a high risk to an individual's rights and freedoms.
