They are using outdated materials resulting in failure and loss of money and time. So to solve all these problems, DumpsValid offers actual ISO-IEC-27001-Foundation Questions to help candidates overcome all the obstacles and difficulties they face during ISO-IEC-27001-Foundation examination preparation. With vast experience in this field, DumpsValid always comes forward to provide its valued customers with authentic, actual, and genuine ISO-IEC-27001-Foundation exam dumps at an affordable cost.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q11-Q16):

NEW QUESTION # 11
In which clause would the requirements for internal audit be found?

- A. Planning
- B. Performance Evaluation
- C. Operation
- D. Improvement

Answer: B

Explanation:
The requirements for internal audit are explicitly placed inClause 9.2 (Performance Evaluation)of ISO/IEC 27001:2022. The standard requires:
* "The organization shall conduct internal audits at planned intervals to provide information on whether the information security management system... conforms to the organization's own requirements... and to the requirements of this document." (9.2.1)
* "The organization shall plan, establish, implement and maintain an audit programme(s)..." (9.2.2) This clause clearly falls underPerformance Evaluation (Clause 9), not Planning (Clause 6), Operation (Clause 8), or Improvement (Clause 10). Therefore, the correct answer isC.

NEW QUESTION # 12
What international standard provides guidance on the integration of ISO/IEC 27001 and the IT Service Management standard?

- A. None of the above
- B. ISO/IEC 27002
- C. ISO/IEC 20000-1
- D. ISO/IEC 27013

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27013 standards:
ISO/IEC 27013 is titled:
"Information technology - Security techniques - Guidance on the integrated implementation of ISO /IEC 27001 and ISO/IEC 20000-1."
This standard provides organizations with specific advice on how to integrate an Information Security Management System (ISMS) with an IT Service Management System (ITSMS). ISO/IEC 20000-1 is the IT Service Management requirements standard, but integration guidance is provided in 27013. ISO/IEC 27002 (A) is guidance for controls, not integration. Option D is incorrect since ISO/IEC 27013 explicitly exists for this purpose.
Therefore, the correct verified answer isB: ISO/IEC 27013.

NEW QUESTION # 13
What is the name of the control clause used to control information security breaches within Annex A of ISO /IEC 27001?

- A. Reporting information security incidents
- B. Information security event reporting
- C. Response to information security events
- D. Information security event management

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A in ISO/IEC 27001 refers directly to ISO/IEC 27002 for control guidance. In ISO/IEC 27002:2022, Clause 6.8 is titled: "Information security event reporting - Information security events should be reported through appropriate management channels as quickly as possible." This control ensures breaches, incidents, or suspected issues are reported for action. The other options (B, C, D) are not the exact titles in Annex A. The official title isInformation security event reporting, confirming

NEW QUESTION # 14
To whom does the scope of the Terms and conditions of employment control apply?

- A. Contractors only
- B. Employees only
- C. All employees, contractors and third-party users
- D. Personnel and the organization

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
Annex A.6.1 (Terms and conditions of employment) states:
"The contractual agreements with employees and contractors shall state their and the organization's responsibilities for information security." This means the control applies not just to employees, but also contractors and, where relevant, third-party users who are subject to contractual obligations with the organization. The goal is to ensure thatall parties engaged in work under the organization's control understand their security responsibilities before, during, and after employment or contract engagement.
Options A and B are too narrow, excluding key groups. Option C misrepresents the scope by implying a mutual responsibility but not identifying the individuals covered. The explicit scope includesemployees, contractors, and third-party users.
Therefore, the correct answer isD.

NEW QUESTION # 15
What is the definition of a threat according to ISO/IEC 27000?

- A. A potential cause of an unwanted incident which can result in harm to a system or organization
- B. The risk remaining after risk treatment
- C. A weakness of an asset or a control that can be exploited
- D. A single or a series of unwanted or unexpected information security events

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27000 standards:
According to ISO/IEC 27000:2018, Clause 3.74, athreatis defined as:
"Potential cause of an unwanted incident, which can result in harm to a system or organization." This definition directly matches option A.
* Option B refers to an "information security incident" (ISO/IEC 27000:2018, Clause 3.32).
* Option C describes a "vulnerability" (ISO/IEC 27000:2018, Clause 3.67).
* Option D refers to "residual risk" (ISO/IEC 27000:2018, Clause 3.61).
The standard emphasizes that threats exploit vulnerabilities, causing incidents that can harm information confidentiality, integrity, and availability. Correctly identifying threats is critical for risk assessment (Clause

6.1.2). Thus, the correct definition per ISO/IEC 27000 isA.

NEW QUESTION # 16
.....

In this career advancement ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) certification journey you can get help from valid, updated, and real ISO-IEC-27001-Foundation Dumps questions which you can instantly download from DumpsValid. At this platform, you will get the top-rated and Real ISO-IEC-27001-Foundation Exam Questions that are ideal study material for quick APMG-International ISO-IEC-27001-Foundation exam preparation.
