Passing the B2B-Commerce-Administrator Exam signifies that the candidate has the knowledge and skills required to effectively manage B2B Commerce solutions on the Salesforce platform.

Salesforce Accredited B2B Commerce Administrator Sample Questions (Q88-Q93):

NEW QUESTION # 88

An Administrator is beginning to configure a B2B Commerce storefront.

Which two settings does the Administrator need to configure at the start of setup?

- A. Enable Reduction Orders
- **B. Enable Zero Quantity**
- **C. Enable Enhanced Commerce Orders**
- D. Enable Optional Price Books for Orders

Answer: B,C

Explanation:

At the start of setting up a B2B Commerce storefront, the Administrator needs to configure settings that are crucial for the basic operations of the store. Enabling Enhanced Commerce Orders (B) is essential as it allows for the use of advanced order management features, including complex pricing and discount structures, which are common in B2B transactions. Enable Zero Quantity (C) is also a key setting, especially for B2B scenarios where orders might be created as placeholders or for backorder items, allowing for zero quantity orders to be processed through the system. While Optional Price Books for Orders (A) and Reduction Orders (D) can be important in certain contexts, they are not typically the initial settings configured during the setup process.

NEW QUESTION # 89

Which Salesforce B2B Commerce object is used to tie an Account to a Price List?

- A. Contact Group
- B. Account Link
- **C. Account Group**
- D. User Id

Answer: C

Explanation:

Explanation

The Account Group object is used to tie an Account to a Price List. This allows you to assign different Price Lists to different groups of Accounts. For example, you could have one Price List for wholesale customers and another Price List for retail customers.

NEW QUESTION # 90

Where is the from address configurable for emails sent from Salesforce B2B Commerce in workflow steps such as request password, checkout, or email cart?

- A. Salesforce community settings
- B. Account
- C. Salesforce B2B Commerce storefront settings
- D. CC Account Group

Answer: C

Explanation:

Explanation

The from address for emails sent from Salesforce B2B Commerce in workflow steps is configurable in the Salesforce B2B Commerce storefront settings. This allows you to customize the email address that your customers see when they receive emails from your storefront.

NEW QUESTION # 91

In order to have the most efficient process for Administrators, What three Related Lists should be added to the Account page Layout as part of the setup process?

- A. Community Members
- B. Contact Point Address
- C. Community Membership
- D. Contact Points
- E. Cart

Answer: B,E

NEW QUESTION # 92

In which location is the first price Tier defined when using Tiered Pricing?

- A. The CC Product Record
- B. The Tiered Pricing Lightning Component
- C. The Default Storefront Pricelist
- D. The Price field on the respective Pricelist Item Record

Answer: D

Explanation:

The first price Tier is defined on the Price field on the respective Pricelist Item Record. This is the price that will be displayed to users on the storefront.

When using Tiered Pricing, the first price tier is defined in the Price field on the respective Pricelist Item Record. Each Pricelist Item Record represents a specific product and defines the price tiers associated with that product. The Price field on the Pricelist Item Record determines the price for the first tier of the product.
