Valid Braindumps F5CAB4 Pdf & Reliable F5CAB4 Test Cost

The exam questions and answers of general F5 certification exams are produced by the F5 specialist professional experience. ValidVCE just have these F5 experts to provide you with practice questions and answers of the exam to help you pass the exam successfully. Our ValidVCE's practice questions and answers have 100% accuracy. Purchasing products of ValidVCE you can easily obtain F5 certification and so that you will have a very great improvement in F5CAB4 area.

F5 BIG-IP Administration Control Plane Administration Sample Questions (Q28-Q33):

NEW QUESTION # 28

A BIG-IP Administrator needs to change the management IP address of a BIG-IP device. Where should the administrator perform this task?

- A. Network > Self IPs

- B. Network > VLANs
- **C. System > Platform**
- D. Network > Interfaces

Answer: C

Explanation:

Management of the device's identity and primary out-of-band connectivity is a central Control Plane responsibility.

* Platform Settings: The System > Platform section of the Configuration Utility is used to manage global hardware and system parameters, including the hostname, management IP address, and time zone.

* Management vs. Data Plane: It is critical to distinguish between the management interface and TMM data interfaces. While data plane IPs (Self IPs) are configured under Network > Self IPs, the dedicated management port settings are grouped with other platform-level configurations.

* Access Control: This area is also used to manage administrative security, such as restricting SSH or HTTPS access to specific management subnets or IP addresses.

* Impact of Change: Changing the management IP will immediately disconnect any active GUI or SSH sessions using the current management IP. The administrator must reconnect using the newly assigned address.

NEW QUESTION # 29

As an organization grows, more people have to log into the BIG-IP. Instead of adding more local users, the BIG-IP Administrator is asked to configure remote authentication against a central authentication server.

Which two types of remote server can be used here? (Choose two answers)

- A. OAUTH
- **B. RADIUS**
- **C. LDAP**
- D. SAML

Answer: B,C

Explanation:

BIG-IP supports remote authentication by integrating with centralized authentication services through its AAA framework. The supported and commonly used remote authentication servers include:

* LDAP (A) Used to authenticate users against directory services such as Active Directory or other LDAP-compliant directories.

* RADIUS (C) Commonly used for centralized authentication, authorization, and accounting, especially in network and security environments.

Why the other options are incorrect:

* OAUTH (B) is an authorization framework, not supported as a direct administrative authentication backend for BIG-IP management access.

* SAML (D) is primarily used for single sign-on (SSO) in application authentication scenarios, not for BIG-IP administrative login authentication.

Thus, the correct remote authentication server types are LDAP and RADIUS.

NEW QUESTION # 30

Administrative user accounts have been defined on the remote LDAP server and are unable to log in to the BIG-IP device. Which log file should the BIG-IP Administrator check to find the related messages?28

- A. /var/log/user.log
- B. /var/log/messages
- C. /var/log/ltm
- **D. /var/log/secure**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: Authentication and authorization events are handled by the system's PAM (Pluggable Authentication Modules). For Control Plane security auditing, all login attempts—whether local or remote (LDAP/RADIUS/TACACS+)—and SSH-related security events are recorded in /var/log/secure. This is the primary log for troubleshooting administrative access issues

NEW QUESTION # 31

A BIG-IP Administrator needs to update the list of configured NTP servers. In which area of the Configuration Utility should the BIG-IP Administrator perform this update?

- A. System > Services
- B. System > Platform
- C. System > Preferences
- **D. System > Configuration**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: NTP (Network Time Protocol) is vital for management connectivity and HA state synchronization. Correct time is required for log timestamping and device trust group communication⁴⁶. To manage these settings, the administrator navigates to System > Configuration, where general system-level services like NTP and DNS are defined to ensure the Control Plane remains synchronized with the network environment.

NEW QUESTION # 32

A BIG-IP Administrator suspects that one of the BIG-IP device power supplies is experiencing power outages. Which log file should the BIG-IP Administrator check to verify the suspicion?

- A. /var/log/audit
- B. /var/log/kern.log
- **C. /var/log/ltn**
- D. /var/log/daemon.log

Answer: C

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: Although /var/log/ltn is primarily associated with Local Traffic Manager events, it is also the primary destination for system-level alerts generated by the Control Plane's chmand (Chassis Manager Daemon). Hardware status changes, including power supply failures, fan speeds, and temperature warnings, are logged as "notice" or "critical" events within the LTM log file.

NEW QUESTION # 33

.....

ValidVCE is professional platform to establish for compiling F5CAB4 exam materials for candidates, and we aim to help you to pass the examination as well as getting the related certification in a more efficient and easier way. Owing to the superior quality and reasonable price of our F5CAB4 Exam Materials, our F5CAB4 exam torrents are not only superior in price than other makers in the international field, but also are distinctly superior in many respects.

Valid Braindumps F5CAB4 Pdf: <https://www.validvce.com/F5CAB4-exam-collection.html>

ValidVCE Valid Braindumps F5CAB4 Pdf is the number one choice among F5 Valid Braindumps F5CAB4 Pdf professionals, F5 Reliable F5CAB4 Exam Question Even though we have already passed many large and small examinations, we are still unconsciously nervous when we face examination papers, ValidVCE F5CAB4 Training - BIG-IP Administration Control Plane Administration Virtualization Deployment Exam We can make sure that it will be very easy for you to pass your exam and get the related certification in the shortest time that beyond your imagination, Why Choose ValidVCE ValidVCE F5CAB4 Exam Dumps: We at ValidVCE have been providing our services for many years.

How to Blow Minds, Rock Worlds, and Generate Truly Innovative Ideas, You will enjoy learning on our F5CAB4 exam questions for its wonderful and latest design with the latest technologies applied.

100% Pass Quiz F5 - High Pass-Rate Reliable F5CAB4 Exam Question

ValidVCE is the number one choice among F5 professionals, Even F5CAB4 though we have already passed many large and small examinations, we are still unconsciously nervous when we face examination papers.

ValidVCE F5CAB4 Training - BIG-IP Administration Control Plane Administration Virtualization Deployment Exam We can make sure that it will be very easy for you to pass your exam and get the related certification in the shortest time that beyond your imagination.

Why Choose ValidVCE ValidVCE F5CAB4 Exam Dumps: We at ValidVCE have been providing our services for many years, This is especially handy for preparation and revision.
