We believe that getting the newest information about the exam will help all customers pass the 300-425 exam easily. If you purchase our study materials, you will have the opportunity to get the newest information about the 300-425 exam. More importantly, the updating system of our company is free for all customers. If you decide to buy and use the 300-425 Training Materials from our company, it will be very easy for you to pass the exam without doubt. We sincerely hope that you can achieve your dream in the near future by the 300-425 latest questions of our company.

Cisco 300-425 exam covers a range of topics, including wireless site surveys, WLAN high availability, advanced location services, and wireless security. 300-425 exam also evaluates the candidates' ability to design and implement Cisco wireless infrastructure, including controllers, access points, and network management tools. Additionally, the exam includes questions on the integration of wireless networks with wired networks and other advanced technologies like IoT, SDN, and cloud-based solutions.

## What are the advantages of obtaining Cisco 300-425 certification

Those who pass the Cisco exam with the help of **Cisco 300-425 Dumps** gain several benefits

- You will be getting a higher salary as an entry-level network technician or an associate-level network professional in a large organization.
- It has a relatively low cost and is a very popular certification.
- Certification would make you more available in networking jobs or companies that require Cisco certification.

## What is the duration, questions, language, and format of the Cisco 300-425 Exam

- Passing score: 70%
- Length of Examination: 90 minutes
- Format: Multiple choices, multiple answers
- Number of Questions: 150
- Language: English

## 2025 High Hit-Rate Cisco 300-425: Designing Cisco Enterprise Wireless Networks Valid Test Dumps

With Dumps4PDF, you do not have to spend extra because we offer up to 12 months of free Cisco 300-425 valid dumps updates. These free updates of actual Cisco 300-425 Dumps will help you keep studying as per the 300-425 new examination content. Our free 300-425 actual dumps updates will remain valid for up to 12 months.

## Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q238-Q243):

### NEW QUESTION # 238

A network engineer is designing a new wireless network. The network needs to have these characteristics:

- support high client concentration
- optimize client performance
- avoid interference

Which approach should be taken?

- A. Deploy APs near each other for 2.4 GHz coverage, and disable the 5 GHz radios for some APs.
- B. Deploy APs near each other for 5 GHz coverage, and disable the 2.4 GHz radios for some APs.
- **C. Deploy APs near each other for 5 GHz coverage, and enable the 2.4 GHz radios for all APs.**
- D. Deploy APs near each other for 2.4 GHz coverage, and disable the 5 GHz radios for all APs.

**Answer: C**

Explanation:

Explanation

### NEW QUESTION # 239

An engineer configured the optimized client roaming on Cisco WLC with an RSSI threshold of 72dBm. Clients report frequent disconnections. What must be configured for the AP to guide the client to a better AP?

- A. Disable coverage hole detection on the SSID and enable BSS transition on the SSID.
- B. Enable BSS transition at the radio level and optimized roaming on the SSID.
- **C. Enable BSS transition on the SSID and optimized roaming at the radio level.**
- D. Disable optimized roaming and enable 802.11v support on the SSID.

**Answer: C**

### NEW QUESTION # 240

Refer to the exhibit A wireless consultant is performing an onsite survey using AirMagnet Survey PRO. What must be configured on the floor map so that the results appear properly?

- A. Calibrate the dimensions.
- B. Show details of the user density.
- C. Display details of the desk numbers
- D. Add inter-floor bleed

**Answer: A**

#### NEW QUESTION # 241

A customer has a centralized wireless deployment with N+1 high availability and few open authentication SSIDs configured. After failover, all APs are broadcasting all SSIDs, but the clients are assigned IP addresses from a different subnet. The WLANs on both WLCs are configured with the same dynamic interfaces. Which feature must be incorporated in the wireless design of the second controller?

- A. AAA Override
- B. AP Groups
- C. VLAN Select
- D. RF Profile

**Answer: C**

#### NEW QUESTION # 242

An engineer performs a Layer 1 survey by using Metageek chanalyzer only on the current operating channel. Which operating mode is configured for a Cisco CleanAIR AP?

- A. SE-connect
- B. Sniffer
- C. Local
- D. Monitor

**Answer: C**

## Local Mode

ess point radio provides air quality and interference d  
de does not disrupt client connections. When a hybrid  
isco CleanAir functionality is identical to local mode.
