Preparation Process for Cisco 300-415 Exam

The recommended training for the Cisco 300-415 test is the Implementing Cisco SD-WAN Solutions v2.0 course. This is a 5-day classroom training with the hands-on lab practice that is intended to teach the students how to deploy, design, manage, and configure the Cisco Software-Defined solution within a large-scale live network. They will also learn how to migrate from legacy WAN to SD-WAN. Besides that, the applicants will develop their understanding of how to execute advanced control, application-aware policies, and data. This training option covers the length and breadth of the exam topics. This means that everything that the individuals need for achieving success in Cisco 300-415 will be taught in the ENSDWI course. Apart from this variant, it is also recommended that the candidates go through practice questions to understand the patterns of question formats. This will prepare them for the task of answering the question within the limited time frame. Moreover, you will find many reputable IT websites that offer practice tests, tutorials, and other prep resources to help you gain competence in the content of the exam.

What Cisco 300-415 exam details should you explore?

According to its internal rules, Cisco doesn't publish the details of its certification exams. That is why the exact number of questions as well as their formats are unknown to the potential test takers. The same thing is with their passing scores. You can't learn how much you need to score before sitting for the actual exam. What is known for sure is that Cisco 300-415 is available in two languages, namely English and Japanese, and lasts for 90 minutes. To schedule it, you need to sign up with Pearson VUE, the official testing partner. After your authorization on the platform, you will be required to pay the fee of \$300 and will be offered to choose one of the delivery options: online proctored exam or onsite session at a testing center.

Cisco 300-415 is a single test that the candidates must clear to obtain the Cisco Certified Specialist – Enterprise SD-WAN Implementation certificate. As for CCNP Enterprise, the certification process is a bit more complicated. The 300-415 Exam is one of the concentration options that the students may take to meet the requirements for this professional-level certificate. To become eligible for it, the learners are also required to pass one core test – 350-401 ENCOR. Only after the successful completion of these two exams, you can be awarded your CCNP Enterprise certification.

These two Cisco certificates are valid for three years, then you will need to recertify. The vendor provides its candidates with wide opportunities for meeting the recertification requirements. You can maintain your certification status by passing additional exams, or completing various educational activities and earning Continuing Education points within these 3 years.
