The OGEA-101 certification is the way to go in the modern The Open Group era. Success in the TOGAF Enterprise Architecture Part 1 Exam exam of this certification plays an essential role in an individual's future growth. Nowadays, almost every tech aspirant is taking the test to get OGEA-101 certification and find well-paying jobs or promotions. But the main issue that most of the candidates face is not finding updated The Open Group OGEA-101 Practice Questions to prepare successfully for the The Open Group OGEA-101 certification exam in a short time.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.
Topic 2	ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.

Topic 3	Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.
Topic 4	Business Architecture: This topic of The Open Group OGEA-101 Exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.
Topic 5	Implementation Governance: This topic of The Open Group OGEA-101 exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam.
Topic 6	Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.

OGEA-101 Valid Test Sample - 2025 First-grade The Open Group OGEA-101 Valid Exam Simulator 100% Pass

Preparation of professional TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) exam is no more difficult because experts have introduced the preparatory products. With 2Pass4sure products, you can pass the TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) exam on the first attempt. If you want a promotion or leave your current job, you should consider achieving a professional certification like TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) exam. You will need to pass the The Open Group OGEA-101 exam to achieve the TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) certification.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q108-Q113):

NEW QUESTION # 108

What is the purpose of the Preliminary Phase?

- A. Identifying the stakeholders and their requirements.
- B. Defining the Enterprise Strategy.
- C. Developing an Enterprise Architecture Capability.
- D. Describing the target architecture.

Answer: C

Explanation:

An Enterprise Architecture Capability is the ability of the organization to perform effective and efficient architecture work, including the definition, governance, and management of its architectures². The Preliminary Phase involves the following activities¹:

*Reviewing the organizational context, scope, and drivers for conducting Enterprise Architecture

*Establishing the Architecture Capability desired by the organization, including the maturity level, roles, responsibilities, processes, and tools

*Defining and establishing the Organizational Model for Enterprise Architecture, which describes how the architecture function is organized and integrated within the enterprise

*Defining and establishing the Architecture Governance framework, which provides the mechanisms for ensuring the quality, consistency, and compliance of the architecture work

*Selecting and implementing the tools that support the Architecture Capability, such as repositories, modeling tools, and communication tools

*Defining the Architecture Principles that will guide and constrain the architecture work, based on the business principles, goals, and drivers of the organization

*Defining the Organization-Specific Architecture Framework, which is an adaptation of the generic TOGAF ADM to suit the specific requirements, standards, and practices of the organization The Preliminary Phase is essential for preparing the organization

for the successful development and implementation of its architectures, as well as for ensuring the alignment of the architecture work with the business strategy and objectives¹.

NEW QUESTION # 109

What should be put in place through organization structures, roles, responsibilities, skills and processes to carry out architectural activity effectively?

- A. An Enterprise Architecture
- B. An EA repository
- C. An EA Capability
- D. An EA framework

Answer: C

Explanation:

An EA Capability is the ability of an organization to perform enterprise architecture effectively and efficiently. It involves establishing and maintaining the appropriate organization structures, roles, responsibilities, skills, processes, tools, and governance mechanisms to support the development and use of enterprise architecture. An EA Capability enables the organization to align its business and IT strategies, deliver value from its investments, manage change and complexity, and improve its performance and agility¹² References: 1: The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 44: Introduction 2: The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 45: Establishing and Maintaining an Enterprise Architecture Capability

NEW QUESTION # 110

Consider the following ADM phases objectives.

Objective:

1. Develop the Target Data Architecture that enables the Business Architecture and the Architecture Vision
2. Develop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals
3. Develop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture
4. Identify candidate Architecture Roadmap components based upon gaps between the Baseline and Target Technology Architectures Which phase does each objective match?

- A. 1C-2D-3B-4A
- B. 1A-2B-3C-4D
- C. 1B-2D-3A-4C
- D. 1C-2B-3A-4D

Answer: D

Explanation:

*Phase A: Architecture Vision

oDevelop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture
oDefine the scope and boundaries of the architecture engagement
oIdentify the key stakeholders and their concerns and expectations
oDefine the Architecture Vision statement and the Architecture Definition Document
oObtain approval and commitment from the sponsors and stakeholders

*Phase B: Business Architecture

oDevelop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals
oDefine the Baseline Business Architecture, if not available
oPerform a gap analysis between the Baseline and Target Business Architectures
oDefine candidate roadmap components for the Business Architecture
oResolve impacts across the Architecture Landscape

*Phase C: Information Systems Architecture

oDevelop the Target Data Architecture that enables the Business Architecture and the Architecture Vision
oDevelop the Target Application Architecture that supports the Business Architecture and the Architecture Vision
oDefine the Baseline Data and Application Architectures, if not available
oPerform a gap analysis between the Baseline and Target Data and Application Architectures
oDefine candidate roadmap components for the Information Systems Architecture
oResolve impacts across the Architecture Landscape

*Phase D: Technology Architecture

oDevelop the Target Technology Architecture that enables the Information Systems Architecture and the Architecture Vision
oDefine the Baseline Technology Architecture, if not available
oPerform a gap analysis between the Baseline and Target Technology

Architectures oIdentify candidate Architecture Roadmap components based upon gaps between the Baseline and Target Technology Architectures oResolve impacts across the Architecture Landscape Therefore, the correct matching of the objectives and the phases is:

*1C: Develop the Target Data Architecture that enables the Business Architecture and the Architecture Vision

*2B: Develop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals

*3A: Develop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture

*4D: Identify candidate Architecture Roadmap components based upon gaps between the Baseline and Target Technology Architectures

NEW QUESTION # 111

Complete the sentence. The key purpose of Gap Analysis is to _____

- A. determine the required service levels for the architecture
- B. validate nonfunctional requirements
- C. establish quality parameters for the architecture
- **D. identify potential missing or overlapping functions**
- E. identify commercial building blocks to be purchased

Answer: D

Explanation:

Gap Analysis is a technique that compares the Baseline Architecture and the Target Architecture to identify the differences and gaps between them. The purpose of this technique is to determine the changes and additions that are required to achieve the desired future state of the architecture. One of the main aspects of Gap Analysis is to identify the functions that are missing or overlapping in the current and future architectures, and to plan how to address them. This helps to ensure that the architecture is complete, consistent, and aligned with the business objectives and requirements3

NEW QUESTION # 112

Consider the following ADM phases objectives.

Which phase does each objective match?

- A. 1F-2E-3F-4G
- B. 1E-2F-3E-4F
- C. 1E-2E-3F-4F
- **D. 1G-2E-3F-4F**

Answer: D

NEW QUESTION # 113

.....

When we are in some kind of learning web site, often feel dazzling, because web page design is not reasonable, put too much information all rush, it will appear desultorily. Believe it or not, we face the more intense society, and we should prompt our competitiveness and get a OGEA-101 certification to make our dreams come true. Although it is not an easy thing to achieve it, once you choose our OGEA-101 prepare torrent, we will send the new updates for one year long, which is new enough to deal with the exam for you and guide you through difficulties in your exam preparation.
