Test C_TS410_2022 Dumps & C_TS410_2022 Reliable Dumps Sheet

Many people worry about buying electronic products on Internet, like our C_TS410_2022 preparation quiz, we must emphasize that our C_TS410_2022 simulating materials are absolutely safe without viruses, if there is any doubt about this after the pre-sale, we provide remote online guidance installation of our C_TS410_2022 Exam Practice. It is worth noticing that some people who do not use professional anti-virus software will mistakenly report the virus.

SAP Certified Application Associate - Business Process Integration with SAP S/4HANA Sample Questions (Q49-Q54):

NEW QUESTION # 49

What type of document is generated for an external network activity?

- A. Sales order
- B. Production order
- C. Reservation
- D. Purchase requisition

Answer: D

Explanation:

For an external network activity, the document that is typically generated is a Purchase Requisition (D).

External network activities involve services or materials that are procured from outside the company. A purchase requisition is the first step in the procurement process, signaling the need to procure goods or services from external suppliers to fulfill the requirements of the project or network activity.

* A Production Order (A) is used in manufacturing processes to produce a specific quantity of products.

* A Sales Order (B) represents an order placed by a customer for the supply of goods or services.

* A Reservation (C) is used in inventory management to earmark materials for a particular purpose but is not directly linked to external procurement for network activities.

NEW QUESTION # 50

How can you post external labour costs to a network activity?

- A. By service entry sheet
- B. By settlement
- C. By activity allocation
- D. By confirmation

Answer: A

Explanation:

Posting External Labor Costs: In SAP, external labor costs, such as those from subcontractors or external services, can be posted to network activities (part of Project Systems or Plant Maintenance) to capture the costs associated with external services.

Service Entry Sheet as a Mechanism:

Service Documentation: The service entry sheet is used to record the details of services provided by external vendors, including labor hours, rates, and total cost.

Cost Posting: Upon approval, the service entry sheet triggers the posting of external labor costs to the relevant network activity, ensuring accurate cost allocation and tracking.

Implementation in SAP: In the Project System (PS) or Plant Maintenance (PM) modules, service entry sheets are created and managed to document and approve external services, which are then associated with specific network activities for cost tracking.

NEW QUESTION # 51

A goods issue is posted against a production order. What are the results? Note. There are 3 correct answers to this question.

- A. Internal labor costs are posted.
- B. A material ledger document is created
- C. A warehouse task is created.
- D. The material reservation is reduced.
- E. Actual costs are updated in the production order.

Answer: B,D,E

Explanation:

* Goods Issue Against Production Order: Posting a goods issue to a production order signifies the consumption of materials for the production process, impacting inventory, costing, and the production order itself.

* Results of Goods Issue:

* B. Material Reservation Reduction: The reserved quantity for the production order in the material reservation is reduced accordingly, reflecting the consumption of materials.

* D. Material Ledger Document Creation: A material ledger document is generated, recording the movement of materials and the associated value changes, crucial for material valuation and cost analysis.

* E. Actual Costs Update: The actual costs incurred from the goods issue are updated in the production order, providing visibility into the production costs and aiding in variance analysis.

* Implementation in SAP: In SAP Manufacturing and Material Management modules, goods issues are processed against production orders to ensure accurate tracking of material consumption, cost accounting, and inventory management.

NEW QUESTION # 52

What information do you maintain for a general ledger account on company code level?

- A. Account currency
- B. Account type
- C. Account group
- D. Account number

Answer: A

NEW QUESTION # 53

What document, when saved, creates a commitment for an internal order?

- A. Goods receipt
- B. Production order
- **C. Purchase order**
- D. Maintenance order

Answer: C

NEW QUESTION # 54
