

100% Pass 2026 Cisco - 300-745 - Designing Cisco Security Infrastructure Latest Test Answers

P.S. Free 2026 Cisco 300-745 dumps are available on Google Drive shared by ITPassLeader: <https://drive.google.com/open?id=1Y60oa40H7iNgS3q94nDkhJ6UnNzuQJmX>

If you get our 300-745 training guide, you will surely find a better self. As we all know, the best way to gain confidence is to do something successfully. With our 300-745 study materials, you will easily pass the 300-745 examination and gain more confidence. As there are three versions of our 300-745 preparation questions: the PDF, Software and APP online, so you will find you can have a wonderful study experience with your favorite version.

Free update for 365 days are available for 300-745 exam dumps, that is to say, if you buy 300-745 study guide materials from us, you can get the latest information for free in the following year. Besides, 300-745 exam dumps are compiled by experienced experts, and they are quite familiar with the exam center, and therefore the quality and exam dumps can be guaranteed. And we have online and offline chat service staff for 300-745 Exam Materials, they have professional knowledge for the exam dumps, and if you have any questions about 300-745 exam materials, just consult us.

Cisco 300-745 Exam Dumps - Pass Exam in One Go

With only one Cisco 300-745 exam you can do this job nicely and easily. To do this just enroll in the Cisco 300-745 certification exam and download the updated and real Cisco 300-745 Exam now and start this journey today. We are quite confident that with 300-745 exam dumps you can pass the upcoming Designing Cisco Security Infrastructure exam in the first attempt.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q30-Q35):

NEW QUESTION # 30

What is the primary benefit of conducting a root cause analysis after a security incident?

- A. Validate OSI model compliance
- B. Improve FTP throughput
- C. Drive design improvements to prevent recurrence
- D. Enable compliance with NTP standards

Answer: C

Explanation:

Root cause analysis focuses on identifying the underlying cause of a security incident. This enables organizations to improve system

design, controls, or processes so that similar incidents do not happen again, rather than only fixing symptoms.

NEW QUESTION # 31

Which function does a DLP system perform when protecting application data?

- A. Enforces policy compliance by inspecting data in transit
- B. Inspects routing tables
- C. Provides segmentation using VLANs
- D. Redirects packets to edge firewalls

Answer: A

Explanation:

A Data Loss Prevention (DLP) system inspects data in transit (and at rest or in use) to ensure sensitive information is handled according to security policies.

NEW QUESTION # 32

After a recent security breach, a financial company is reassessing their overall security posture and strategy to better protect sensitive data and resources. The company already deployed on-premises next-generation firewalls at the network edge for each branch location. Security measures must be enhanced at the endpoint level. The goal is to implement a solution that provides additional traffic filtering directly on endpoint devices, thereby offering another layer of defense against potential threats. Which technology must be implemented to meet the requirement?

- A. traditional firewall
- B. distributed firewall
- C. host-based firewall
- D. web application firewall

Answer: C

Explanation:

A host-based firewall runs directly on endpoint devices, providing traffic filtering and protection at the endpoint level. This adds another layer of defense beyond the network edge firewalls, ensuring threats are mitigated closer to where sensitive data resides.

NEW QUESTION # 33

Refer to the exhibit. A software developer noticed that the application source code had been found on the internet. To avoid such an incident from happening again, the developer applied a DLP policy to prevent from uploading source code into generative AI tool like ChatGPT. When testing the policy, the developer noticed that it is still possible for the source code to be uploaded.

Which action must the developer take to prevent this issue?

Policies / Management
Data Loss Prevention Policy

When enabled through its rules, the Data Loss Prevention policy can monitor or block the data being uploaded to the web. As well, it can discover and protect the sensitive data stored and shared in your cloud sanctioned applications. For more information about the Data Loss Prevention policy, see Umbrella's [Help](#).

DISCOVERY SCAN ADD RULE

8 DLP Rules

Rule Type	Name	Severity	Action	Identities or File Owners	Destinations	Data Classifications File Labels	Last Modified
Real Time	ChatGPT Source Code	Low	Monitor	Inclusion 1 identity	Inclusion 1 Application	Data Classifications Source Code	May 11, 2023 ...
Real Time	DLP Blocks	Low	Block	Inclusion 3 identities	Inclusion 1 Application	Data Classifications Internal User Classification	Aug 11, 2021 ...
Real Time	EDM	High	Monitor	Inclusion 3 identities	Inclusion All Destinations	Data Classifications Employee Data	Aug 01, 2023 ...
Real Time	File Labels	Medium	Monitor	Inclusion 3 identities	Inclusion All Destinations	File Labels restricted	Aug 01, 2023 ...

- A. Modify the data classifications.
- B. Move the ChatGPT Source Code rule to the bottom.
- C. Enable the rule.
- **D. Change the DLP action from Monitor to Block.**

Answer: D

Explanation:

In the exhibit, the ChatGPT Source Code rule is configured with the action Monitor, which only logs activity but does not stop it. To prevent source code from being uploaded, the action must be changed to Block. This enforces the policy and ensures data exfiltration into generative AI tools is stopped.

NEW QUESTION # 34

A video game company identified a potential threat of a SYN flood attack, which could disrupt the online gaming services and impact user experience. The attack can overwhelm network resources by exploiting the TCP handshake process, leading to server unavailability and degraded performance. To safeguard the company's infrastructure and ensure uninterrupted service, it is essential to enhance the security measures in place. The company must implement a solution that manages and mitigates the risk of such network-based attacks. Which security product must be implemented to mitigate similar risks?

- A. Cisco Umbrella
- B. Cisco Secure Endpoint
- C. Cisco Web Security Appliance
- **D. Cisco Secure Firewall**

Answer: D

Explanation:

A SYN flood attack is a type of DoS/DDoS attack targeting the TCP handshake process. The correct mitigation is deploying a Cisco Secure Firewall, which includes advanced intrusion prevention, SYN flood protection, and traffic management capabilities to prevent resource exhaustion and keep services available.

NEW QUESTION # 35

.....

Why you should trust ITPassLeader? By trusting ITPassLeader, you are reducing your chances of failure. In fact, we guarantee that you will pass the 300-745 certification exam on your very first try. If we fail to deliver this promise, we will give your money back! This promise has been enjoyed by over 90,000 takes whose trusted ITPassLeader. Aside from providing you with the most reliable dumps for 300-745, we also offer our friendly customer support staff. They will be with you every step of the way.

Test 300-745 Preparation: <https://www.itpassleader.com/Cisco/300-745-dumps-pass-exam.html>

These exam questions provide you with all the necessary knowledge that you will need to clear the Designing Cisco Security Infrastructure (300-745) exam with a high passing score, When you select 300-745 latest pdf vce, you are sure to 100% pass your first time to participate in the difficult and critical 300-745 actual test, Cisco 300-745 Latest Test Answers Based on the plenty advantages of our product, you have little possibility to fail in the exam.

About Capability Maturity Models, You just need to show us your 300-745 failure certification, then after confirmation, we will deal with your case, These exam questions provide you with all the necessary knowledge that you will need to clear the Designing Cisco Security Infrastructure (300-745) exam with a high passing score.

100% Pass 2026 Cisco Latest 300-745: Designing Cisco Security Infrastructure Latest Test Answers

When you select 300-745 latest pdf vce, you are sure to 100% pass your first time to participate in the difficult and critical 300-745 actual test, Based on the plenty advantages of our product, you have little possibility to fail in the exam.

ITPassLeader Cisco 300-745 practice exam support team cooperates with users to tie up any issues with the correct equipment, You just need to grab one copy of 300-745 Braindumps and enjoy the regular updates for free.
