In addition, the C-BCFIN-2502 software has a variety of self-learning and self-assessment functions to test learning outcome, which will help you increase confidence to pass exam. The contents of the three versions are the same. Each of them neither limits the number of devices used or the number of users at the same time. You can choose according to your needs. C-BCFIN-2502 Study Materials provide 365 days of free updates, you do not have to worry about what you missed.

SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q44-Q49):

NEW QUESTION # 44

Which key area of Financial Management has a central focus on funding the business and supporting sustainable growth?

- A. Financial Planning & Analysis
- B. Accounting & Financial Close
- C. Governance, Risk, & Compliance
- **D. Treasury & Working Capital**

Answer: D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The Treasury & Working Capital pillar is uniquely positioned to focus on the liquidity and financial health required to fund business operations and long-term growth. While Accounting & Financial Close records what has happened and FP&A plans for what will happen, Treasury Management ensures the company has the actual capital available to execute those plans. This involves managing cash positions, optimizing bank relations, and mitigating financial risks such as currency fluctuations or interest rate volatility. Sustainable growth is supported through efficient working capital management, which minimizes the amount of capital tied up in the "Cash Conversion Cycle." By optimizing accounts receivable and accounts payable through SAP's integrated tools, the CFO can free up internal cash flow to reinvest in the business without relying solely on external debt. Furthermore, modern SAP Treasury solutions include features for sustainable finance, helping organizations track and manage green bonds or ESG-linked loans. By providing real-time visibility into global cash across all entities, SAP Treasury & Working Capital enables the CFO to act as a strategic "Chief Value Officer," ensuring that the organization remains solvent, resilient, and ready to capitalize on new market opportunities.

NEW QUESTION # 45

Which of the following is a key advantage of SAP Business Suite on SAP HANA for financial management?

- A. Batch-based reporting
- B. Limited scalability
- **C. Real-time analytics**
- D. Manual reconciliation

Answer: C

NEW QUESTION # 46

Scenario: A retail company wants to accelerate its financial closing process and improve reporting accuracy. The company is currently facing delays due to manual reconciliation, decentralized financial data, and lack of automation in closing tasks.

Which SAP solutions should they implement to improve their financial closing process?

- A. SAP Asset Management
- B. SAP Financial Closing Cockpit
- C. SAP S/4HANA Finance
- D. SAP Business Workflow
- E. SAP SuccessFactors

Answer: B,C,D

NEW QUESTION # 47

Which SAP Finance technology ensures all finance data is available from a Single source?

- A. Document Splitting
- B. Actual Costing
- C. Extension Ledger
- D. Universal Journal

Answer: D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The cornerstone of SAP S/4HANA Finance is the Universal Journal (table ACDOCA). Traditionally, financial systems relied on separate tables for General Ledger (GL), Controlling (CO), Asset Accounting (AA), and Material Ledger (ML). This fragmentation led to data silos, necessitated complex reconciliations at period end, and often resulted in "multiple versions of the truth." The Universal Journal revolutionizes this by combining all these components into a single line-item table.

By providing a Single Source of Truth, the Universal Journal ensures that financial and managerial accounting are inherently reconciled. Every transaction captured in the system updates one table with all relevant dimensions-including market segments, cost centers, and functional areas. This eliminates the need for reconciliation between FI and CO and provides immediate, real-time access to granular data. For the CFO, this means faster financial closes and the ability to drill down from high-level financial statements directly to the underlying operational detail without leaving the report. This architecture is the "digital core" that enables all other advanced SAP Financial Management capabilities, such as real-time analytics and predictive forecasting.

NEW QUESTION # 48

What are some insights that finance provides in SAP Business Suite?

- A. Supply chain optimization
- B. Employee performance evaluation
- C. Cost management
- D. Technology ROI

Answer: A,C,D

NEW QUESTION # 49
