SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q18-Q23):

NEW QUESTION # 18

What provides a foundation for the SAP Cloud ERP where integrations and extensions live?

- A. SAP Business Technology Platform
- B. SAP Business Accelerator Hub
- C. SAP ABAP Environment
- D. SAP Discovery Center

Answer: A

NEW QUESTION # 19

What are some characteristics of public cloud? Note: There are 2 correct answers to this question.

- A. Perpetual license
- B. Multi-tenant server
- C. Software installation on customer site
- D. Lower total cost of ownership

Answer: B,D

Explanation:

A public cloud is a type of cloud computing in which a third-party service provider makes computing resources available to users over the public Internet. Some characteristics of public cloud are:

* Multi-tenant server: Public cloud uses shared infrastructure, where multiple users or organizations can access the same resources, such as compute, storage, or applications. The data and applications of each user are isolated and secured from others. This allows for efficient utilization of resources and scalability.

* Lower total cost of ownership: Public cloud reduces the upfront and operational costs of IT, as users do not need to purchase, install, or maintain hardware or software. Users only pay for the resources they use, and can benefit from the economies of scale and continuous innovation of the cloud service provider.

NEW QUESTION # 20

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note:

There are 2 correct answers to this question

- A. Highlight areas that require configuration or customization decisions.
- B. Determine set up instructions for customer-driven integrations.
- C. Conduct end-user training on active scope items.
- D. Demonstrate SAP Best Practice business processes in the starter system

Answer: A,D

Explanation:

During the Fit-to-Standard workshops, an implementation consultant supports customer experts by doing the following:

* Demonstrate SAP Best Practice business processes in the starter system. The consultant shows the customer experts how the standard processes work in SAP S/4HANA Cloud Public Edition and how they fit their business needs¹.

* Highlight areas that require configuration or customization decisions. The consultant identifies and documents the gaps between the standard processes and the customer requirements, and proposes solutions that are aligned with the cloud mindset¹.

The other options are not the correct ways to support customer experts during the Fit-to-Standard workshops. Determining set up instructions for customer-driven integrations is done in the integration phase, after the Fit-to-Standard workshops are completed².

Conducting end-user training on active scope items is done in the deploy phase, before the go-live of the system³. References =

NEW QUESTION # 21

If you cannot find a prepackaged solution process that addresses integration requirements in SAP Signavio Process Navigator, where do you look next?

- A. SAP Cloud ALM
- **B. SAP Business Accelerator Hub**
- C. SAP Business Technology Platform
- D. SAP Discovery Center

Answer: B

Explanation:

If you cannot find a prepackaged solution process that addresses integration requirements in SAP Signavio Process Navigator, you should look next at the SAP Business Accelerator Hub. The SAP Business Accelerator Hub is a central repository of integration content that can help you to connect SAP S/4HANA Cloud Public Edition with other SAP and non-SAP applications. You can browse, search, and filter the available integration packages, scenarios, and APIs, and access the relevant documentation and configuration guides¹. The SAP Business Accelerator Hub also provides links to the SAP Integration Suite tools, such as SAP Cloud Integration, SAP API Management, and SAP Cloud Integration Automation Service, that you can use to implement and manage the integrations².

The other options are not the correct places to look for integration requirements. SAP Discovery Center is a portal that helps you to discover, try, and buy SAP solutions and services³. SAP Business Technology Platform is a platform that enables you to extend, integrate, and build applications in the cloud⁴. SAP Cloud ALM is a cloud-based application lifecycle management tool that supports you in implementing, operating, and enhancing your cloud solutions⁵. References = SAP Business Accelerator Hub, SAP S/4HANA Cloud Public Edition - Integration, SAP Discovery Center, SAP Business Technology Platform, SAP Cloud ALM.

NEW QUESTION # 22

You are using the Test Automation Tool.
When do you define a data variant??

- **A. After providing consent for Post-Upgrade Testing.**
- B. After binding a process step field to a Test Data Container.
- C. After customizing a test process.
- D. After creating a test plan.

Answer: A

NEW QUESTION # 23
