

300-420 Unlimited Exam Practice & 300-420 Reliable Exam Book

What's more, part of that BraindumpsIT 300-420 dumps now are free: <https://drive.google.com/open?id=1hu3Dt9RNrmkVaO5SzdoWJUFjpQUYMWER>

There are a lot of advantages if you buy our 300-420 training guide. And one of them is that you can enjoy free updates for one year after purchase. In order to avoid the omission of information, please check your email regularly. The content of 300-420 Exam Materials is very comprehensive, and we are constantly adding new things to it. As long as you purchase 300-420 practice prep, you will not need any other learning products.

Cisco 300-420 certification exam is a comprehensive test that covers a broad range of topics related to designing enterprise networks. 300-420 exam focuses on network design principles and concepts, including advanced addressing and routing solutions, advanced enterprise campus networks, WAN, security, and network services. 300-420 exam also tests the candidate's knowledge of network virtualization technologies, network automation, and network programmability.

Cisco 300-420 Exam is a part of the Cisco Certified Network Professional (CCNP) Enterprise certification track. Designing Cisco Enterprise Networks certification track is designed to validate your skills in enterprise networking solutions, including routing, switching, wireless, and security technologies. The CCNP Enterprise certification is a globally recognized certification that demonstrates your expertise in enterprise-level networking solutions.

Free PDF Quiz 2025 Cisco Unparalleled 300-420: Designing Cisco Enterprise Networks Unlimited Exam Practice

By these three versions of 300-420 practice materials we have many repeat orders in a long run. The PDF version helps you read content easier at your process of studying with clear arrangement, and the PC Test Engine version of 300-420 practice materials allows you to take stimulation exam to check your process of exam preparing, which support windows system only. Moreover, there is the APP version of 300-420 practice materials, you can learn anywhere at any time with it at your cellphones without the limits of installation.

Cisco Designing Cisco Enterprise Networks Sample Questions (Q192-Q197):

NEW QUESTION # 192

Refer to the exhibit. A company has some offices that are connected via dark fiber in New York. A network architect must optimize the network design based on the EIGRP routing protocol. The network has hierarchical addressing between 10 and 12 routers in each office. Routing convergence time must be at the minimum. What must the network architect do to reduce the query range?

- A. Use different EIGRP processes on edge routers.
- B. Configure stub areas on non-edge routers.
- C. Configure route filtering on non-edge routers.
- D. **Implement network summarization on edge routers.**

Answer: D

NEW QUESTION # 193

Refer to the exhibit.

A network engineer must design a multicast solution based on:

- * Many-to-many communications between the users and sources
- * Support of up to 50 multicast sources
- * Users that must register for streams

Which multicast solution must the engineer select?

- A. Multicast VPN
- B. **Bidirectional PIM**
- C. Any Source Multicast
- D. Source-Specific Multicast

Answer: B

NEW QUESTION # 194

What statement is true regarding the current time in Enterprise Networking history?

- A. **technology pace of change**
- B. advent of cloud computing
- C. advent of IoT
- D. pervasive use of mobile devices

Answer: A

NEW QUESTION # 195

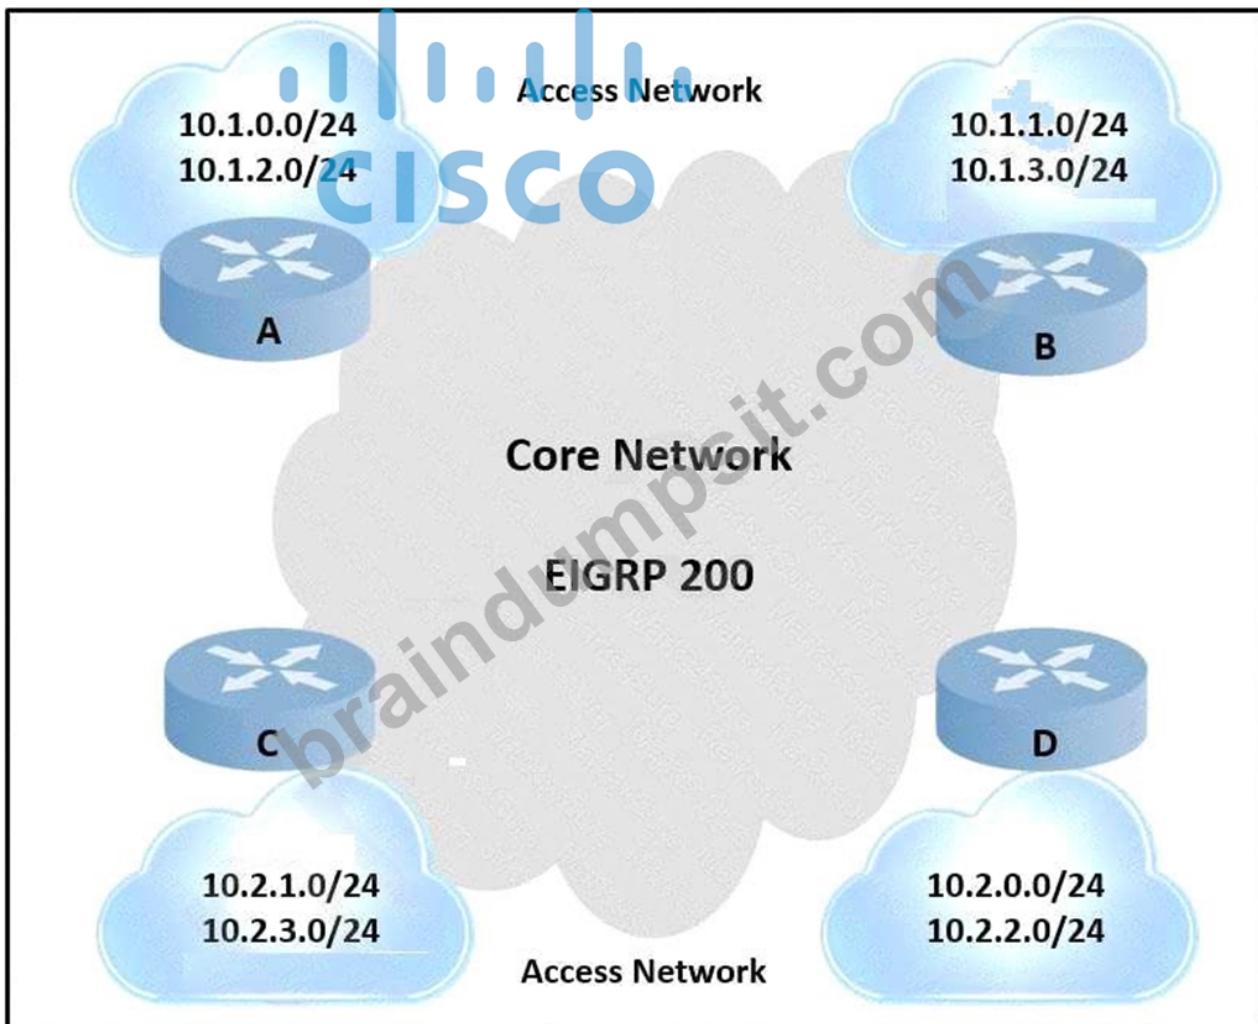

Which integration capability does gRPC provide?

- A. leveraging the LDAP protocol for authentication and directory services ensuring secure access control in RPC communications
- B. **leveraging protocol buffers to provide efficient serialization and deserialization of structured data over the network**
- C. leveraging the XMPP protocol for real-time messaging and collaboration between client and server applications
- D. leveraging GRAPH-API for network monitoring and management providing comprehensive visibility into RPC-related metrics and performance statistics

Answer: B

NEW QUESTION # 196

Refer to the exhibit.

An engineer is designing a routing solution for a customer. The design must ensure that a failure of network 10.1.0.0/24, 10.1.2.0/24, 10.2.1.0/24, or 10.2.3.0/24 does not impact the core. It also requires fast convergence time during any link failover in the core or access networks. Which solution must the engineer select?

- A. Add aggregation layer between core and access networks.
- B. Enable graceful restart on routers A and C.
- C. **Enable summarization on routers A and C.**
- D. Enable FRR for the connected networks of routers A and C.

Answer: C

NEW QUESTION # 197

.....

Exam 300-420 is just a piece of cake if you have prepared for the exam with the helpful of BraindumpsIT's exceptional study material. If you are a novice, begin from 300-420 study guide and revise your learning with the help of testing engine. Exam 300-420 Brain Dumps is another superb offer of BraindumpsIT that is particularly helpful for those who want to the point and the most relevant content to pass exam. With all these products, your success is assured with 100% money back guarantee.
