Which control is time-driven?

- **A. The creation of a highlight report**
- B. The completion of the PID
- C. The end of the financial year
- D. The creation of an exception report

Answer: A

Explanation:

In PRINCE2, the creation of a highlight report is a time-driven control, typically scheduled at regular intervals, such as weekly or monthly during a stage. This report provides the Project Board and other stakeholders with a summary of the stage status, and it is triggered by the passage of time, not by specific events or exceptions within the project.
