NEW QUESTION # 16

Which two statements are true about a project in "Draft" status? (Choose two.)

- A. Team members cannot see the tasks from draft projects on the Team Member Dashboard or in the My Work area.
- B. Project managers can view draft projects on the Project Manager Dashboard and use the projects for requirements planning.
- C. Team members can see the tasks from draft projects on the Team Member Dashboard or in the My Work area.
- D. Project managers can neither view draft projects on the Project Manager Dashboard nor use the projects for requirements planning.

Answer: A,B

Explanation:
Reference https://docs.oracle.com/cloud/latest/projectcs_gs/OAPEM/OAPEM1122096.htm The following table lists the project statuses and what you can do with projects in that status.
Project Status
What you can do?
Draft
* Project managers can view draft projects in the Project Manager Dashboard and use the projects for requirements planning.

* Team members can't see the tasks from draft projects on the Team Member Dashboard or in the My Work area.
Active
* Project managers can view active projects in the Project Manager Dashboard and use the projects for requirements planning, project execution, and reporting.
* Team members can view task assignments on active projects on the Team Member Dashboard and My Work area.

NEW QUESTION # 17
Which two statements are true about the borrowed and lent cross charge method? (Choose two.)

- A. You must set up a contract business unit to use this method.
- B. This method allows you to process cross charge transactions across legal entities.
- C. This method creates accounting entries that move an amount equal to the transfer price between the provider and receiver organizations
- D. Internal Invoice is not generated with this method.

Answer: B,D

Explanation:
The borrowed and lent cross charge method is a method that allows you to process cross charge transactions between provider and receiver organizations that belong to different legal entities within the same primary ledger. This method does not generate internal invoices or intercompany accounting entries for cross charge transactions. Instead, this method creates accounting entries that move an amount equal to the transfer price between the provider and receiver organizations using borrowed and lent accounts. Two statements that are true about this method are:
* Internal Invoice is not generated with this method. This method does not create internal invoices for cross charge transactions, as these transactions are accounted within the same primary ledger using borrowed and lent accounts.
* This method allows you to process cross charge transactions across legal entities. This method allows you to process cross charge transactions between provider and receiver organizations that belong to different legal entities within the same primary ledger, as long as they share the same chart of accounts, calendar, currency, and subledger accounting method.
