### CIMA F3 Financial Strategy Sample Questions (Q269-Q274):

#### NEW QUESTION # 269

Which THREE of the following statements about stock market listings are correct?

- A. The increased scrutiny that applies to listed companies makes them less attractive to investors.
- B. The reporting requirements for listed companies are more onerous than those for private companies
- C. When seeking a listing to raise capital companies typically must ensure they include any costs of underwriting shares they need to issue when determining the number of
- D. Listed companies may be viewed more favorably by suppliers and consequently granted more generous payment terms than private companies
- E. A prerequisite to obtaining a listing is that a public company must reregister as a private company first.

Answer: B,C,D

#### NEW QUESTION # 270

Company A operates in country A and uses currency AS. It is looking to acquire Company B which operates in country B and uses currency BS. The following information is relevant:

Current exchange rate	BS 17 AS 0.3
Rate of inflation in country A	3%
Rate of inflation in country B	5%
Company B's WACC	8%
Company B's cost of equity	10%

The assistant accountant at Company A has prepared the following valuation of company B's equity, however there are some errors in his calculations.

	Year 1	Year 2	Year 3 and each year thereafter
Forecast free cash flow to all investors BS million	50	60	70
Forecast exchange rate	BS 1 = AS 0.3058	BS 1 = AS 0.3117	BS 1 = AS 0.3178
Forecast free cash flow to all investors AS million	15.29	18.70	22.25
Discount Factor @ 8%	0.926	0.857	0.794
Present Value AS million	14.16	16.03	17.67

Value of Company B's equity = 14.16 + 16.03 + 17.67 = AS47.86 million

Company B has BS5 million of debt finance.

Which of the following THREE statements are true?

- A. The conversion into AS is incorrect as the assistant accountant should have divided by the exchange rate and not multiplied.
- B. The calculations show Company B's entity value, not its equity value.
- C. The valuation is understated because forecast cash flows beyond year 3 have been ignored.
- D. Cash flow to all investors should be discounted at Company B's cost of equity of 10% rather than its WACC of 8%.
- E. The forecast exchange rates are incorrect as they show the BS strengthening and it should be weakening.

**Answer: C,D,E**

**NEW QUESTION # 271**
