Valid 300-745 Dumps - 300-745 Exam Duration

Do you like to practice study materials on paper? If you do, you can try our 300-745 exam dumps. 300-745 PDF version is printable, and you can study anywhere and anytime. We offer you free demo for you to have a try before buying, so that you can have a better understanding of 300-745 Exam Dumps what you are going to buy. Free update for 365 days is available, and you can get the latest information about the 300-745 exam dumps timely. The update version will be sent to your email automatically.

Cisco Designing Cisco Security Infrastructure Sample Questions (Q42-Q47):

NEW QUESTION # 42

A developer company recently made a contract with new customer in the financial space. The customer has multiple remote sites and requires a VPN solution with the highest encryption. Which protocol must be used in IPsec Phase 2?

- A. ESP
- B. SD-WAN
- C. IKE
- D. ISAKMP

Answer: A

Explanation:

In IPsec Phase 2, the Encapsulating Security Payload (ESP) protocol is used to provide confidentiality, integrity, and authentication for VPN traffic. ESP ensures the highest encryption and protection for sensitive financial data across remote sites.

NEW QUESTION # 43

Considering recent cybersecurity threats, a company wants to improve the process for identifying, assessing, and managing risks with a comprehensive and holistic approach. Which framework must be used to meet these requirements?

- A. HIPPA
- **B. NIST SP 800-37**
- C. GDPR
- D. MITRE CAPEC

Answer: B

Explanation:

NIST SP 800-37 provides the Risk Management Framework (RMF), which establishes a structured process for identifying, assessing, and managing cybersecurity risks. It offers a comprehensive and holistic approach, integrating security and risk management activities into the system development life cycle, making it the appropriate framework for this requirement.

NEW QUESTION # 44

A company hosted multiple applications in the Kubernetes environment, using the naming app01, app02, and so on. An app01 user could access app02 data because no security measures are implemented. The administrator decided to place each application within a separate namespace and ensure that the namespaces are completely isolated and cannot communicate with each other. Which solution must be used to accomplish the task?

- **A. NetworkPolicy**
- B. HTTPRoute
- C. RoleBinding
- D. Gateway

Answer: A

Explanation:

In Kubernetes, a NetworkPolicy controls communication between pods and namespaces. By applying policies that deny cross-namespace traffic, the administrator can ensure each application (e.g., app01, app02) is isolated and cannot access data from other namespaces.

NEW QUESTION # 45

A global marketing firm, based in California with customers on every continent, suffered a data breach that exposed employee and customer PII. Which regulations is the company in danger of violating?

- A. FedRamp
- B. ISO27001
- **C. GDPR**
- D. ISO SP800-53

Answer: C

Explanation:

Since the company serves customers on every continent, including the European Union, exposing customer PII puts it at risk of violating the General Data Protection Regulation (GDPR).

GDPR applies globally to any organization handling EU residents' personal data, regardless of where the company is based.

NEW QUESTION # 46

A manufacturing company experienced a security breach that resulted in sales data being compromised. An engineer participating in

the investigation must identify who logged into the sales system during the affected period. Which approach must be used to gather the information?

- A. AAA
- B. SNMP
- C. NACM
- D. PKI

Answer: A

Explanation:

AAA (Authentication, Authorization, and Accounting) provides accounting logs that record who logged in, when, and from where. During an investigation, these logs allow the security team to trace user logins to the sales system and identify who accessed it during the breach period.

NEW QUESTION # 47

.....

Our 300-745 prep material target all users and any learners, regardless of their age, gender and education background. We provide 3 versions of our 300-745 learning prep for the clients to choose based on the consideration that all the users can choose the most suitable version to learn. The 3 versions each support different using method and equipment and the client can use the 300-745 Exam study materials on the smart phones, laptops or the tablet computers. The clients can choose the version of our 300-745 exam questions which supports their equipment on their hands to learn.
