Pass Guaranteed 2026 C-S4PM-2504: SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Latest Latest Exam Camp

In order to facilitate the wide variety of users' needs the C-S4PM-2504 study guide have developed three models with the highest application rate in the present - PDF, software and online. Online mode of another name is App of study materials, it is developed

on the basis of a web browser, as long as the user terminals on the browser, can realize the application which has applied by the C-S4PM-2504 simulating materials of this learning model, users only need to open the App link, you can quickly open the learning content in real time in the ways of the C-S4PM-2504 study materials.

SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q67-Q72):

NEW QUESTION # 67

When deploying SAP S/4HANA Cloud, private edition using new implementation, which of the following is recommended to code custom developments? Note: There are 2 correct answers to this question.

- A. SAP Business Technology Platform
- B. SAP Support Portal
- C. SAP Best Practices
- D. SAP ABAP Workbench

Answer: A,D

NEW QUESTION # 68

Why does SAP recommend to document alternative processes when implementing SAP S/4HANA Cloud Public Edition?

- A. To ensure alternative processes are permanently used instead of standard features
- B. To suggest new feature alternative business processes for SAP inclusion in future upgrades
- C. To allow for future deprecation of alternative processes when standard solutions become available
- D. To allow the system to be fully customized for the customer

Answer: C

Explanation:

Documenting alternative processes during SAP S/4HANA Cloud Public Edition implementation is a best practice to manage deviations from SAP Best Practices while maintaining a cloud-compliant approach.

* Option A: To allow for future deprecation of alternative processes when standard solutions become available Correct.

Documenting alternative processes enables customers to transition to standard processes in future releases, reducing customizations. The SAP S/4HANA Cloud Implementation Guide states, "SAP recommends documenting alternative processes to facilitate their deprecation when standard solutions become available in future upgrades, aligning with the cloud mindset."

* Option B: To suggest new feature alternative business processes for SAP inclusion in future upgrades Incorrect. Alternative processes are for customer-specific needs, not for suggesting features to SAP. The SAP Activate Methodology Guide notes, "Alternative processes are documented for customer use, not for proposing new features, which is handled through SAP's innovation feedback process."

* Option C: To ensure alternative processes are permanently used instead of standard features Incorrect. The goal is to minimize deviations, not make alternative processes permanent. The SAP S/4HANA Cloud Study Guide clarifies, "Alternative processes are temporary solutions, with the aim of adopting standard processes as they become available."

* Option D: To allow the system to be fully customized for the customer Incorrect. Full customization contradicts the cloud mindset of standardization. The SAP S/4HANA Cloud Implementation Guide explains, "Documenting alternative processes supports limited deviations, not full customization, to maintain cloud compliance." Extract from Official Documentation:

* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "Documenting alternative processes allows customers to track deviations from SAP Best Practices, enabling future deprecation when standard solutions are introduced in subsequent releases, ensuring alignment with the cloud strategy."

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "Alternative processes are documented to manage temporary deviations, with the goal of transitioning to standard processes as they become available, reducing long-term customization." Additional Context:

SAP's cloud-first approach emphasizes standardization, and documenting alternative processes ensures transparency and flexibility, allowing customers to adopt standard solutions as they evolve, minimizing technical debt and maintenance costs.

:

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Explains alternative process management.

SAP Best Practices: Outlines cloud-compliant customization.

NEW QUESTION # 69

What are objectives of the Executive board as opposed to the Steering Committee? Note: There are 3 correct answers to this question.

- A. To allocate project funding
- B. To set business vision and goals
- C. To approve project goals
- D. To approve the project vision
- E. To approve project results

Answer: A,B,D

Explanation:

In SAP S/4HANA Cloud Public Edition projects, the Executive Board and Steering Committee have distinct roles. The Executive Board focuses on strategic oversight, while the Steering Committee handles operational governance.

* Option A: To approve project results Incorrect. Approving project results is typically a Steering Committee responsibility, as it oversees project progress and deliverables. The SAP Activate Methodology Guide states, "The Steering Committee approves project results and deliverables, ensuring alignment with project plans, while the Executive Board focuses on strategic objectives."

* Option B: To set business vision and goals Correct. The Executive Board defines the organization's strategic vision and goals, which guide the project. The SAP S/4HANA Cloud Project Management Guide explains, "The Executive Board sets the business vision and goals, providing the strategic direction for the SAP S/4HANA Cloud implementation."

* Option C: To approve the project vision Correct. The Executive Board approves the project vision to ensure alignment with organizational strategy. The SAP Activate Methodology Guide notes, "The Executive Board approves the project vision, ensuring it supports the broader business objectives."

* Option D: To allocate project funding Correct. The Executive Board is responsible for securing and allocating funding for the project. The SAP S/4HANA Cloud Implementation Guide confirms, "The Executive Board allocates project funding, ensuring resources are available to achieve the strategic goals of the implementation."

* Option E: To approve project goals Incorrect. Project goals are typically approved by the Steering Committee, which translates the Executive Board's vision into actionable objectives. The SAP S/4HANA Cloud Study Guide clarifies, "The Steering Committee approves project goals, while the Executive Board focuses on strategic vision and funding." Extract from Official Documentation:

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "The Executive Board's objectives include setting the business vision, approving the project vision, and allocating funding, while the Steering Committee focuses on approving project goals and results."

* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "The Executive Board sets the strategic direction by defining the business vision, approving the project vision, and securing funding, distinguishing its role from the Steering Committee's operational oversight." Additional Context:

The Executive Board's strategic focus ensures the SAP S/4HANA Cloud project aligns with organizational priorities, while the Steering Committee's operational role drives execution. This separation of responsibilities enhances governance and accountability in complex cloud projects.

SAP S/4HANA Cloud Study Guide: Details governance roles.

SAP Project Management Best Practices: Outlines board and committee responsibilities.

NEW QUESTION # 70

Which of the following configuration items CANNOT be changed after the initial provisioning of SAP S/4HANA Cloud Public Edition? Note: There are 2 correct answers to this question.

- A. Fiscal Year Variant
- B. Group currency
- C. User access rights
- D. Custom fields in standard objects

Answer: A,B

Explanation:

Certain configuration items in SAP S/4HANA Cloud Public Edition are locked after initial provisioning to ensure system consistency and compliance with cloud standards. This is managed through SAP Central Business Configuration (CBC).

* Option A: Group currencyCorrect. The group currency, used for financial reporting across the organization, cannot be changed after initial provisioning due to its impact on financial data integrity.

TheSAP Central Business Configuration Guidestates, "The group currency is a critical configuration item that is locked after initial provisioning to maintain consistency in financial reporting."

* Option B: Custom fields in standard objectsIncorrect. Custom fields can be added or modified post- provisioning using the Custom Fields and Logic app, supporting extensibility. TheSAP S/4HANA Cloud Extensibility Guidenotes, "Custom fields in standard objects can be created or adjusted throughout the system lifecycle to meet evolving business needs."

* Option C: User access rightsIncorrect. User access rights, managed through business roles, can be modified at any time using the Maintain Business Roles app. TheSAP S/4HANA Cloud Security Guide clarifies, "User access rights are flexible and can be updated post-provisioning to align with organizational changes."

* Option D: Fiscal Year VariantCorrect. The Fiscal Year Variant, which defines the financial calendar, is locked after provisioning to prevent disruptions in financial processes. TheSAP Central Business Configuration Guideexplains, "The Fiscal Year Variant is a non-changeable configuration item after initial provisioning, as it underpins all financial transactions and reporting." Extract from Official Documentation:

* SAP Central Business Configuration Guide(SAP Help Portal,<https://help.sap.com>):"Configuration items such as the group currency and Fiscal Year Variant are fixed after initial provisioning in SAP S /4HANA Cloud Public Edition to ensure system stability and data integrity."

* SAP S/4HANA Cloud Implementation Guide: "Certain settings, including group currency and Fiscal Year Variant, are locked post-provisioning to prevent changes that could impact financial consistency, while custom fields and access rights remain configurable." Additional Context:

The locking of group currency and Fiscal Year Variant reflects SAP's cloud strategy to maintain standardization and prevent costly reconfigurations, while allowing flexibility in areas like custom fields and access rights to support ongoing business needs.

:

SAP Help Portal: SAP Central Business Configuration Guide (<https://help.sap.com>).

SAP S/4HANA Cloud Extensibility Guide: Details custom field management.

SAP S/4HANA Cloud Security Guide: Explains access rights flexibility.

SAP S/4HANA Cloud Study Guide: Outlines configuration constraints.

NEW QUESTION # 71

Why does SAP recommend to perform regression testing during the upgrade window for SAP S/4HANA Cloud Public Edition?

- A. To validate that all user permissions have been properly migrated to the new version
- **B. To verify existing functionality still works correctly after the upgrade**
- C. To confirm that the database schema changes have been implemented successfully
- D. To ensure that new features of the upgrade are working as specified in the requirements

Answer: B
