

# Certified 1z0-1075-25 Questions - Download 1z0-1075-25 Free Dumps

## Oracle 1Z0-1075-25 Oracle Manufacturing Cloud 2025 Implementation Professional QUESTION & ANSWERS

Visit Now: <https://www.dumps-certify.com>

DOWNLOAD the newest DumpExam 1z0-1075-25 PDF dumps from Cloud Storage for free: [https://drive.google.com/open?id=1AtDYnGENH\\_xW-JfU1qhM9Ykuj5X5uF7q](https://drive.google.com/open?id=1AtDYnGENH_xW-JfU1qhM9Ykuj5X5uF7q)

The most interesting thing about the learning platform is not the number of questions, not the price, but the accurate analysis of each year's exam questions. Our 1z0-1075-25 study materials through the analysis of each subject research, found that there are a lot of hidden rules worth exploring, this is very necessary, at the same time, our 1z0-1075-25 Study Materials have a super dream team of experts, so you can strictly control the proposition trend every year.

The Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) certification is the way to go in the modern Oracle era. Success in the 1z0-1075-25 exam of this certification plays an essential role in an individual's future growth. Nowadays, almost every tech aspirant is taking the test to get Oracle certification and find well-paying jobs or promotions. But the main issue that most of the candidates face is not finding updated Oracle 1z0-1075-25 Practice Questions to prepare successfully for the Oracle 1z0-1075-25 certification exam in a short time.

>> Certified 1z0-1075-25 Questions <<

### Take Oracle 1z0-1075-25 Practice Exam Questions (Desktop & Web-Based)

At present, many office workers are dedicated to improving themselves. Most of them make use of their spare time to study our 1z0-1075-25 study materials. As you can see, it is important to update your skills in company. After all, the most outstanding worker can get promotion. You also need to plan for your future. Getting the 1z0-1075-25 Study Materials will enhance your

ability. Also, various good jobs are waiting for you choose. Your life will become wonderful if you accept our guidance.

## Oracle Manufacturing Cloud 2025 Implementation Professional Sample Questions (Q43-Q48):

### NEW QUESTION # 43

Your client needs to implement operational checks for compliance with training and job requirements. Which four statements are true about this functionality?

- A. The qualification Is used to warn a production supervisor If they assign operators that don ' t meet the skill requirements against the resource.
- B. You have the ability to associate a Job profile with a Standard operation resource.
- C. You do not have the ability to associate a Job profile with a Work order operation resource.
- D. You have the ability to associate a Job profile with a Work definition operation resource.
- E. The qualification Is enforced during reporting of labor usage.
- F. A qualified operator need not be specified to report resource transactions.

**Answer: A,B,D,E**

Explanation:

Oracle Manufacturing Cloud provides functionality to enforce compliance with training and job requirements through operational checks. The correct statements are:

\* Statement B : You can associate a job profile with a work definition operation resource. This ensures that only operators who meet the job requirements are allowed to perform the work.

\* Statement C : Qualifications are enforced when reporting labor usage, meaning that if an operator lacks the required qualifications, the system can prevent or warn about the labor transaction.

\* Statement D : You can also associate a job profile with a standard operation resource to enforce skills and training compliance.

\* Statement F : If an unqualified operator is assigned to a task, the system can notify the production supervisor to avoid non-compliance with skill requirements.

Incorrect options:

\* Statement A : A qualified operator must be specified to report resource transactions.

\* Statement E : You can associate a job profile with a work order operation resource, contrary to what is implied.

Oracle Manufacturing Cloud documentation on " Operational Checks for Compliance " explains the enforcement of job profiles and qualifications in production operations.

### NEW QUESTION # 44

Which three are Cost accounting methods '

- A. Actual Cost, also known as " FIFO "
- B. Perpetual Average Cost
- C. Frozen Standard Cost
- D. Layer Cost, also known as " LIFO "
- E. Periodic Actual Cost

**Answer: A,B,C**

Explanation:

Oracle Manufacturing Cloud supports multiple cost accounting methods to help organizations track the cost of their goods and inventory effectively. Below is an explanation of the correct answers:

\* Statement A : Perpetual Average Cost - This is a commonly used method in Oracle Cloud where the system continuously updates the average cost of an item with each receipt or transaction. This method is useful for organizations that need to track the moving average cost of goods in real-time.

Oracle SCM Cloud Cost Management Guide explains how Perpetual Average Cost is maintained and updated across transactions.

Statement C : Frozen Standard Cost - This method involves predefining a standard cost for each item at the beginning of a financial period. The cost remains " frozen " throughout the period, and variances between the actual cost and the standard cost are tracked and analyzed separately.

Reference : Oracle Costing Methods documentation specifies that the Frozen Standard Cost method is particularly useful for manufacturers who need stable cost inputs over a financial period.

Statement D : Actual Cost, also known as " FIFO " - The FIFO (First In, First Out) method records costs based on the order in which items are received. It is a type of actual costing where items are valued based on the specific costs of the earliest received

inventory. Oracle Cloud supports FIFO as part of its actual costing methods.

Reference : Oracle Cost Accounting documentation details the use of FIFO for tracking actual costs in a layered costing approach.

Incorrect Statements:

Statement B : Layer Cost, also known as "LIFO" - Oracle Cloud does not natively support LIFO (Last In, First Out) as a cost method due to accounting and regulatory restrictions in various regions. LIFO is generally not used in the system as a standard method.

Statement E : Periodic Actual Cost - While there is a method called Periodic Average Cost, Periodic Actual Cost is not typically listed as a standard costing method in Oracle Cloud.

#### NEW QUESTION # 45

Which three statements are true about the main areas of Managerial Accounting?

- A. Landed Cost Management gives organizations financial visibility into their extended supply chain costs.
- B. Cost method can be defined with granularity down to individual items.
- C. Supply Chain Orchestration automatically selects the correct process based on user-defined Subledger Accounting rules when a supply creation is initiated.
- D. Receipt Accounting is the application that performs accrual accounting for all types of receipts.

Answer: A,B,D

Explanation:

In Oracle Manufacturing Cloud and related financial applications, managerial accounting plays a significant role in tracking and managing costs across supply chain and manufacturing activities. The following is a breakdown of the correct statements:

\* Statement A : Receipt Accounting is the application that performs accrual accounting for all types of receipts - Receipt Accounting is a crucial module in Oracle Cloud that supports the tracking of costs and performs accruals related to receipts. This includes processes such as procurement receipts, interorganization transfers, and supplier shipments. This allows organizations to recognize and account for the expenses associated with these receipts.

Oracle Cloud SCM Documentation for Receipt Accounting outlines how the system manages accruals and matches them with purchase orders and invoices.

Statement B : Landed Cost Management gives organizations financial visibility into their extended supply chain costs - Landed Cost Management is designed to capture additional costs that arise during the transportation, handling, and processing of goods. This includes costs like shipping, insurance, and customs duties. By including these in the overall cost, it provides a more comprehensive view of the actual costs of goods in the supply chain.

Reference : Oracle Fusion SCM Guide, "Landed Cost Management," describes how it aggregates various indirect supply chain costs to give better financial visibility.

Statement D : Cost method can be defined with granularity down to individual items - In Oracle Manufacturing Cloud, costing methods can be assigned not only at the organization level but also at a granular level down to individual items. This provides flexibility in defining different costing strategies for different products depending on their nature, manufacturing process, or market conditions.

Reference : Oracle Manufacturing Cloud User Guide explains the flexibility in configuring cost methods at different organizational and item-specific levels.

Incorrect Statements:

Statement C : Supply Chain Orchestration automatically selects the correct process based on user-defined Subledger Accounting rules when a supply creation is initiated - While Supply Chain Orchestration automates various supply chain processes, it does not select processes based on Subledger Accounting rules.

The orchestration system is more focused on managing and coordinating supply chain processes rather than determining accounting rules.

#### NEW QUESTION # 46

A Production Operator is reporting an orderless transaction and realizes that the item has to be scrapped because some specifications were not met during one of the operations of the item. While performing orderless transactions, the operator notices that the Scrap and Return from Scrap transaction types are not available to transact.

Which privilege does the operator need to have to use these two transaction types?

- A. Report Material Transactions
- B. Report Scrap Transactions.
- C. Print Work Order Traveler
- D. Return from Scrap Transactions

**Answer: B**

**Explanation:**

In Oracle Manufacturing Cloud, for a Production Operator to perform scrap and return from scrap transactions during an orderless transaction, they must have the Report Scrap Transactions privilege. This allows them to properly record and reverse scrap transactions for any items that fail to meet specifications.

\* Report Scrap Transactions grants the operator the necessary permissions to use both the Scrap and Return from Scrap transaction types. Without this privilege, these transaction types will not be available in the system.

Incorrect options:

\* Return from Scrap Transactions (B) is not the correct privilege; the privilege to both scrap and return from scrap is covered under Report Scrap Transactions.

\* Print Work Order Traveler (C) and Report Material Transactions (D) are unrelated to scrap transaction reporting.

Oracle Cloud documentation on Privileges for Orderless Transactions describes the permissions required for handling scrap and return transactions.

**NEW QUESTION # 47**

Which statement is NOT true about cumulative lead time?

- A. It calculates cumulative manufacturing lead times by rolling up manufacturing lead times of make items.
- **B. It updates lead time percent at the operation level in the work definition.**
- C. It calculates cumulative total lead times by rolling up lead times of make items and adding up lead time values of buy items.
- D. It updates the item's lead time attributes at the end of the calculation process: cumulative manufacturing and cumulative total lead times.

**Answer: B**

**Explanation:**

Cumulative lead time is a key concept in Oracle Manufacturing Cloud, where it calculates the total time required to manufacture an item. The following points clarify the calculations:

\* Statement D is incorrect because cumulative lead time does not update the lead time percent at the operation level in the work definition. Instead, cumulative lead time focuses on rolling up the lead times of both make and buy items to provide an overall lead time for the entire production process.

Correct Statements:

\* Statement A : The system calculates cumulative manufacturing lead time by summing up the lead times of all make items in the production process.

\* Statement B : At the end of the cumulative lead time calculation process, it updates the lead time attributes of the item, specifically cumulative manufacturing and cumulative total lead times.

\* Statement C : Cumulative total lead time includes both make and buy item lead times, representing the complete production cycle from procurement to manufacturing.

Oracle Cloud SCM guide on "Lead Time Calculations" explains how cumulative lead times are calculated and updated but does not mention lead time percent at the operation level.

**NEW QUESTION # 48**

.....

Due to the shortage of useful practice materials or being scanty for them, many candidates may choose the bad quality exam materials, but more and more candidates can choose our 1z0-1075-25 study materials. Actually, some practice materials are shooting the breeze about their effectiveness, but our 1z0-1075-25 training quiz are real high quality practice materials with passing rate up to 98 to 100 percent. And you will be amazed to find that our 1z0-1075-25 exam questions are exactly the same ones in the real exam.

**Download 1z0-1075-25 Free Dumps:** <https://www.dumpexam.com/1z0-1075-25-valid-torrent.html>

You can obtain our 1z0-1075-25 practice materials within five minutes, It would take a lot of serious effort to pass the Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) exam, therefore it wouldn't be simple, Once you buy the Oracle 1z0-1075-25 braindumps questions and answers, you are entitled to 90 days for free update of the product, Our website is a worldwide professional dumps leader that provide valid and latest Oracle 1z0-1075-25 dumps torrent to our candidates.

Who Are the People Who Market and Sell, Some groups place the contact information within the procedures document, You can

obtain our 1z0-1075-25 practice materials within five minutes.

It would take a lot of serious effort to pass the Oracle Manufacturing Cloud 2025 Implementation Professional (1z0-1075-25) exam, therefore it wouldn't be simple, Once you buy the Oracle 1z0-1075-25 braindumps questions and answers, you are entitled to 90 days for free update of the product.

## 100% Pass Quiz 2026 Oracle Trustable Certified 1z0-1075-25 Questions

Our website is a worldwide professional dumps leader that provide valid and latest Oracle 1z0-1075-25 dumps torrent to our candidates, It will be your great loss to miss our 1z0-1075-25 practice engine.
