CompTIA CLO-002, also known as the CompTIA Cloud Essentials+ Certification, is a vendor-neutral certification that validates the knowledge and skills required to make informed decisions about cloud technologies and their business impact. CompTIA Cloud Essentials+ Certification Exam certification is designed for professionals who need to understand cloud computing from both a technical and business perspective, including IT managers, business analysts, project managers, and sales and marketing staff.

CompTIA CLO-002 Certification Exam is ideal for individuals who are looking to advance their careers in cloud computing. CompTIA Cloud Essentials+ Certification Exam certification is a vendor-neutral certification, which means that it does not focus on any specific cloud computing platform. This makes the certification valuable for professionals who work with different cloud platforms. Additionally, the certification exam is designed to be accessible to professionals with varying levels of experience in cloud computing.
