If you have any questions on the exam question and answers, we will help you solve it. Within a year, we will offer free update.

SAP C_S4CPB_2508 Exam Syllabus Topics:

Topic	Details

Topic 1	• Configuration and the SAP Fiori Launchpad: This section of the exam measures the skills of Implementation Consultants and covers the ability to configure the system to meet customer requirements. It also evaluates knowledge of using the SAP Fiori Launchpad to personalize user experiences and manage business roles within the cloud environment.
Topic 2	• This section of the exam measures skills of Business Process Experts and focuses on adopting a cloud-first approach during implementations. It also emphasizes the importance of building the right project team and using fit-to-standard workshops to align customer requirements with standard SAP processes.
Topic 3	• Extensibility and Integration: This section of the exam measures the skills of Business Process Experts and evaluates the ability to extend SAP S • 4HANA Cloud functionalities using in-app and side-by-side extensibility options. It also includes integrating SAP systems with external applications to support end-to-end business processes.
Topic 4	• Introduction to Cloud Computing and SAP Cloud ERP Basics: This section of the exam measures skills of Implementation Consultants and covers the fundamental understanding of cloud computing principles along with the basics of SAP S • 4HANA Cloud ERP. It ensures that candidates know the value of cloud solutions, the key concepts of ERP in the cloud, and how SAP's offering supports digital transformation for businesses.
Topic 5	• System Landscapes and Identity Access Management: This section of the exam measures the skills of Implementation Consultants and covers the understanding of SAP system landscapes, tenants, and environments. It also assesses knowledge of identity and access management to ensure secure user provisioning, authentication, and role assignments.
Topic 6	• Data Migration and Business Process Testing: This section of the exam measures skills of Business Process Experts and focuses on preparing, migrating, and validating business data within SAP S • 4HANA Cloud. It also includes setting up and executing business process testing to ensure smooth operations after go-live.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q18-Q23):

NEW QUESTION # 18
Which embedded support offerings can you make use of in the SAP Fiori Launchpad? Note: There are 3 correct answers to this question.

- A. Digital assistance from generative AI (SAP Joule)
- B. Assessment questions from the SAP Learning Hub
- C. Recorded system simulations from the Learning Center
- D. Recorded webinars from the SAP Learning Website
- E. Video tutorials from the SAP Help Portal

Answer: A,C,E

NEW QUESTION # 19
In the Organizational Structure app in SAP Central Business Configuration, which of the following entities can be added under the Company root node? Note: There are 2 correct answers to this question.

- A. Sales Organization
- B. Plant
- C. Purchasing Organization
- D. Division

Answer: A,B

NEW QUESTION # 20

An SAP Fiori app isn't displaying on the SAP Fiori Launchpad even though the business role granting permission to the app is correctly assigned to the user.

How would you troubleshoot? Note: There are 3 correct answers to this question

- A. Check the restrictions for the role.
- B. Check the business role template.
- C. Check the Role Maintenance app.
- D. Check the business catalogues assigned to the role.
- E. Check the space and page(s) assigned to the role.

Answer: A,D,E

Explanation:

When an SAP Fiori app isn't displaying on the SAP Fiori Launchpad despite the user having the correct business role, several aspects need to be checked to troubleshoot the issue effectively:

* Check the restrictions for the role: It's essential to verify if there are any restrictions applied to the role that might prevent the app from being displayed. Restrictions can be based on various factors such as geographic location, department, or specific user attributes.

* Check the business catalogues assigned to the role: Business catalogues in SAP Fiori contain groups of apps related to specific business functions. If the necessary business catalogue is not assigned to the role, the app will not appear on the SAP Fiori Launchpad. Ensuring the correct assignment of catalogues is crucial for app visibility.

* Check the space and page(s) assigned to the role: With the introduction of spaces and pages in the SAP Fiori Launchpad, it's vital to ensure that the relevant space and page that should display the app are correctly assigned to the user's role. Spaces are higher-level groupings, while pages within those spaces contain the actual apps.

NEW QUESTION # 21

You are recording actions for a custom process step in a test automate

When do you press the "Read" button on the recording panel? Note: There are 2 correct answers to this question.

- A. To capture text in a message screen that can be used for data binding later.
- B. To capture a value in a text field that should be stored as a variable.
- C. To capture an error message on the screen that can be used later.
- D. To capture a static label on the screen that should be checked during test execution.

Answer: A,B

Explanation:

When you are recording actions for a custom process step in a test automate, you press the "Read" button on the recording panel in the following situations:

* To capture a value in a text field that should be stored as a variable. This allows you to reuse the value in other steps or test cases, or to compare it with an expected value1.

* To capture text in a message screen that can be used for data binding later. This allows you to extract data from the message screen and use it as an input for another step or test case2.

You do not press the "Read" button to capture an error message or a static label on the screen, as these are not values that need to be stored or used later. Instead, you can use the "Check" button to verify that the error message or the label is displayed as expected3. NEW QUESTION # 22

Which activities can you complete in the Maintain Business Roles SAP Fiori app? Note: There are 2 correct answers to this question.

- A. Maintain technical catalogs
- B. Assign PFCG profiles to a business role
- C. Maintain restrictions
- D. Assign business catalogs to a business role

Answer: C,D

NEW QUESTION # 23

......
