

2V0-41.24 Dump - 2V0-41.24 Valid Dumps Book

As a member of the people working in the 2V0-41.24 industry, do you have a headache for passing some VMware certification exams? Generally, 2V0-41.24 certification exams are used to test the examinee's related 2V0-41.24 professional knowledge and experience and it is not easy pass these exams. For the examinees who are the first time to participate 2V0-41.24 certification exam, choosing a good pertinent training program is very necessary. Actual4Dumps can offer a specific training program for many examinees participating in VMware certification exams. Our training program includes simulation test before the formal examination, specific training course and the current exam which has 95% similarity with the real exam. Please add Actual4Dumps to you shopping car quickly.

If the clients have any problems on our 2V0-41.24 training guide they could contact our online customer service personnel or contact us by the mails. We will reply their questions sincerely and help them solve their problems at any time since we offer service on 24/7 time format. We provide the best 2V0-41.24 Study Guide and hope our sincere service will satisfy all the clients. And our services are praised by our worthy customers who said that when they talked with us, they knew we are reliable and professional.

Free PDF Quiz VMware - Valid 2V0-41.24 Dump

In this era of the latest technology, we should incorporate interesting facts, figures, visual graphics, and other tools that can help people read the VMware NSX 4.X Professional V2 (2V0-41.24) exam questions with interest. Actual4Dumps uses pictures that are related to the VMware NSX 4.X Professional V2 (2V0-41.24) certification exam and can even add some charts, and graphs that show the numerical values.

VMware NSX 4.X Professional V2 Sample Questions (Q29-Q34):

NEW QUESTION # 29

Drag and Drop Question

Refer to the exhibits.

Drag and drop the NSX graphic element icons on the left found in an NSX Intelligence visualization graph to its correct description on the right.

Answer Area

This icon represents a physical server that is part of your NSX environment. A physical server can belong to more than one group

This icon represents a group on which security policies, including East-West firewall rules, can be applied. A group can be a collection of VMs, physical servers, or sets of IP addresses

This is the icon for the public IP addresses on the Internet. If at least one compute entity in your NSX environment communicated with a public IP address during the selected time period, that traffic flow is included in the current visualization.

This is the icon used for a virtual machine (VM) that is part of your NSX environment. A VM can belong to more than one group

Answer:

Explanation:

The screenshot shows the same four icons from the question on the left, but they have been correctly placed into the dashed boxes on the right. The physical server icon is in the top box, the group icon is in the second box, the public IP addresses icon is in the third box, and the virtual machine icon is in the bottom box. The descriptions on the right are visible behind the icons.

Answer Area

This icon represents a physical server that is part of your NSX environment. A physical server can belong to more than one group

This icon represents a group on which security policies, including East-West firewall rules, can be applied. A group can be a collection of VMs, physical servers, or sets of IP addresses

This is the icon for the public IP addresses on the Internet. If at least one compute entity in your NSX environment communicated with a public IP address during the selected time period, that traffic flow is included in the current visualization.

This is the icon used for a virtual machine (VM) that is part of your NSX environment. A VM can belong to more than one group

NEW QUESTION # 30

An NSX administrator has deployed a single NSX Manager node and will be adding two additional nodes to form a 3-node NSX Management Cluster for a production environment. The administrator will deploy these two additional nodes and Cluster VIP using the NSX UI.

What two are the prerequisites for this configuration? (Choose two.)

- A. NSX Manager must reside on a Windows Server.
- B. All nodes must be in separate subnets.
- C. The cluster configuration must be completed using API.
- **D. All nodes must be in the same subnet.**
- **E. A compute manager must be configured.**

Answer: D,E

Explanation:

According to the VMware NSX Documentation, these are the prerequisites for adding nodes to an NSX Management Cluster using the NSX UI:

All nodes must be in the same subnet and have IP connectivity with each other.

A compute manager must be configured and associated with the NSX Manager node.

The NSX Manager node must have a valid license.

The NSX Manager node must have a valid certificate.

NEW QUESTION # 31

What should an NSX administrator check to verify that VMware Identity Manager integration is successful?

- A. From the NSX CLI the status of the VMware Identity Manager Integration must be Configured'
- B. From the NSX UI the URI in the address bar must have local part of it.
- **C. From the NSX UI the status of the VMware Identity Manager Integration must be Enabled'**
- D. From VMware Identity Manager the status of the remote access application must be green

Answer: C

Explanation:

To verify that VMware Identity Manager integration is successful with NSX, the administrator should check the NSX UI for the integration status. If it is configured correctly, the status should be marked as "Enabled," indicating that the integration is active and functioning.

NEW QUESTION # 32

A customer is preparing to deploy a VMware Kubernetes solution in an NSX environment.

What is the minimum MTU size for the UPLINK profile?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

For a VMware Kubernetes deployment in an NSX environment, the minimum recommended MTU size for the UPLINK profile is 1700. This allows sufficient space for the additional overhead introduced by encapsulation protocols, such as Geneve, used in NSX-T Data Center, ensuring optimal performance and avoiding fragmentation.

NEW QUESTION # 33

Which of the following statements is true regarding the use of a Dynamic Routing Protocol on a Tier-1 Gateway?

- A. You can only use OSPF on the Tier-1 Gateway
- B. Both BGP and OSPF can be used on a Tier-1 Gateway.
- **C. You can only use BGP on the Tier-1 Gateway.**
- D. A Dynamic Routing Protocol cannot be used on a Tier-1 Gateway.

Answer: C

Explanation:

In NSX, BGP is the only supported dynamic routing protocol on a Tier-1 Gateway. OSPF is not supported at the Tier-1 level; it is only available on Tier-0 Gateways. This limitation means that for dynamic routing on a Tier-1 Gateway, administrators can configure BGP to exchange routing information with connected Tier-0 Gateways.

NEW QUESTION # 34

.....

After passing the VMware 2V0-41.24 certification exam, you can take advantage of a number of extra benefits. With the correct concentration, commitment, and 2V0-41.24 exam preparation, you could ace this VMware NSX 4.X Professional V2 2V0-41.24 test with ease. Actual4Dumps is a trusted and leading platform that is committed to preparing the VMware 2V0-41.24 exam candidates in a short time period.

2V0-41.24 Valid Dumps Book: <https://www.actual4dumps.com/2V0-41.24-study-material.html>

The simplified information contained in our VMware 2V0-41.24 training guide is easy to understand without any difficulties, Pass rate is what we care for preparing for an examination, which is the final goal of our 2V0-41.24 certification guide, VMware 2V0-41.24 Dump We do not provide any practice exams directly, Passing an VMware Certification 2V0-41.24 exam rewards you in the form of best career opportunities.

Write Automated Developer Tests, The drop-down list below the Name list box lists commonly used properties, The simplified information contained in our VMware 2V0-41.24 training guide is easy to understand without any difficulties.

VMware 2V0-41.24 Dump: VMware NSX 4.X Professional V2 - Actual4Dumps Precise Valid Dumps Book for your free downloading

Pass rate is what we care for preparing for an examination, which is the final goal of our 2V0-41.24 certification guide, We do not provide any practice exams directly.
