

JN0-336 Latest Exam Practice | Valid JN0-336 Test Notes

What's more, part of that Real4exams JN0-336 dumps now are free: <https://drive.google.com/open?id=1esi7TQP1qp7XKvCWxCBz4qWdY6XFeylm>

As the talent competition increases in the labor market, it has become an accepted fact that the JN0-336 certification has become an essential part for a lot of people, especial these people who are looking for a good job, because the certification can help more and more people receive the renewed attention from the leader of many big companies. So it is very important for a lot of people to gain the JN0-336 certification. We must pay more attention to the certification and try our best to gain the JN0-336 Certification. First of all, you are bound to choose the best and most suitable study materials for yourself to help you prepare for your exam. Now we would like to introduce the JN0-336 certification guide from our company to you. We sincerely hope that our study materials will help you through problems in a short time.

It is not hard to find that there are many different kinds of products in the education market now. It may be difficult for users to determine the best way to fit in the complex choices. We can tell you with confidence that the JN0-336 practice materials are superior in all respects to similar products. First, users can have a free trial of JN0-336 test prep, to help users better understand the JN0-336 Study Guide. If the user discovers that the product is not appropriate for him, the user can choose another type of learning material. Respect the user's choice, will not impose the user must purchase the JN0-336 practice materials. We can meet all the requirements of the user as much as possible, to help users better pass the qualifying exams.

Valid JN0-336 Test Notes - Latest JN0-336 Test Question

before making a choice, you can download a trial version of JN0-336 preparation materials. After you use it, you will have a more complete understanding of this JN0-336 exam questions. In this way, you can use our JN0-336 study materials in a way that suits your needs and professional opinions. We hope you will have a great experience with JN0-336 Preparation materials. At the same time, we also hope that you can realize your dreams with our help. We will be honored.

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q41-Q46):

NEW QUESTION # 41

You are preparing a proposal for a new customer who has submitted the following requirements for a vSRX deployment:

- globally distributed,
- rapid provisioning,
- scale based on demand,
- and low CapEx.

Which solution satisfies these requirements?

- A. Juniper ATP Cloud
- B. AWS
- C. Network Director
- D. VMWare ESXi

Answer: B

Explanation:

The solution that satisfies the requirements for a vSRX deployment is AWS. AWS (Amazon Web Services) is a cloud computing platform that provides on-demand services such as infrastructure, platform, software, and database as a service. AWS is globally distributed, meaning that it has data centers in multiple regions around the world. AWS also allows rapid provisioning, meaning that you can launch vSRX instances in minutes using preconfigured Amazon Machine Images (AMIs) or custom templates. AWS also enables scaling based on demand, meaning that you can adjust the number and size of vSRX instances according to your network traffic and performance needs. AWS also has low CapEx (capital expenditure), meaning that you only pay for what you use and do not need to invest in hardware or maintenance costs.

NEW QUESTION # 42

Your JIMS server is unable to view event logs.

Which two actions would you take to solve this issue? (Choose two.)

- A. Enable the correct host-inbound-traffic rules on the SRX Series devices.
- B. Enable remote event log management within Windows Firewall on the necessary Exchange servers.
- C. Enable remote event log management within Windows Firewall on the JIMS server.
- D. Enable remote event log management within Windows Firewall on the necessary domain controllers.

Answer: C,D

Explanation:

JIMS needs to access the event logs from domain controllers to function properly, as it relies on these logs to track user and device activity across the network. If the Windows Firewall on the domain controllers is blocking this access, enabling remote event log management will allow JIMS to retrieve the necessary information.

While it's less common, ensuring that any firewall settings on the JIMS server itself do not block outgoing requests or responses related to event log management is also crucial. This ensures that JIMS can send out requests and receive responses without any hindrance from its own firewall.

NEW QUESTION # 43

Your manager asks you to provide firewall and NAT services in a private cloud.

Which two solutions will fulfill the minimum requirements for this deployment? (Choose two.)

- A. a single vSRX
- B. a vSRX for firewall services and a separate vSRX for NAT services
- C. a cSRX for firewall services and a separate cSRX for NAT services
- D. a single cSRX

Answer: A,D

Explanation:

A single vSRX instance is capable of handling both firewall and NAT services simultaneously. This solution provides a streamlined and resource-efficient way to secure and manage network traffic within a private cloud environment.

Similar to the vSRX, a single cSRX can also provide both firewall and NAT services. The cSRX, being a containerized version of the SRX, is particularly suited for environments where high density and microservices architectures are used, offering high performance in a compact form factor.

NEW QUESTION # 44

How does the SSL proxy detect if encryption is being used?

- A. It uses application identity services.
- B. It queries the client device.
- C. It looks at the destination port number.
- D. It verifies the length of the packet

Answer: C

Explanation:

The SSL proxy can detect if encryption is being used by looking at the destination port number of the packet. If the port number is 443, then the proxy can assume that the packet is being sent over an encrypted connection. If the port number is different, then the proxy can assume that the packet is not encrypted. For more information, please refer to the Juniper Networks JNCIS-SEC Study Guide.

NEW QUESTION # 45

On which three Hypervisors is vSRX supported? (Choose three.)

- A. Oracle VM
- B. Citrix Hypervisor
- C. VMware ESXi
- D. Hyper-V
- E. KVM

Answer: C,D,E

Explanation:

vSRX is a virtual firewall that runs as a software instance on a hypervisor. A hypervisor is a software layer that allows multiple virtual machines to run on a single physical host. vSRX supports three hypervisors: VMware ESXi, Hyper-V, and KVM. VMware ESXi is a hypervisor that runs on x86 servers and supports various operating systems and applications. Hyper-V is a hypervisor that runs on Windows Server and supports Windows and Linux virtual machines. KVM (Kernel-based Virtual Machine) is a hypervisor that runs on Linux and supports Linux, Windows, and other operating systems.
